

The Aliens... They Need to Know

No one has ever thought of this... believe me, I know.
No one has ever thought of this... believe me, I know.
The aliens, they need to know what is going on...

They need to know
What's going on
If they want to
Come to where the party is

They need to know
What's going on
If they want to
Come to where the party... is at!

We'll put Warrant on Galileo
We'll send 'em Poison, they won't know what
To do at first, they'll have to listen to it
Then they'll catch the beat
Friends will get together
They'll start companies
They'll make money
They'll fly their spaceships into the heavens
They'll fly their spaceships into the heavens, oh yeah!
They'll pull all kinds of crazy maneuvers, oh yeah!

They need to know
What's going on
If they want to
Come to where the party is

They need to know
What's going on
If they want to
Come to where the party... is at!

We'll put Warrant on Galileo
We'll send 'em Poison, they won't know what
To do at first, they'll have to listen to it
Then they'll catch the beat
Friends will get together
They'll start companies
They'll make money
They'll fly their spaceships into the heavens
They'll fly their spaceships into the heavens, oh yeah!
They'll have better sex or my name isn't Dex!
