# TALE OF TWO FLOYDS

by Stew Albert

Gather round me children a story I will tell about Pretty Boy Floyd

Oklahoma knew him well.

--from a ballad by Woody Guthrie
a communist folksinger of Americas 30's and 40's

--trom a ballad by Woody Cutthrie
--communist folksinger of Marericas 30's and 40's

Pretty Boy Floyd never heard of Mao Tse Tung but he learned
and applied the tactics of guerilla war completely on his own, in
the 1930's in the Cookson Hills of Oklahoma Charles A, Floyd was
a one man red army recking total revenge on the pigs and bankers.
Floyd was the son of a poor farmer and being down an' out broke
during, the depression he and some fellow migrant workers pulled
a stickup that landed him five years in the Missouri Pen.
When he got out Charles Floyd saw all the farms being gobbled
up by the bankers protected by pig guns, His closest friends were on
the way to California, poor Oaktes humming the "grapes of wrath".

The fucked over workers and farmers of the 30s didn't give a
shit about law and order. A "Support your local police" button
would only be worn by a banker or a stockbroker, the Feds were
mobody's here except J. Edgar Hoover's, and a local bank robbery
was cause for a picnic. They were miserable times but at least
the average man knew who was shitting on him and why.
Charley Floyd would rip off banks in Oklahoma, Missouri and
the entire southwest, then make it up to the Cookson Hills where
come looking for Floyd but they would get blank stares from the
hill people and when the pigs were unlucky enough to catch up with
the outlaw they would get a blast in the snout from his shotgun or
Thompson submachine gun.

It was a general policy of farmers in the 1930s to buy back their
bank-seized land at auctions for a few dollars. If any businessman
was tempted to make a high bid and selze the land he would have
to plead his case in the court of shotgun democracy. When Charley
Pretty Boy Floyd and John Dillinger hooked up a while for the
purposes of bank robbing and protection when both outlaws were
under heavy heat from John law. They were both genuine rebels

Dillinger liked highliving and well-organized gangs, Floyd, although an Okie style big boozer, also was an ascetic who could live off the jack rabbit he hunted in the hills and was essentially a loner

the jack rappit in number in the fills and was essentially a loner picking partners only when it was necessary that even the smartest-outlaw was a superstition in foldahoms that even the smartest-outlaw was a dead man if he tried to take more than one bank on the same day. It went back to the 19th centry when the great Dalton brothers were shot down then they were trying to take a second bank. Floyd pulled off a double bank job on anothing and aftermoon spree that got him the repotation in the southwest of being a second

Jesse James, The outlaw dug the compliment and wrote a letter to the local paper thanking them for the name. Even when he was being denounced by J. Edgar Hoover and his face was in every post office the outlaw could always return to Sallisaw, Oklahoma and visit his wife and kids to whom he was very loyal. The neighbors including the Sheriff were respectful and friendly and there was no chance that the bankers' reward money would turn Charley Floyd's townsmen into traitors.

The present day bullshit is that the FBI dropped out of the sky handmade by god, in reality the FBI was a two bit joke until the 30s when the bankers bulls it up to protect them against outlaw Americans who would not suffocate peacefully in a crop destroying dust bowl. The death pehalty for kidnapping was introduced not protect little children but the bankers who were occasionally taken for rides and held ransom by outlaw gaags.

The death penalty for kidnapping was introduced not to protect little children but the bankers who were occasionally taken for rides and held ransom by outlaw gangs.

The PBH funted, Floyd down and shot him in the back near Youngstown, Ohto. They were able to get him because of the hell they brought down on the people of the Codeson Hills. Floyd did not want by the protecting him, so he left the hills and headed for Kansas City. The Maffa of Kansas City offered to hide Floyd out but it took big bread and Floyd refused to earn it by becoming a hired gun for big bissiness crime, He ran out of money and was betrayed by the City gangsters who were working with the pigs and politicians in the Kansas City Prendergast Machine. There was no love lost, when Pretty Boy Floyd ran out of money his life ended. He was fingered by the mob and the FBI got him-a guertila separated from the mountains and the people who lived on them and who loved the outlaw. And the people who lived on them and who loved the outlaw has charter the contract of the provided outland the standard who has charter the contract of the provided outland the standard who has charter the contract of the provided outland the standard who has charter the contract of the standard who has charter the contract of the standard who has charter the contract of the standard who has charter the standard who has charter the standard who has charter than the standard who has charter the standard was t

I get very different vibes from Talbott than are emitted by the

Brunn really enjoys sending the oppressed part of the human race to jail. His misery loves our company.

Judge Talbott is a very different trip. He gets no pleasure out of his task and in a guarded way sometimes shows that it causes him pain. During my trial he was always pleasant—we would occasionally char in his chambers and his attitude to the great revolutionary storm was that there had been a terrible breakdown in communication between the generations and he could certainly see why a young man would be a revolutionate.

Floyd Talbott seems in a certain quiet way to enjoy life and to want to share it with the defendants that go before him, the problem is want to share it with the defendants that go before him, the problem is want to share it with the defendants that go before him, the problem is ey Municipal judge who would like to spend his remaining days at a higher and more distinguished post, courage becomes a virtue that is too expensive to possess even on the installment plan.

But maybe it has nothing to do with ambition. Floyd Talbott may be the sort of Protestant who has been taught to mistrust his own best feeling as a form of weakness. I think of the guilt-ridden fundamentalist who would pray to god for forgiveness when he beat the shit out of his children and would pray to a mener god to forgiveness when he beat the shit out of his children and would pray to a mener god to forgiveness, and the shift out of his children and would pray to a spring mornel, he would let them go with a smack.

In my case Talbott's best feelings played some rorle. This is a letter giving notice of a change in the course of my political involvement. I find myself deciding to move from the sphere of electoral politics (and my activities with both the Ber-keley Coalition and the Better Berkeley Council) into the main-stream of the Revolution.

For some time now, I've had the feeling that the things that I

had involved myself in were some-how becoming irrelevant to what-was happening in the world around me. The people were changing and saying that they wanted to go somewhere else and do things in a different way. A "ground swell' was building and taking shap and finally has emerged in such a tangible form that I now understand why those projects and understand why those projects and programs that had been so righte-ously where it was at last summer and fall had become out of place what has been going down through

#### LAST CHANCE FOR OUR SPECIES

by Keith Lampe

People in the Movement and sub-culture probably will have to take to the streets with disruptive Save-Our-Species-Week demon-strations in order to give the li-berals of the Sierra Club any lobbying leverage with the U.S. regime.

Speakers at the Sierra Club's annual Wilderness Conference last weekend delivered articulate warnings of various impending ec-ological disasters.

The several approaching catas-trophes seem to be racing each other: will the human-mammalian species first poison itself or starve

species irrstpoison itselfor starve or asphyxiate or discorporate in a nuclear finale?

The speakers at the SF Hilton had organized their information brilliantly—and delivered if firmly, But because most of them have academic backgrounds, there was a discontificing on between the ina dissatisfying gap between the in-tensity of their awareness and the hesitancy of their suggestions for

action.

Here's an example of how heavy
the information was: Prof. Robert
Curry of UC Santa Barbara said
the population explosion is not
occurring but has already occurred and the first of a series of
widespread familines is inevitable
within a relatively short time; he proposed that certainwilder-ness areas be designated "re-fugia" and protected by any means necessary from "large, weak, starving populations" in order that all present animal and plant spe-cies might survive and later re-

multiply.

Gary Snyder was there to hand around copies of anybody's "Smokey the Bear Sutra". He suggested to some people in the lobby ted to some people in the lobby that Prof. Curry's refugia also protect traditional primitive peo-ples in order to preserve the knowledges of wild ecology-for example, herballores. He also sug-gested that Borneo be sealed off from civilized human predators because the people there stand the best chance of surviving the next

because the people there stand the best chance of surviving the next hundred years.

Gary said he'd be happy to sit down in front of a buildozer whose operator was bent on earth-rape. He proposed investigations to determine which US corporations and individuals are most responsible. termine which US corporations and individuals are most responsible for the degradation of the ecology. He said the investigations should be followed by 'educational raids' on the offices of those most guilty, "Ecology radicals', Snyder said "should call for Green Studies

programs at universities--teach-ing emergency planet information and the non-negotiable demands

or nature if the blosphere is to survive intact."

John Conbony, a student at UC Davis, said he'd heard students there talking about raiding unworthy construction projects and removing surveyor's stakes as litter.

The replacements of the blosphere is the said of the sa

## SMOKEY THE BEAR SUTRA

Once in the Jurassic, about 150 million years ago, the Great Sun Buddha in this corner of the Infinite Void gave a great Discourse to all the assembled elements and energies: to the standing beings, the walking beings, the flying beings, and the sitting beings-even grasses, to the number of thirteen billion, each one born from a seed, were assembled there: a Discourse concerning Enlightenment on the planet Earth.

"In some future time, there will be a continent called America. It will have great centers of power called such as Pyramid Lake, Walden Pond, Mt. Rainier, Big Sur, Everglades, and so forth; and powerful nerves and channels such as Columbia River, Mississippi River, and Grand Canyon. The human race in that era will get into troubles all over its head, and practically wreck everything in spite of its own strong intelligent Buddha-nature.'

"The twisting strata of the great mountains and the pulsings of great volcanoes are my love burning deep in the earth. My obstinate compassion is schist and basalt and granite, to be mountains, to bring down the rain. In that future American Era I shall enter a new form: to cure the world of loveless knowledge that seeks with blind hunger; and mindless rage eating food that will not fill it."

And he showed himself in his true form of SMOKEY THE BEAR.

A handsome smokey-colored brown bear standing on his hind legs, showing that he is aroused and watchful.

Bearing in his right paw the Shovel that digs to the truth beneath appearances; cuts the roots of useless attachments, and flings damp sand on the fires of greed and war;

His left paw in the Mudra of Comradely Display-indicating that all creatures have the full right to live to their limits and that deer, rabbits, chipmunks, snakes, dandelions, and lizards all grow in the realm of the Dharma;

Wearing the blue work overalls symbolic of slaves and laborers, the countless men oppressed by a civilization that claims to save but only destroys;

Wearing the broad-brimmed hat of the West, symbolic of the forces that guard the Wilderness, which is the Natural State of the Dharma and the True Path of man on earth; all true paths lead through mountains-

With a halo of smoke and flame behind, the forest fires of the kali-yuga, fires caused by the stupidity of those who think things can be gained and lost whereas in truth all is contained vast and free in the Blue Sky and Green Earth of One Mind;

Round-bellied to show his kind nature and that the great earth has food enough for everyone who loves her and trusts

Trampling underfoot wasteful freeways and needless suburbs; smashing the worms of capitalism and totalitarianism;

Indicating the Task: his followers, becoming free of cars, houses, canned food, universities, and shoes, master the Three Mysteries of their own Body, Speech, and Mind; and fearlessly chop down the rotten trees and prune out the sick limbs of this country America and then burn the leftover

Wrathful but Calm, Austere but Comic, Smokey the Bear will Illuminate those who would help him; but for those who would hinder or slander him,

HE WILL PUT THEM OUT.

Thus his great Mantra:

Namah'samanta vajranam chanda maharoshana Sphatava hum traka ham mam

"I DEDICATE MYSELF TO THE UNIVERSAL DIAMOND BE THIS RAGING FURY DESTROYED"

And he will protect those who love woods and rivers, Gods and animals, hobos and madmen, prisoners and sick people, musicians, playful women, and hopeful children;

And if anyone is threatened by advertising, air pollution, or the police, they should chant SMOKEY THE BEAR'S WAR SPELL:

DROWN THEIR BUTTS CRUSH THEIR BUTTS DROWN THEIR BUTTS CRUSH THEIR BUTTS

And SMOKEY THE BEAR will surely appear to put the enemy out with his vajra-shovel.

Now those who recite this Sutra and then try to put it in practice will accumulate merit as countless as the sands of Arizona and Nevada.

Will help save the planet Earth from total oil slick, Will enter the age of harmony of man and nature,

Will win the tender love and caresses of men, women, and

Will always have ripe blackberries to eat and a sunny spot under a pine tree to sit at,

AND IN THE END WILL WIN HIGHEST PERFECT ENLIGHTENMENT.

Last week I wrote about THE BRIDE OF FRANKENSTEIN, and I failed to give it a razing on the Hedonic Index. Many months ago while discussing PLANET OF THE APES I wrote that that film had a very high Trip Factor.

The film with the highest Trip Factor I have seen is Kubrick's 2001, on Leary's Hedonic it would rate at level one, PLANET OF THE APES is at about level three.

Leary uses a scale of seven levels, from seven for sleep, when consciousness is totally extinguished, to level one, in which you are in touch with the god-hand, cellular become consciousness is totally extinguished, to level one, in which you are in touch with the god-hand, cellular become consciousness is totally extinguished, to level one, in which you are in touch with the god-hand, cellular become levels four and three, (or was it five and four's) Leary drew a straight line and called that the Hedonic Barrier.

His presentation of the Hedonic barrier and the levels of consciousness was tongue in cheek, and it's not very important whether or not there are seven levels on taken, or any number of quantatized levels in fact. But I think he has the right idea, since it's so close to my idea of the Trip Factor for films.

Many people have started to call experimental films, head Flicks, and the singular distinguishing factor that separates head factor that separates head flicks, former become for the proposed of all theatrical or meloguishing factor that separates head films, for turn you of, the content of the proposed of all theatrical or meloguishing factor that separates head films, for turn you of, the proposed of all theatrical or meloguishing factor that separates head films for the turn you of, the proposed of all theatrical or meloguishing factor that separates head films, for turn you of, the proposed of all theatrical or meloguishing factor that separates head films, for the proposed of all theatrical or meloguishing factor that separates head films, for turn you of, the proposed of all theatrical or meloguishing factor that separates he

Many people have started to call experimental films, Head Flicks, This is a good name. The people realize, before the moronic critics, that the singular distinguishing factor that separates head flicks from the rest of cinema,

But there it is. As clearly as

They have in general, a very low trip factor.

As a matter of fact, I'd say that most melodrama is down around level seven, or the sleep level. (In fact, they accually pit many people to sleep.) To watch one of these things is to be put into a very low level of consciousness. I'm not putting it down, it's very important to be able to get turned off. We all need sleep get the seven of the seven when the seven is the seven in the seven is the seven in the se

Turning off is necessary and important. Complex organisms need to turn off. And the Hollywood melodramatic theatrical experience provides us with an experience which is not unlike sleep.

For years critics and boobs alike have called these films es-capits drama. This analysis has gotten in my craw (where is your craw) and now at last, I can verbalize why, Escapist my as-hole! They are just the reverse. But the double-think that has the rest of society in its grasps (luck-ily we have escaped) makes turn-ing off turning on. Escaping is

dropping in, not dropping out, at least in the terms applied to ar-tistic experience. And let us not forget at this time that art is life, a part of life. Art is life,

life, a part of life. Art is life, life is art, etc.

ANSWER: Condyloma acuminata are warty growths thought to be caused by a virus. Their common name, "venereal warts", tends to perpetuate the false belief that they are caused by venereal diseases such as gonorrhea. Venereal warts are seen more frequently in women than men and may appear anywhere on the vulva or within the vagina. At first the warts are small elevated growths the size, perhaps, of a mole, Later they become quite large giving a mulberry-like appearance.
