Montana Silversmiths takes great pride and appreciation in the connections created between our products and our customers. From the creation of our first buckle in 1973, to becoming the Brand of Champions® and crafting fine Western jewelry, these treasured Montana moments are often celebrated with Montana Silversmiths products and are tied to life events, personal milestones, love stories or a championship win.

Our relationships, our company values and the people behind our product form the cornerstones for our future. Montana Silversmiths continues to open new frontiers in design through innovation, creativity and the standard of creating world class products at every touchpoint.

## LEADERS BY DESIGN

Rooted within the West and led by a passion for life and our heritage, Montana Silversmiths translates the beauty of Nature found in our surroundings and reflect this beauty through the story-telling of our signature bright-cut engraving, and distinctive designs.

The hand-crafted detail of each piece is a testament to the quality of Montana Silversmiths jewelry and buckles. We set the gold and silver standard for excellence in championship buckles, as the Brand of Champions, and in the silver artistry of our jewelry.
