A listing of paper-covered books with a sufficient tinge of the super-natural, or, the super-scientific as to warrant placement in the science-fantasy field.

The titles under each author have only one edition noted. This is followed by the name of the publisher, year date of publication, and number of pages. The "Book" title is given - when the name of the original hardcover is unchanged, the only notation is: same. The city of publication is not stated in most cases since almost all publishers are located in New York City. The following are exceptions:

Fawcett (Gold Medal) (Crest) - Greenwich, Connecticut
Monarch Books - Derby, Connecticut
Transport Publishing Co. - Sydney, Australia
Pemberton - Manchester, England
Arrow Books (Hutchinson) - London
Badger Books (John Spencer) - London
Boys' Friend Library - London
Champion Library - London
Digit Books - London
Everybody's Books - London
Gannet - London
Hamilton, or, Panther Books - London
Milestone - London
Mitre Press - London
Pan Books - London
Pharos Books - London
Scion Ltd. - London
Edwin Self - London
Gerald Swan - London
Utopia Publications - London
Curtis Warren - London

This checklist is very nearly complete. You will find new titles, and a few old ones that are not included. Additional information will be truly appreciated by the publisher.
