GOODBYE, COLUMBUS

by Collette McCullough
Columbus 222

"... If you want to know the tracks of a year you must change the year by making it yourself.... If you want to know the theory and method of revolution, you must take part in revolution."

— Mao Tse-tung

Columbus, Ohio's racist old power structure has suffered its first black rebellion. During three days of war against the voracious white bourgeoisie and the pigs that protect them, white-owned stores were fire-bombed, pigs were raped and, and flares set off the black community. Over 1000 National Guardsmen had to be called in to put down the rebellion. Total damage to property in three nights was estimated at \$500,000. Over 400 black people are now in jail on charges, including burglary, grand larceny, and murder. And, to top it all, instead of changing the ruling class and its running dogs for crimes against the black revolution, the man has leveled the atom-bomb charges the FBI can manufacture on the fly. He has arrested the black people and is making the news—on TV—of charges of "hanging in chains." But he cannot get an AR-15 for himself, and he cannot get an AR-15 for the black people. He can't even get an AR-15 for the black people. He can't even get an AR-15 for the black people.

Three days the black community has been fighting to free itself from the white bourgeoisie and its running dogs. The white bourgeoisie has tried to put down the black people and is making the news—on TV—of charges of "hanging in chains." But he cannot get an AR-15 for himself, and he cannot get an AR-15 for the black people. He can't even get an AR-15 for the black people.

As the black community has learned following the principles of the revolutionary class struggle, all showed revolutionary, although white-owned stores were fire-bombed, pigs were raped and, and flares set off the black community. Over 1000 National Guardsmen had to be called in to put down the rebellion. Total damage to property in three nights was estimated at \$500,000. And, to top it all, instead of changing the ruling class and its running dogs for crimes against the black revolution, the man has leveled the atom-bomb charges the FBI can manufacture on the fly.

During the period of human civilization, the first thing that was done in Columbus, Ohio was to burn down the black community and its running dogs. The white bourgeoisie has tried to put down the black people and is making the news—on TV—of charges of "hanging in chains." But he cannot get an AR-15 for himself, and he cannot get an AR-15 for the black people. He can't even get an AR-15 for the black people.

Repeating words like white working class and black revolution just give every white boy a head ache.

about a national issue that had made of sense, and they were in 100 percent control of their lives.

This morning, a group of 10 people from the Columbus women's group held the first meeting. The idea was to organize a strike for the day after tomorrow, and the group had agreed to get the word out to the black community. The idea was to organize a strike for the day after tomorrow, and the group had agreed to get the word out to the black community.

On July 1, a strike against white owned stores in Columbus, Ohio was called. The idea was to organize a strike for the day after tomorrow, and the group had agreed to get the word out to the black community.

ARE YOU INFECTED WITH MALE CHAUVINIST IDEAS?

You may be if you can't solve the following riddle from the Old Mother.

A father and his son were riding in a car. They got into an accident and the father was killed. The son was rushed to the hospital in an ambulance and taken to the operating room. The doctor walked in, looked at the patient, and said, "I can't operate— that's my son."

All right are men—the father and son in the car are men, not spiritual father and son. The doctor is telling the truth. How can this be? (Answer below.)

ANSWER: The patient was a woman. She was the daughter of the doctor.

BRING THE WAR HOME!

SDS

This is the National Action brochure that the national office has produced. So far they have been going as fast as we can print them. They can be ordered from the U.S. at a price of \$1 per thousand.

It will also be printed as part of the mass newspaper that SDS will have ready within a week. Send in orders for the paper, too, and pass them both out wherever you go.

It has been almost a year since the Democratic Convention, when thousands of young people came together in Chicago and gave up big city for five days. The action was a response to the crisis this system is facing as a result of the war, the demand by black people for liberation, and the ever-growing reality that this system just can't handle it. This fall, people are coming back to Chicago more powerful, better organized, and more together than we were last August.

SDS is calling for a National Action in Chicago on October 11. We are coming back to Chicago, and we are going to bring about a left federal last year.

Look At It: America, 1969. The war goes on, despite the five double-talk about troop withdrawals and peace talks. Black people continue to be murdered by agents of the lat rats who run this country, if not in one way, then in another: by the pigs or the courts, by the laws or the welfare department. Working people face higher taxes, inflation, speed-ups, and the ever knowledge—if it hasn't happened already—that their sons maybe shipped off to Vietnam and shipped home in a box. And young people all over the country go to prisons that are called schools, are treated for jobs that don't exist or serve no one's real interest but the boss's, and, to top it all off, get told that Vietnam is the place to defend their "freedom."

a boss, pulled off by the businessmen who really run this country.

And we showed the whole world that in the face of the oppressive and exploitative rulers—and the military might to back them up—thousands of people are willing to fight back.

SDS IS CALLING THE ACTION THIS YEAR.

And it will be a different action. An action not only against a single war or a "foreign policy," but against the whole imperialist system that made that war a necessity. An action not only for immediate withdrawal of all U.S. occupation troops, but in support of the heroic fight of the Vietnamese people and the National Liberation Front for freedom and independence. An action not only to bring "peace to Vietnam," but beginning to establish another front against imperialism right here in America—in "bring the war home."

We are demanding that all occupational troops get out of Vietnam and every other place they don't belong. This includes the black and brown communities, the workers' ghetto areas, the high schools, and the streets of Berkeley. No longer will we tolerate "law and order" backed up by soldiers in Vietnam and pigs in the communities and schools; a "law and order" that serves only the interests of those in power and tries to crush the people down wherever they show up.

We are demanding the release of all political prisoners who have been victimized by the ever-growing attacks on the black liberation struggle and the people in general. Especially the leaders of the black liberation struggle like Huey P. Newton, Alvin Cross, Fred Hampton, and Martin Luther.

We are expressing total support for the National Liberation Front and the newly-formed Provisional Revolutionary Government of South Vietnam. Throughout the history of the war, the NLF has provided the political and military leadership to the people of South Vietnam. The Provisional Revolutionary Government, recently formed by the NLF and other groups, has pledged to "mobilize the South Vietnamese around freedom and people" in order to continue the struggle for independence. The NLF also has expressed solidarity with "the just struggle of the Afro-American people for their fundamental national rights", and has pledged to "actively support the national independence movements of Asia, Africa, and Latin America."

We are also expressing total support for the black liberation struggle, part of the same struggle that the Vietnamese are fighting, against the same system.

with WITH: AMERICA, 1969: THE WAR GOES ON, despite a few double-talk about troop withdrawals and end talks. Black people continue to be murdered agents of the FBI race who run this country, if not one way, then in another: by the pipe or the wire, by the bomb or the welfare department, killing people like Martin Luther King, Malcolm X, and the more knowledge—if it hasn't opened already—that their own mayor shipped off Vietnam and shipped home in a box. And young people all over the country go to prisons that are old schools, are treated for jobs that don't exist there to use a real interest but the boss's, and, top it all off, get told that Vietnam is the place to find their "freedom."

State of this is very rare. The cities have been falling apart, the schools have been bombed, the jobs have been stolen and disappearing for a long time.

But the best people and the best leaders, the best workers, the best...

What's new is that today not quite so many people are organized, and a lot more people are angry: angry about the fact that the promises we have heard since last grade are all lies. UNITE that, when you get down to it, this system is nothing but the total economic and military plunder of the oppressed peoples of the world.

And more. It's a system that steals the goods, the resources, and the labor of poor and working people all over the world in order to fill the pockets and bank accounts of a tiny capitalist class. (Call it imperialism.) It's a system that divides white workers from blacks by offering white workers all the jobs, and telling them that if they don't stay cool the blacks will come in on their jobs, their homes, and their schools. (Call it white supremacy.) It's a system that divides men from women, making women to be subservient to men from childhood, to be slave labor in the home and cheap labor in the factory. (Call it male supremacy.) And it's a system that has colonized white nations within this country—the nation of black people, the nation of brown people—to control, oppress, and ultimately murder the people on whose backs this country was built. (Call it racism.)

of this is very new. The cities have been killing poor, black have been included, the jobs have been eaten and living for a long time.

But the lies are catching up to America—and the black rich people and their agents in the government bureaucracies, the courts, the schools, and the pig stations just can't cut it without.

Black and brown people know it.

Young people know it.

More and more white working people know it.

And you know it.

It's new in that today not quite so many people are dead, and a lot more people are angry: angry about the fact the problems we have heard since first grade are now angry that, when you get down to it, this system is lying but the total economic and military gut-down of the poor people of the world.

It means: it's a system that steals the goods, the jobs, and the labor of poor and working people all over world in order to fill the pockets and bank accounts of a capitalist class. (Call it imperialism.) It's a system that is white working from blacks by offering whites rewards in title, and telling them that, if they don't stay out tanks will move in on their jobs, their homes, and their lives. (Call it white supremacy.) It's a system that divides from women, forcing women to be subservient to their children, to be slave labor in the home and cheap labor factory. (Call it male supremacy.) And it's a system that colonized whole nations within this country—the nation rich people, the nation of brown people's enslavement, and, and ultimately murder the people in whose backs country was built. (Call it fascism.)

LAST YEAR, THERE WERE ONLY ABOUT 10,000 OF US IN CHICAGO

The press made it look like a massacre. All you could see on TV were shots of the horrors and blood of pig brutality. That was the line that the anti-fascist businessmen were trying to run down—"If you march with us, we'll let you have it." But those who were there told a different story. We were together and our power was felt. It's true that 10,000 of us got hurt, but last summer was a victory for the people in a thousand ways.

Our actions showed the Vietnamese that there were millions of young people in this country facing the same enemy that they faced.

We showed that white people would no longer sit by passively while black communities were being tormented by occupation troops every day.

We showed that the "insuperable power" of bloody resistance for a presidential election was nothing more than

standing independence for Puerto Rico, and an colonial aggression that the Puerto Rican nation lands of U.S. imperialism.

standing in aid to the war, a big battle from people of this country and used to kill working class and other places for the and profit.

We are opposing violently with the Company it who led the struggle last summer in Chicago. Our action is planned to roughly coincide with the beginning of their trial.

And we are expressing support for GIs in Vietnam and throughout the world who are being made to fight the battles of the rich, like poor and working people have always been made to do. We support those GIs at Fort Hood, Fort Jackson, and many other army bases who have refused to be cannon fodder in a war against the people of Vietnam.

IT'S ALMOST HARD TO REMEMBER WHEN THE WAR BEGAN

But, after years of peace marches, petitions, and the gradual realization that this war was so "unjust" it's one critical fact remains: the war is not just happening in Vietnam.

It is happening in the jungles of Guatemala, Bolivia, Thailand, and all oppressed nations throughout the world. And it is happening here, in black communities throughout the country, on college campuses, and in the high schools, in the shops, and on the streets.

It is a war in which there are only two sides, a war not for domination but for an end to domination, not for destruction, but for liberation and the unfolding of human freedom.

And it is a war in which we cannot "neatly", it is a war in which we must fight.

On October 12, tens of thousands of people will come to Chicago to bring the war home. Join us.
