

### *A Story of Hope*

Yves found studying impossible! His family could not afford school supplies or a uniform and his school didn't have enough classrooms for all of the students. Then FH helped Yves' community build 10 new classrooms, all equipped with school supplies, so Yves and his classmates could learn and focus in school. Now, Yves studies hard and learns valuable skills, with access to the education that can lead to a brighter future.

### A LIFE-CHANGING GIFT

has been given

### IN YOUR HONOR

The gift of education means that vulnerable children can stay in school and have the resources they need to succeed! Education empowers children and youth in poverty to seize a brighter future with the knowledge of how to read, write, count, and more!
