ORDO TEMPLI ORIENTIS

STELLAR VISIONS THE O.T.O. CHAPTER

Stellar Visions has become a Chapter in the Ordo Templi Orientis of Aleister Crowley.

For those who are not familiar with the Order we quote from an introduction by Crowley.

"To all it may concern. Let it be known that there exists, unknown to the great crowd, a very ancient order of sages, whose object is the amelioration and spiritual elevation of mankind, by means of attaining the power of recognizing the Truth."

We will of course continue to publish works by past and present members of the Order though there may be some small delay in our plans for the present.

Those who wish to attend Order functions may call (415) 668-0158 for the time and place of the next open meeting in the Bay Area, or reference to the Lodge Chapter or Camp nearest them.

LET US KNOW

If you would like us to announce an event your Lodge, Chapter, Camp, Coven, study group, or organization is intending to hold; we must receive notice by the first day of the previous month in order to include it.

Though this issue is being mailed internationally to the membership of the O.T.O. we also distribute it in bookstores and to our own mailing list. If we know what you plan in advance we can help boost participation.

These are the "mid-point" words of Liber AL vel Legis. They are the one or two words that fall in the exact center of the verses. If the verse had an odd number of words there would be one word in the center, if an even number there would be two words.

Since there are 301 words at the mid-point, you may note that there is one more verse with an odd number of words than the verses with an even number.

This working was originally published in the O.T.O. Newsletter, but there were errors. We have checked and re-checked this version, but we point out that it is not beyond the realm of possibility that there are still errors in the text.

We have noticed in reading these mid-points out loud that they make far more sense than sight reading them, due in part to the fact that the word "the" sounds like "Thee" to the listener in the context of what he hears. There are other examples, with different words, where this occurs.

We have also noticed that the reading of these words seem to us to build an intense Astral Charge in a room in a very short time. Far more intense than would normally be expected from a Ritual so short.

We feel that we should include "The Comment" on the Book of the Law with this listing of the Mid-Points of Its verses. It is an A.: A.: publication in Class A.

The Comment.

Do what thou wilt shall be the whole of the Law.

The study of this Book is forbidden. It is wise to destroy this copy after the first reading.

Whosoever disregards this does so at his own risk and peril. These are most dire.

Those who discuss the contents of this Book are to be shunned by all, as centres of pestilence.

All questions of the Law are to be decided only by appeal to my writings, each for himself.

There is no law beyond Do what thou wilt.

Love is the law, love under will.

COSMIC NEWS & VIEWS

NOVEMBER AT A GLANCE

Do what thou wilt shall be the whole of the Law.

Transportation in November looks somewhat better with Mercury Direct now; tho a conjunction between Sun and Uranus followed by another conjunction with Mercury and Uranus could possibly upset any plans between Nov. 16th and the end of the month. Specifically tho, the night of Nov. 7th and all day on Nov. 8th travel is worse than it has been in a long time. Thanksgiving will be subject to many surprises and there is a great deal of transformation in the air as well on the holiday.

The 2 main influences of November are first (and foremost) the planet Uranus entering the sign of Sagittarius on Nov. 16th, bringing unexpected events to all those ruled by the sign Sagittarius. Uranus will be in this sign until January 1989 so Sagittarians (specifically) can expect the unexpected during these 8 years. There will probably be quite a few disruptions of the existing circumstances creating revolutionary changes between now and 1989; especially when Uranus comes to the conjunction with the Sagittarian's natal Sun!

The other primary influence of the month is Jupiter conjunct Pluto. As I said before, conjunctions are EXTREMELY strong and this one will even be felt as early as October as it is exact on Nov. 2nd. This aspect could bring innumerable transformations and complete changes regarding money and material resources.

Jealousy and depression may cause hassles towards the second half of Nov., but these problems can be resolved thru love and sincere communication.

See this month's column for the details.

Please write and let me know what you think.

Send a self addressed, stamped envelope to assure the timely arrival of your COSMIC NEWS AND VIEWS.

COSMIC NEWS & VIEWS NOVEMBER 77 AN 1981 e.v.

SUNDAY Nov. 1st:
Moon enters Capricorn 4:47 a.m.
The month begins with the Moon in her fall and career will be more to the fore all of November. Ambition runs high tonite, tho hypertension can be a problem for those who are too energetic this evening. New cycles are beginning in dreams and the superconsciousness between now and Nov. 8th, with the peak of the influence on Nov. 2nd. Money concerns in the first week of November are subject to all kinds of drastic changes and overall transformations.

MONDAY Nov. 2nd:
Jupiter is conjunct Pluto in Libra 0:51a.m.
Dreams should be extremely enlightening and could bring about a tremendous transformation for many in the long run. Some emotional depression around lunch time could be a hassle but there is great potential to change the way you normally react to upsetting events now so if you put forth the effort you may be amazed at the results. Possible promotions in job or profession this week. Travel is subject to much difficulty today, especially tonite and all day tomorrow

TUESDAY Nov. 3rd:
Moon enters Aquarius 4:52 p.m.
Mercury in Libra is sextile Neptune in Sagittarius at 8:10 p.m.
Mercury in Libra is semi-square Mars in Virgo 9:14 p.m.
Transportation is still hazardous this morning and even more so tonite; there could be danger of chemical spills or other unusual causes of traffic tie-ups. Early morning problems will clear up by noon; some will receive unexpected surprises from friends this afternoon. Beware of erratic speech or "saying the exactly wrong thing at the wrong time" as there is too much impulsiveness today, especially tonite.

WEDNESDAY Nov. 4th:
Venus in Sagittarius is semi-sextile Uranus in Scorpio 12:17 p.m.
A rather slow period with only one exact major aspect made in the sky today; tho that angle is one of unexpected meetings with friends and creativity is on a higher level today as well. People may feel as if their desire natures are at odds with their emotional urges. Tonite there is the ability to resolve any hassles thru communication and an open-ness to totally new ways of thinking if the persons involved are able to control a tense argumentative vibration in the atmosphere.

THURSDAY Nov. 5th:
Venus enters Capricorn 4:40 a.m.
Mercury is conjunct Pluto in Libra 12:08 p.m.
Travel is much better today and there may be more ease than normal in the routine of going home from work this evening. Afternoon hours are pretty spaced out, with potential for much transformation in your objectives (group-wise as well as personally). Rapport around noon could lead to whole new fields of experience in partnerships and its the perfect time to do analytical research into the mind. There are energies implying unexpected obstacles late tonite and some concerns could come to a crisis point between this afternoon and early a.m. tomorrow.

FRIDAY Nov. 6th:
Moon enters Pisces 1:53 a.m.
Mercury is conjunct Jupiter in Libra 2:04 a.m.
The Moon entering the sign of the subconscious just after 1 a.m. will surely make dreams more active and there is a good chance of recalling them accurately due to Mercury's conjunction with Jupiter, the planet ruling dreams and the superconsciousness. Fiery energy abounds tonite and be forewarned that violence and crime will be higher than usual today; tho there are protective influences available that Magicians can tap into thanks to Mercury's massing of energy with benevolent Jupiter. Those who lose their tempers tonite may get more than they bargained for as there is a heavy argumentative streak in the air all day. Possible uprisings in places of confinement today could lead to better conditions in the long run.

SATURDAY Nov. 7th:
Mars in Virgo is semi-square Pluto in Libra 9:13 a.m.
Dreams will be inspiring and stem from the very depths of the subconscious this morning. All day people will be extremely spacey, with a tendency towards deceit in the occupation as well. These confused feelings could result in violent quarrels if not handled correctly. Parties tonite could be fun, but paranoia and foggy emotions that lead to self-undoing may be a problem; also since the air of aggression and quarrelsomeness is so strong now, its not the best time to give or attend parties thru this whole weekend.

SUNDAY Nov. 8th:
Moon enters Aries 6:39 a.m.
Mars North parallel Jupiter South 9:15 a.m.
Mercury South parallel Mars North 10:25 a.m.
Mercury parallel Jupiter South 11:07 a.m.
Mercury in Libra semi-sextile Uranus in Scorpio 9:41 p.m.
The morning hours are EXTREMELY difficult and quite hazardous for driving or going on long journeys as travel is more full of obstacles than it has been in a long time; with 8 a.m. til noon (PST) being the worst time. All day people will feel more aggressive and argumentative and serious accidents will probably be more likely this morning as well. Crime is extremely high all weekend and angry disputes could easily turn into full scale riots as excitement and hysteria are at a very high level now. Its not a good time to deal with money concerns today as people are more subject to obstacles and angry confrontations.

MONDAY

Sun in Scorpio semi-sextile Saturn

in Libra

Mercury enters Scorpio

Mercury, the planet of transportation and the conscious mind, enters the sign of hidden things today. This denotes more focus on research and investigation into the normally concealed aspects of existence. This influence holds sway until the end of November and it's a good time to embark on any thorough study of the "occult".

Today the "blues" are a hassle, particularly around noon, especially for women who normally have trouble with their emotions. Tonight people will feel more lazy and self-indulgent than is their routine. Crowd situations could be hazardous late tonight and money concerns should be postponed until tomorrow evening when Luna (exalted in Taurus, the sign of money) trines Venus.

TUESDAY

Mars in Virgo semi-square Jupiter

in Libra

Moon enters Taurus

Transportation is extremely negative all day, but particularly this morning. Public relations are very tense now and freedom of expression is somewhat limited. By 8 p.m. (PST) things will look up and women, especially, will feel more in tune with themselves as well as others later today. Much ambition tonight; with some tendency toward mild confusion which passes by midnight.

WEDNESDAY

FULL MOON IN TAURUS

Those who have insomnia normally will find it even harder to get to sleep due to emotional restlessness. The Full Moon tends toward intense emotional and subconscious energies coming to the fore; since she is exalted in the sign Taurus, this day could be a very fulfilling one for those who usually answer to the Lunar vibrations. It's a good time to take care of money concerns now and buying clothes and/or things to decorate the home are well favored now, also. In general, tho, today people will be more apt to react based on habit patterns rather than logical thinking.

THURSDAY

Moon enters Gemini

Focus on the media and communications, in general, for the next 2 days. Much disruptive obstacles in travel or any Mercurian activity today (letter writing, speeches, lectures, phone calls, business machines, teaching and the conscious mind), especially this morning. Fires as well as fiery emotions are a threat late tonight.

FRIDAY

THE 13TH!

Inner restlessness, fevers, headaches and facial injuries are indicated early this morning; this tendency passes by 10 a.m. (PST) and a stabilizing of any emotional turmoil is present this afternoon if you are able to overcome the inclination to misunderstand as well as be misunderstood today. Speech may be subject to much confusion and dishonesty is more prevalent now; also there is much potential for mob hysteria this evening and crowds could cause problems. Be more careful who you trust today and check and re-check any work done as there is a strong inclination to be VERY "out-of-it" and confused all day.

SATURDAY

Moon enters Cancer

Mercury in Scorpio semi-square Neptune

in Sagittarius

Focus on family and home environment over this weekend. There is more of a tendency to be confused and overlook important issues now so be aware of this and make sure that you thoroughly understand all the details of any communication. Later tonight people may feel more tense and if a situation refuses to be resolved, it's best to let it go until tomorrow night as there is a lot of strain and opposing viewpoints, especially between women, late tonight.

SUNDAY

Sun in Scorpio semi-sextile Neptune

in Sagittarius

Depression and emotional tension are a real problem in the morning and early afternoon. Tonight there is the potential to harmonize the inner and outer selves and thru this "marriage" could come much expansion of the superconsciousness; thus, this evening is a good time to discuss any prevailing issues that must be decided on. Around midnight (PST) this harmonious influence will begin to wane and obstacles hinder any transformations then, so try to complete any confrontations by 10:30 p.m. (PST).

Nov. 15th:

1:57 p.m.

MONDAY

Uranus enters Sagittarius

Moon enters Leo

Uranus, the planet of Magick, revolution and inventive endeavors, enters the sign of the superconsciousness this a.m. Uranus going into Sagittarius indicates unexpected events in the lives of those who have Sagittarius emphasized in their charts and a general awakening in the realm of dreams and the area of any broadening of the mental and spiritual horizons.

Magicians: since Uranus rules Magick, this is the perfect time to do invocations, especially as regards Uranus and Jupiter (Jupiter rules Sagittarius). Uranus has been in Scorpio, the sign of transformation and rebirth, since September 1975 and during this time many Magickal changes have taken place. Now as he progresses into the Fire sign of Sagittarius, it shows expansion and assimilation of the original transforming urges felt during Uranus' stay in Scorpio. Uranus will be in Sagittarius until January 1989 when he enters Capricorn. During this period Sagittarian people will experience ALL kinds of enlightening events and as Jupiter rules money, there may even be a sudden change in finances for many. At the end of Uranus' stay in Sagittarius, many people who have this sign emphasized in their charts will certainly not be the same person as they were when Uranus entered this new sign. Uranus represents revolution and complete disruption of the existing circumstances, so don't expect things to remain the same; those who try to force things to remain staid will find much suffering and obstacles in their way. Likewise, any people who have gotten themselves "into a rut" will be glad of Uranus' influence of breaking them out of the inert conditions. When Sun conjuncts Uranus on Nov. 22nd this energy will reach a new high and studies of the superconsciousness and realms ordinarily concealed are very well favored between now and Nov. 27th, when Mercury will then conjunct this powerful Uranus.

Specifically tho, today the morning hours could hold much emotional anger and any repressed aggression could be expressed in an unexpectedly violent manner, especially between the hours of 4 a.m. and noon (PST). However, for those who can channel this heavy awakening influence, discussions may lead to many inventive and revolutionary discoveries.

TUESDAY

Mercury in Scorpio is sextile Venus

in Capricorn

Sun in Scorpio semi-sextile Pluto

in Libra

A real good day for public relations and general communications with others. There's limitations on free expression very early today, but this tendency is alleviated by late afternoon. There is also much potential for reformation in partnerships and Congress may make some new law which greatly affects the masses concerning money from other people or legacies.

Between now and next Sunday there will be many changes and new cycles being initiated, especially for powerful and influential men, due to Sun's INTENSE conjunction with Uranus, now only 5 days away from exactness. For Magicians this period will emphasize Magickal workings and investigations; MUCH insight is possible for those who invoke the Solar Force in his magnetic massing of energy with Uranus, the planet of revolution and complete change.

Nov. 17th:

1:21 a.m.

2:06 p.m.

WEDNESDAY

Nov. 18th:

Moon enters Virgo

1:54 p.m.

Dreams are more active this morning, tho conflict between the inner and outer selves may limit accurate recall. A feeling of optimism pervades the early hours today. There may be trouble with electronics, business machines, computers, T.V.s, radios and/or aviation this afternoon. Plane crashes and difficulty with flying are likely this whole week as well as today. Depression which originates in the very submerged level of the being is a hassle tonite; possibly some thorough examination of your motives and your particular aim in life could shed more light on this concealed side of self later tonite.

THURSDAY

Nov. 19th:

Relations and partnerships are harmonious today and freedom of expression is prevalent. Travel and research into the mind have great potential tonite. People will feel more like going out or going on long or short trips in general, as Mercury aspecting Mars tomorrow shows lots of energy in transportation. Thinking will be quicker than normal and its a good time to make speeches or attend lectures tonite and tomorrow. Late tonite fires are very dangerous and violent feelings as well as higher crime color the evening hours. Good time to begin any carpentry work or renovation of your surroundings. Be careful of wounds caused by knives, guns, or any sharp instruments tonite and try not to lose your temper no matter how angry you feel as there is MUCH potential for actual physical blows tonite.

FRIDAY

Nov. 20th:

Mercury in Scorpio is sextile Mars

11:34 a.m.

in Virgo

Venus in Capricorn semi-square Uranus

3:45 p.m.

in Sagittarius

Sun in Scorpio semi-sextile Jupiter

9:51 p.m.

Moon enters Libra

10:34 p.m.

Health problems hard to diagnose are more to the fore this morning and for those who are tense, headaches could cause hassles too. There is much ambition to "get up and go" this morning and its a good time to write letters, make phone calls, give lectures or engage in teaching or any instructive pursuit. Realize too tho, that today will have some unexpected events particularly regarding friends and partnerships that have to do with profession. Specifically, those with Sagittarius emphasized in their charts will feel this revolutionary influence more than others and even tho it may be difficult to establish harmony with others, the illuminations derived from such rapport could be well worth the effort. Children will be more energetic than usual and they should be allowed to express these feelings thru physical exercise. Also since the mind is much quicker today on a general level, its a great time to read, travel, visit friends, communicate on a deeper level than normal and learn new and better techniques of doing routine things. Tonite an air of genius is present and intense discoveries and awakenings are quite likely.

SATURDAY

Nov. 21st:

Mercury in Virgo semi-sextile Saturn

1:45 a.m.

in Libra

Sun parallel Uranus South

2:44 p.m.

The intensely powerful conjunction with the Sun and Uranus is applying (exact tomorrow) and today the parallel between these 2 planets makes the conjunction even stronger, so be on the look-out for totally unexpected disruptions from the least likely sources. This disruption is present all this whole week (especially in transportation). Marriage and romance are very subject to limitation and restrictive influences now also, due to an applying angle of obstacle with Venus and Saturn. This particular aspect (square) is exact this coming Tuesday so these 4 days are especially negative for beginning any long term partnerships; its the worst time to start a love affair as the relationship will be full of petty jealousies and over-all restrictions put on what you expect of each other in the romance. Also with all the Uranus energy, any love affair begun now will be very undependable and subject to sudden endings and upsets. Its also not a good time to try and further professional objectives or approach people of authority. Women must beware of a tendency towards deep depression between now and Tuesday and for those who can, banish the restrictive, limiting influence of Saturn on Venus, the planet of love. If you must buy things during this period, be more careful to check them out thoroughly as there is an inclination for trouble with purchases until Tuesday.

SUNDAY

Nov. 22nd:

SUN ENTERS SAGITTARIUS

1:37 a.m.

Sun is conjunct Uranus in

Sagittarius

10:50 a.m.

Mars in Virgo semi-sextile Saturn

in Libra

12:12 p.m.

Today will be filled to the brim with all kinds of revolutionary changes and disruptions of the existing conditions. Don't push issues in marriage or close partnerships this week as there is too much of a tendency toward break-ups and much trouble in any love matters. The morning hours (later on East Coast) are most susceptible to completely unexpected revisions and men of influence may have unusual difficulties all day. We may even hear of a sudden disastrous incident occurring to someone of great power on the planet. Revolutionary feelings are VERY high now and people who have been confined by circumstances (in whatever way) may find they are suddenly cast from the limiting environment (depending on the natal chart will tell how this change will ultimately affect them). Those who remain confined will feel extremely rebellious and uprisings all over the planet are very likely all day. Changes in Congress could bring about more trouble for women in the long run and money matters are difficult between now and this Tuesday.

For those who practice Magick, this powerful force of Sun/Uranus can be used to break away from stagnation and it can serve to completely revolutionize ways of thinking and methods of doing things. If you decide to invoke this intense conjunction, you will probably find the results are not what you expected at all; in any case, any invocations now will be more apt to work and banishings today will have more power than normal to upset limiting habit patterns or restrictive ideas. Luna's conjunction with Saturn at the same time as the Sun/Uranus massing of energy will help to stabilize and channel this tremendous magnetic influence.

MONDAY

Nov. 23rd:

Moon enters Scorpio

9:37 a.m.

Much transformation and possible promotions for some are in the offing this morning, tho your superior may not be to your liking right now. New jobs begun now will be subject to much limitation and restrictive energies and co-workers may cause more problems than you think. I cannot emphasize enough that today and especially tonite will be EXTREMELY harsh and difficult for lovers, partnerships and professional concerns. There's a strong inclination towards jealousy and petty arguments now that could lead to major break-ups between couples. Don't force any confrontations now as they may result in great losses and much suffering in the long run. Money matters should be postponed until this very negative angle of karmic obstacles in marriage goes out: by Thursday things will be better.

TUESDAY

Nov. 24th:

Venus in Capricorn is square Saturn

5:15 a.m.

in Libra

Mercury in Scorpio semi-sextile Neptune

2:10 p.m.

in Sagittarius

Travel will be full of unexpected surprises between now and the end of the month. You will probably run into the person you least expect to meet during this period and today, particularly, is not a good time to confront anyone you don't especially want to see. Quarrels in partnerships and marriage are a big hassle all day, but they can be resolved thru letting go of ego and selfish feelings. Women must be more careful of conflicts with their bosses or any symbols of authority, especially this morning. Tonite the vibrations will begin to get better and arguments can be ended thru harmonious energies allowed to manifest between couples.

WEDNESDAY

Sun in Sagittarius semi-square Saturn
in Libra

Mercury in Scorpio semi-sextile Pluto
in Libra

Moon enters Sagittarius

The quarrelsomeness between men and women passes and sexual attraction is at a higher level for the next 2 days. Focus on long journeys and higher consciousness tonite could lead to a new cycle in mental activities. Late tonite there will probably be much change from a completely unexpected quarter; visits with friends will afford more insight than normal now too. It may be more difficult to establish any matters regarding older men or men of influence and authority today; wait awhile, as the strong Uranian energy is STILL present so that any deals made now could turn out in the worst ways due to Uranus' ability to upset planned procedures etc.

THURSDAY HAPPY THANKSGIVING!

Mars parallel Pluto North

Venus in Capricorn is trine Mars
in Virgo

NEW MOON IN SAGITTARIUS

Jupiter enters Scorpio

It should be a good holiday full of harmony between everyone. A new emotional cycle is beginning now with Jupiter's entry into Scorpio, expanding the realm of hidden things and investigation into concealed mysteries. Crowd situations are not advised tonite and women should be more cautious this evening if they have to go out.

FRIDAY

Mars North parallel Saturn South

Transportation is extremely subject to MUCH disruption and from the strangest quarters. This influence pervades until the end of November, with the night of Nov. 28th the worst time of all. Any Mercurian activities (lectures, journeys, phone calls, business machines, computers, letter writing, plans for travel, radios and TVs) are also prone to SUDDEN totally unforeseen events and/or obstacles. Since the aspect is a conjunction, the energy can go either way; depending on the natal chart will tell how each individual will feel this ENORMOUS influence of Mercury conjunct Uranus (now applying by only 2 degrees!) On a more transcendental level, this vibration can aid in beginning any course on meditation, psychic awareness exercises or any serious investigation into heretofore hidden realms of life. The Magickal energies are at an EXTREMELY HIGH level now so for Magicians this could be the perfect time to do some "mental house cleaning".

Watch out for obstacles that come thru anger and the untimely expression of unresolved resentments and aggressive feelings all day; there is a tendency to "throw caution to the winds" now which could result in complete upheaval of the current circumstances, and not necessarily to your liking.

SATURDAY

Moon enters Capricorn

Mercury enters Sagittarius

Mercury parallel Uranus South

Mercury in Sagittarius semi-sextile

Jupiter in Scorpio

Possible inheritances or legacies for some may be in the offing between now and the end of the month. Money deals today may turn out completely different from what you had expected or planned on. Windfalls are very likely for those WITH GOOD NATAL POTENTIAL between Jupiter and Uranus and if you know that you have a trine or sextile with these 2 planets natively, then today is a great time to activate said potential thru expansion and rebirth to a new plane of thinking and/or emotional expressions and awareness. Tonite any plans made regarding travel will probably not work out, tho substitute plans may turn out to be better than you thought at first. Dreams and research into the mind affords MUCH insight thru out the rest of November.

Nov. 25th:

4:43 p.m.

8:28 p.m.

10:01 p.m.

SUNDAY

Mercury conjunct Uranus in
Sagittarius

Travel plans this evening will go every way but what you had imagined. It will be more difficult than usual to carry on logical conversations, tho for Magicians this can be a time of all kinds of occult discoveries and inventive ideas that may ultimately change quite a few person's lives.

Plane trips are more subject to obstacles, so if you MUST travel, it would be wise to avoid taking a plane currently. In the news we may hear of many new discoveries or inventive methods and techniques recently developed (especially in the world of computers, business machines and/or aviation and electronics.) Also there is potential for hearing quite unexpected news from a foreign country or concerning foreign relations in general.

MONDAY

Venus in Capricorn semi-sextile Neptune
in Sagittarius

Moon enters Aquarius

There's a new cycle beginning around lunch time for women and children. A massing of much creative love energy is present and could result in beautiful works of art, especially early today. Crowds cause hassles late this afternoon. There may be a lull of activity this evening, but things will pick up after the moon enters Aquarius and all kinds of unlikely events and surprises are in the offing much later tonite.

DECEMBER AT A GLANCE

The month begins with difficulty between large groups of people (especially women) and a general rise in crime during the 1st week of December. There is a need to be more cautious then due to Mars afflicting Neptune. Use care with fires and protect head and face also during this period.

Between Dec. 8th and 16th we will feel the energy of 3 conjunctions! Mars will also enter the sign of marriage at this time. These conjunctions imply MUCH activity and new cycles in travel and inspirational pursuits. Dec. 12th thru 19th will feel the very heavy conjunction between the Sun and Neptune. Those who are not aware of the Astral Plane may not even feel this aspect, but for mystics its a beginning of a whole new period and could also represent Initiation for many. On a mundane level this conjunction may cause changes in careers involving the manufacture of liquids, oils, gasoline and/or occupations concerned with the ocean or large bodies of water. There could also be some huge changes in government due to the Sun's rulership of Congress and influential men.

The 20th could provide more Xmas bargains than usual and transportation is better on the 20th and 21st. After Xmas travel will again be difficult and that negative influence holds sway until the end of the month; with Dec. 30th the worst day for journeys.

Around Xmas Eve and day there is more danger of fires so take more precautions than normal; burglary will probably be much more rampant then too. Luckily Sun's sextile to Jupiter will afford some protection and Magicians would do well to invoke the beneficent rays of Jupiter.

Venus goes Retrograde (appears to move backward) on New Years Eve and this will probably slow down the usual antics at this time of year. Beginning a new year with Venus R. indicates more trouble for women in 1982 and a general lack of love over the whole planet during this year. Venus will be R. until February 11th so its not the best time to begin a romance during this particular time. Current love affairs may come to a standstill now and any partnerships made between now and Feb. 11th may be more subject to limitations and hindrance in free expression of love feelings.

Due to the fact that we have not received sufficient self-addressed stamped envelopes to justify continuation of this column in its present form, next month's COSMIC NEWS & VIEWS will appear in a highly abbreviated form.

Thank you. Soror Cinamon Celesta II° O.T.O.

O.T.O. LIBRARY

This partial listing of selections from the O.T.O. library of Thelemic material contains works that Stellar Visions is now offering for sale in photocopy format.

Many of these selections will also be available in the future in book format.

In the August, 1981 "Magical Link" (the official monthly bulletin of the O.T.O.) Bill Heidrick suggested that interested parties contact us in this regard and this list is for the convenience of those students of the works of Crowley who need immediate access to the material.

"Source Book 93" gives a brief description of the content of each selection given here (see the Thelemic Books section).

The following material is available from Stellar Visions Photocopy Service.

5 cents per page (Originals 8.5X14", 2 pages per side.)

LIBER 777
By Aleister Crowley

Also we offer the O.T.O. Edition of one of the most comprehensive dictionaries of Magical correspondences ever written. This edition reproduces some hand written notes by Jack Parsons, from whose copy it was reproduced.

LITTLE ESSAYS TOWARD TRUTH

Stellar Visions now offers this, out of print, gem by Aleister Crowley on the "Trance States".

Books for the beginner, by this genius of the occult arts and sciences, are all too rare. If you wish to start your studies of the large body of material by Aleister Crowley with "Little Essays Toward Truth", you won't be disappointed.

The glossary explaining the meaning of many of the Magical and Mystical terms, which are also used by many other authors in the Occult world, is itself worth the purchase price to the new student.

This edition contains two diagrams left out in the early seventies in the first printing. It is a very good introduction to many of the concepts laid upon in "Book 4".

STELLAR VISIONS I

The first edition, of our first magazine, was watercolored by hand on many pages, and since so many hours were required to produce it, only 38 numbered copies were ever made. Due to numerous requests, we have decided to reprint it in black and white.

It contains "Soul of the Desert" by Aleister Crowley "Stepping out of the Old Aeon into the New" and other original material by members of the O.T.O.. There is an article on the power of the pyramid with an additional comment by Frater Meithras XI° O.T.O., and the first Cosmic News and Views by Soror Celesta.

We now have only a few of these numbered copies left, and we may not reprint it for some time. If you need one of these to complete your collection, you had best act quickly!

STELLAR VISIONS II

"Stellar Visions II" contains never before published Crowley works from the Syracuse Collection. These were collected and typeset by Frater Meithras:

The "Constitution of the Order of Thelemites" (though never implemented by Crowley), contains so much information that it is surprising that it was never printed before now.

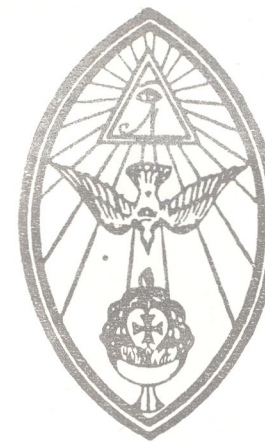

"A Letter on Art to Lady Frieda Harris" from Crowley contains some of the instructions for painting the 'Thoth Tarot Cards' now used by so many.

"Cefalu" also by Aleister Crowley is a guide to the Abbey of Thelema, mentioned in "Confessions" and many other places. The rare descriptions of the rooms, paintings, and other aspects of life there are invaluable.

"Clear Crowley's Name Campaign" by Grady L. McMurtry, has been lost for many years. Since it was written long before he became head of the O.T.O., it makes clear some of the attitudes that may have led to his promotion to the IX°. Not to mention the issuance to him, by Crowley, of the "Caliphate Papers". These empowered him to reform the O.T.O. at a time when it was in danger of losing its continuity.

There is poetry and art by Crowley and others.

There is also "An open letter to Robert Anton Wilson", by Frater IAKASA; and "Across the Gulf", which Crowley states is a description of his life as Ankh-f-n-Khonsu, and more.

O.T.O. COLLECTION

A Pre-Publication Sale of the first 100 numbered copies of this O.T.O. material taken from "The Blue Equinox" by Aleister Crowley. To include:

LIBER LII

"The Manifesto of the O.T.O.",

LIBER CI

An Open Letter to Those Who May Wish to Join the Order",

LIBER CLXI

"Concerning the Law of Thelema",

LIBER CXCIV

"An Intimation with Reference to the Constitution of the Order",

LIBER XV

"Ecclesiae Gnostica Catholica Canon Missae".

This material is now under review by the "Constitution Committee" of the RA HOOR KHUIT Lodge of the O.T.O.. They are working to coordinate research directed toward implementation of this model of Thelemic government (As Aleister Crowley intended when he wrote it).

We at Stellar Visions realise how essential this information is at this stage of development of the O.T.O. We feel that the Ordo Templi Orientis of Aleister Crowley has not, in reality, ever existed as he designed it. Nor will it ever exist, unless THIS model is implemented in as complete a form as possible.

Be informed, or be left out of this decision. We who are Thelemites are building a structure to support the generations of the future.

CROWLEY must WIN this one!

STELLAR VISIONS III
SOURCE BOOK 93

The Source Book is entirely devoted as a comprehensive reference to hundreds of occult works from the collection of the Ordo Templi Orientis, the majority of which we hope to soon make available to the student of the occult in an inexpensive softcover format.

If you are a serious student of the writings of Aleister Crowley; if you teach classes in the field of the Occult; if you wish to know which book Crowley is referring to when he uses Roman numerals in a footnote; if you want a list of his books of poetry, plays, ballets, A.'.A.'. Instructions, O.T.O. works, or even his Fiction: then this reference work will save you much time and effort.

We know Crowley is sometimes difficult to follow, and almost impossible if you don't know to which book he refers you for an explanation. We worked long and hard to research this "Source Book 93" so you wouldn't get lost in the shuffle.
