"IN-FORMATION WITH/FROM THE LORD GOD OF OUR BEING"

Takyon Trans-Form Technologies (TTT)[®]
Unified Field Energy:

A UNIFIED POTENTIAL-UNIFIED FIELD ENERGY NON CRYSTALLINE TAKYON TRANSDUCER CHAKRAS & SUBTLE BODIES TAKYON STIMULATOR-ACTIVATOR(CSB-TSA) R-1KA UNIT

Once again, we thank our UTC-TTT friends and supporters for their wonderful letters of acknowledgement, support, feedback, comments and suggestions and requests for more Unified Field Energy Takyon Transducers/Devices for a host of other applications besides protection against Electromagnetic Intrusions.

Coinciding with the publication of the first edition of the epic work, **MATRIX 5** by the eminent **Leading Edge Research Group(LEIRG)**, we of **UTC-TTT** begun a research project that paralleled the main premise of **MATRIX 5**, namely, to help/accelerate spiritual evolution/development of humans in their final incarnations, in spite of all the alien intrusions from God Knows Where! Readers of **MATRIX 5** may have seen some of our technical info therein or in the **LEIRG** Website, and learn that we continue our research to help humankind in its final incarnations, for those that have the courage to go beyond"the box!"

Inasmuch as other groups use non-metallic materials to enfold "tachyons", such as epoxy beads, fabrics, plastics, etc., we of **UTC-TTT** have used crystalline-metallic, tactical materials exclusively, since our proprietary processes involve vacuum heat-treatments, para- and dia-magnetic annealing, pulsating magnetic fields and other proprietary "alchemical processes." However, this new product has been made possible by exploring a little known allotropic phase known as a "glassy, vitreous, semi-vitreous dis-ordered phase" found in ortho-, meta-, and ordinary silicates, which are largely morphologically "amorphous".

Thanks to the Scanning Tunneling Electron Microscope(STEM) "wizards" of the eminent **Chicago Research Group & Associates(CRGA)**, who helped us with this unusual research, we have found an unusual non-crystalline, vitreous phase that can enfold or "condense" **Unified Field Energy Takyons** in a manner that even crystalline microstructures have not done thus far. In a vitreous silica phase, similar to that found in minerals like Quartz and Jade in the pegmatites or bowels of the earth, we have created a matrix/network of dis-ordered, random atomic lattice that we have coined or "dubbed" **NON-CRYSTALLINE SILICATE MATRIX, NCSM**. This is an unusual allotropic phase of what is intrinsically known as a Silica/Silicon Dioxide, SiO_2 , or Silicium Di-oxid, its original European name.

We have developed a process whereby we can enfold **Unified Field Energy Takyons, UFET**, in this **NCSM** without creating residual stresses/thermal stresses that can induce cracking or microfissures in the vitreous matrix. The actual mechanism and theoretical premise of this new **UFET** device is based on the concept of the late Prof. David Bohm whereby we have created a **SUPER QUANTUM POTENTIAL, SQP**, and the **FIELD EFFECT** occurs only when the **UFET** device comes in contact with the Human Body--an amazing phenomenon indeed! We know this to be Divine Inspiration!

Our research showed in field tests that the synergistic action of the **SQP** or **UNIFIED POTENTIAL** and its associated **UNIFIED FIELD** creates an unusual Energy/Resonance-Pulsation when applied to discrete locii or plexi in the human body associated with the **7 Chakras/7 Subtle Bodies**. This stimulation-activation of the chakras, unlike any other device in the market, prepares or "jump-starts" the physical vehicle/body for deep meditation, profound focus and psychic work. This is precisely what Spiritual Evolution/Evolution is all about, namely, to ingress the Spiritual & Astral Hyperdimensions unassailed by external intrusions in our Final Incarnations. We just need a "JumpStart" with this **UFET R-1KA** device!
