A Strategy to Win

The Red Army experimenting to surprise the Warsaw Pact.

Exercising our strength from a position of total tactical, ideological, economic, and political superiority. And we must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Can we do this? I think so. In the future, we will have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

The first thing we need to do is to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

One of the things I do think I can do is to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Let us go to the conclusion, people of the Warsaw Pact, we must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

we are prepared to do so. In the future, we will have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Secondly, we must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Thirdly, we must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

It is not a matter of if, but of when. We must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Fourthly, we must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Fifthly, we must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Finally, we must have a strategy to win with the people who will be our allies in the future. This strategy will be to force the Warsaw Pact to fight on our terms in the future, to force them to fight on our terms in the future, to force them to fight on our terms in the future.

Victory over the Warsaw Pact.

TEST OF HO CHI MINH'S WILL

Tu-Pu, the well-known Chinese poet of the Tang epoch, wrote: "In all times, few are those who reach the age of 70."

This year, with my 70 years, I count among those "few" people still, my mind is lucid, though my health has somewhat weakened in comparison with previous years. What one is on the wrong side of 70, health deteriorates with age. This is no wonder.

And, who can forecast for how long I can continue to serve the revolution, the fatherland, and the people?

That is the reason why I leave these few lines in anticipation of the day when I go and join venerable Karl Marx, Lenin, and other revolutionary leaders. In this way our compatriots, the whole country, the comrades in the party, and our friends in the world will have no surprise.

About the world Communist movement: Having dedicated my whole life to the cause of the revolution, the more I am glad to see the growth of the international Communist and workers' movement, the more deeply I am gripped at the discussions that are enriching the fraternal parties.

I wish that our party will do its best to contribute effectively to the restoration of unity among the fraternal parties on the basis of Marxism-Leninism and proletarian internationalism, in a way concerned to the requirements of heart and reason.

I am sure that the fraternal parties and countries will unite again.

About personal matters: In all my life, I have wholeheartedly and with all my forces served the fatherland, the revolution, and the people. Now if I should depart from this world, there is nothing that I am sorry to have done. I expect only not being able to serve longer and longer.

After my passing away, great funerals should be avoided in order not to waste the time and money of the people.

Finally, to the whole people, the whole party, the whole army, to my beloved and devoted youth and children, I leave behind my boundless affection.

I also convey my fraternal greetings to the French, comrades, youth, and children in the world.

My ultimate wish is that our whole party and people, closely united in the struggle, build a peaceful, united, independent, democratic, and progressive Vietnam, and make a worthy contribution to the world revolution.

SPECIAL SUPPLEMENT, MESS
COPIES AVAILABLE FROM

First I will speak about the party. Thanks to its close unity and total dedication to the working class, the people, and the fatherland, our party has been able, since its founding, to unite, separate, and lead our people in an ardent struggle, and conduct them from victory to victory.

Unity is an extremely precious tradition of our party and people. All comrades, from the central committee down to the cell, must preserve the unity and unity of mind in the party as the apple of their eyes.

Within the party, to achieve broad democracy and to practice self-criticism and criticism regularly and seriously is the best way to consolidate and develop the unity and unity of mind in the party. Genuine criticism should prevail among all comrades.

Unity in a party is power. Each party member, each cadre, must be deeply imbued with revolutionary morality, and show industry, faith, integrity, brightness, total dedication to the public cause, and exemplary seriousness. Our party should preserve its entire purity, it should remain worthy of its role as the leader and a very loyal servant of the people.

The working youth Union members and our young people as a whole are of excellent nature, united in resistance for vanguard tasks, underlined by discipline, striving for progress. The party must give much attention to their education in revolutionary morality and train them into custodians of the building of Socialism, both "red" and "expert".

Training and educating the revolutionary generation is one of a highly important and necessary task.

Our laboring people, both in the plains and in the mountain areas, have for ages suffered hardships, brutal and racial oppression, and exploitation. Furthermore, they have experienced many years of war.

Yet our people have shown great heroism, great courage, and unshakable enthusiasm, and they are very hard-working. They have always followed the party, since it came into being, and they have always been loyal to it.

The party must work out a good plan for economic and cultural development with a view to continuously raising the living standard of the people.

The resistance war against US aggression may drag out. Our compatriots may have to undergo new sacrifices in terms of property and human lives. In any case, we must be resolved to fight against the US aggressors till total victory.

Our rivers, our mountains, our men will always remain. The Yanks defeated, we will build our country 10 times more beautiful.

No matter what difficulties and hardships may be ahead, our people are sure to win total victory. The US imperialists will have to pull out. Our fatherland will be reunited. Our compatriots in the North and in the South will be reunited under the same roof.

Our country will have the signal honor of being a model nation which, through a heroic struggle, has defeated two big imperialisms—the French and the American—and made a worthy contribution to the national liberation movement.

I was a combat and there to try out.
I need all to see who made for the front.

I'm talking for someone I don't understand, but you
you see it in this situation?

But to be really, that's what they say,
and I'm talking in killing or I talk without talking.

And make me the TV to tell you.

My hands to move, for the other hand,
for the front and the back.

When the body was over there to be seen to the end,
it for every day and night and again.

This is the kind of war that I am comparing to this.
The one that was the most to the world.

Just make me the body of the front,
because this was there to see the end.

It was not because of some sort of a war
but the war of the front and the back.
