Hot town: summer in the city or

This resolution passed by the SF, the proposed SF Bill 1079, which would allow the SF to take a financial interest in a program for a summer program that was passed by the Strategic Studies Committee in Lansing on March 15. People who are working in Detroit to support this program, this program should be seen as a model for public officials. It is a document that is worth reading.

A FORWARD-LOOKING INVESTMENT

Over the past few months, SF has developed a forward-looking investment program. This program is based on an understanding of the state of the economy, on an understanding that the economic situation makes the cities who are being helped by the program more attractive to investors, and on an understanding that the program will be a part of an international program against CIA operations. It is a program that will be a model for other cities who are being helped by the program.

It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

In which the working class conditions are the most in need of help.

By 1981, however, SF has been considerably a model investment. Furthermore, it has been a model investment program primarily in the city of Detroit. It is a program that will be a model for other cities who are being helped by the program.

The more investment, the more people in Detroit who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

This is possible because of the financial help of

the operations of such. The matter of program by the city of Detroit, which is a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

Discipline the People

In order to be able to control the city, it is necessary to have a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

A second important fact is the commitment of the city of Detroit to the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

The fact of the matter is that the city of Detroit is a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

It is a program that will be a model for other cities who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program.

Local SF, SF, Cleveland, and Frank Thomas, as part of a nationwide boycott against the oil industry, have been in Detroit since the 1970s. They are a group of people who are being helped by the program. It is a program that will be a model for other cities who are being helped by the program. into the design of low-cost housing, a community center, and the like. It is our belief that such a broad range of projects will bring the benefits of this program to many sections of the city, and in the long run will have a more permanent effect on the character of the city than a series of social agencies and relief projects.

Concerning the Board of Education, which through its own and outside agencies has the power to control public schools, we think it would be better for it to establish new schools, perhaps through the school authorities, the parents, or other groups. In the case of the Board of Education, we think that the Board should be more free to establish new schools, perhaps the "boarding" or "day" schools, or other schools, as they are now, especially those of a religious or denominational character, and to give them more freedom in their management. We think that the Board should be more free to establish new schools, perhaps through the school authorities, the parents, or other groups. We think that the Board should be more free to establish new schools, perhaps through the school authorities, the parents, or other groups.

The "student group" program of establishing the school authority is a very important one. It is our belief that such a program will bring the benefits of this program to many sections of the city, and in the long run will have a more permanent effect on the character of the city than a series of social agencies and relief projects.

We think that the Board should be more free to establish new schools, perhaps through the school authorities, the parents, or other groups. We think that the Board should be more free to establish new schools, perhaps through the school authorities, the parents, or other groups.

Such an "all-out" effort cannot, there is no other way to do it, be made in a hurry. It is a matter of a long time, and we must have a program in the long run, and we must have a program in the long run, and we must have a program in the long run.

The Board of Education has a great future. We think that the Board should be more free to establish new schools, perhaps through the school authorities, the parents, or other groups. We think that the Board should be more free to establish new schools, perhaps through the school authorities, the parents, or other groups.

Finally, we are sure that a community center program, in its various phases, will be a very important one. It is our belief that such a program will bring the benefits of this program to many sections of the city, and in the long run will have a more permanent effect on the character of the city than a series of social agencies and relief projects.

The Oakland Seven: left to right—Bill Houston, Tom Hayden, Bruce Soltau, Peter Camejo, Frank Marshall,
Mike Smith, and Jonathan Dell. Right, who's working a hard case to get out of jail for their case.

The Min came down hard this week on the Black
Panther Party around the country.

In New York City, 11 Panthers were beaten and
charged with conspiracy to bomb downtown department
stores during the Easter rush. They were held on
\$100,000 bail each. One of those arrested was Bob
Collins, who was arrested several years ago for the
alleged BPP plot to blow up the Statue of Liberty.
Collins quit the Panthers several months ago to work
for CIO. New York also had a demonstration with 400
people Thursday, another is scheduled later this week.

In Chicago, 13 Panthers have been arrested in the
past 18 hours, on charges from traffic violations on up
to street riots in the wake of an ambush on the
Panthers by unknown persons, identified by the media
as members of the Blackstone Rangers, a notorious
Chicago gang. Bobby Book, the deputy defense minister
for Chicago, has been charged with illegal use of a
weapon and released on \$15,000 bail. Fred Hampton,
chairman of the BPP in Illinois, currently has 11
charges against him.

Also in Chicago, the pigs beat several members

of the Young Lords, a Puerto Rican youth organization,
National Guard and riot-equipped pigs patrolled the
west-side ghetto following disturbances Thursday
afternoon, as high school students walked out of school
after services commemorating Rev. Martin Luther King
Jr. Several hundred people had been arrested when BPP
went to press early Friday morning.

Bobby Seale, chairman of the Black Panther Party,
is one of 448 persons charged with conspiracy and
being interested in the riots in connection
with the murders of the Democratic National
Convention in August.

About a year ago, on April 8, 1966, the Oakland pigs
shot down Bobby Seale. Early Seale's still in jail.
Edridge Cleaver has vanished, Bobby Carter and John
Huggins were murdered last month by US, a cultural
revolutionary group in Los Angeles.

Money has had and to continue the Panthers' work
in badly needed. Send contributions to the Black Panther
