I see to many people turning a cold shoulder to the reality which stares us in the face this very day and for all the days to come. Now more than ever as the system weakens we must strengthen. POWER POWER

We will spread out and network, through writing, travel, shows, and Rainbows. We will expand and grow into established networks and our voting power will increase. We'll gather to rest in the grass beneath the sun, taking in the sweetness of each other's company and of nature. Passers-by will look upon us and realize that we know the way.

Humanity and world peace must be given priority above everything else.

HAPPY EARTH DAY!

Let the word go forth... that the torch has been passed to a new generation of Americans... unwilling to witness or permit the slow undoing of those human rights to which this nation has always been committed. -- J.F. Kennedy

3/9/91 We, the children of Mother Earth, can focus on exposing INJUSTICE. That must be our goal.

Ain't no time to hate... We've got to mend what we have torn... today we've got to mend what we have torn... So join your hands together... Don't give up that ray of hope. WE'LL SAVE YOU, MOTHER EARTH.

Each of us is a beautiful color... But when we join hands... We're a rainbow... We are Rainbow warriors... We dance to the Rhythms of Life... Upon our sacred Mother Earth... Kissing her with dreams... With hands joined... We are the voice OF Peace

I'd like to share with you some of my ideas about Networking. In NWR #12 I first got some of my thoughts printed about bringing together the peaceful people, the children of Mother Earth. Because of that printing, I started to get a lot of letters from all over. And all those people are becoming the Networkers. Now we're creating a Northeast Network. I've started here in NY, but hope to extend nationally once a strong, established network is formed here. The whole thing about networking is Getting Together. To draw together all of the peaceful children of the Earth, like you and me, is what we need. Networking happens to take away that initial loneliness we have all felt when our eyes were first opened and others couldn't see what we saw. The other reason for having area networks is to have good sized organizations of people like us around the country. WE ARE EVERYWHERE! Just think: with area networks, our voices could really be heard through rallies, protests, letters and voting. The Old Society is collapsing, and we're going to have to use our knowledge to fix up the country. (Recession, planet destruction, AIDS, crack babies, corrupt government.) They need a solution. REVOLUTION! Let's face injustice with togetherness. Write me with input. Our Rainbow is growing brothers and sisters! I love you all.

- FORM YOUR OWN AREA NETWORKS
1. Look in NWR for addresses in your area
2. Write them and pen-pal
3. Establish yourself as a Network
4. Get together--hold network gatherings and Peace Days

PEACE DAYS I have this idea for networks to hold Peace Days. Get some drums, guitars and food, and regularly gather at a park. There could be speaking time, for people to announce information and upcoming events. There could be New World Rising fundraising. Dance for Peace. Do anything that you think would help produce positive energy. Talk it over with your network, check with the park to make sure it's cool to gather there, and spread the word. Consider: First day of Spring is the rebirth of life. Spring Peace Day across the country could be held! Earth Day is also coming.

Our playground, Our Garden of Eden, Here, all things would grow. Here we could all learn, teach, and exist. Mostly, we could all learn, wanted to be. There was a lot of hard work ahead of us, and we looked forward to the challenge.

Back on Earth, a strange phenomenon took place. Sensoround Theatre, in its entirety, disintegrated. Authorities, however, did not have the entire planet exploded from within. In the cool dusk of evening, clustered around small fires, eating fruit and making music, were the children of a new world. They seemed quite comfortable in their new surroundings. One person looked up casually and pointed. Far off in the blackness of space, there was a sudden burst of light. Then nothing.

Really need to develop ties with Active individuals. Initiate some guidelines for each state chapter. Print materials of all state coordinators in NWR. Focus on getting media attention where ever possible - local newspapers, radio / other magazines / college campuses / etc. Possibly the DEAD (maybe Bob) would help with a letter or two for NWR. Obviously this would be difficult but would be a good for the zone. During this phase, we must develop contacts with as many college activists as possible. The Dead shows are great but I think we are missing out on a large group. Plus this segment usually has a decent cash flow and might be willing to contribute. One organizer per campus is all we need because the additional support will flow fast esp. if NWR is in the right hands. Need to begin thinking about the future direction and growth patterns. Are people initially involved staying in touch? Contact everyone again. Stress their assistance. Hopefully 150,000 - 200,000 copies (300-350,000 for the year) Malachite

WAR SHAPERS OF AMERICA'S GULF POLICY

Number One: Iraq's invasion of Kuwait, August 2, was the precipitating cause for what has occurred subsequently. Not true: The truth is that Iraq was manipulated into the invasion of Kuwait, to create a pretext for what has happened. Number Two: The issue in the Gulf showdown is the freedom and territorial integrity of "little" nations such as Kuwait. Not true: The "defense" of Kuwait is the pretext for the implementation of a policy adopted by powerful forces in Great Britain, Israel, and the United States, during spring 1982, with Britain's war against Argentina. The policy is called NATO "out-of-area" deployment, and is intended to give the Anglo-American combination complete military as well as economic control over the territory, resources, economies and populations of the entire developing sector.

NATO Out-of-Area Deployments The Iraqi invasion of Kuwait has been turned into a pretext for war. The policy behind the pretext is called NATO "out-of-area" deployments. Cold War over, beginning the Malta summit December 9, 1989, military operations against Third World populations have been put on the agenda. Little Panama was the first target, December 22, 1990. In the American invasion, more than 4,000 civilians were butchered by U.S. troops, as sacrifices to the New Order.

If all the cars on American roads got an average of 42 mpg, we wouldn't need to import any oil to meet our present demands.

We are the chosen -- we saw the light, now we must be reflectors of this powerful ray into the eyes and hearts of all. We must be mentors of true being! Praise Jah! WHY YOU SHOULD VOTE
It's undeniable... People are waking up all over and seeing better ways of living. One problem progressive people face is the fact that the government doesn't listen to us. They don't have to, because so many of us don't vote. Lots of folks respond, "Well, there's no worthwhile politicians to vote for." True, for now, but a progressive politician can't get anywhere without our votes. If the lines at the polls started filling up with open minded, alternative people then the political parties would sit up and take notice of us. We would become a viable political force. They would have to incorporate our ideas into their platforms so that we don't vote them out of office. WE CAN'T JUST WAIT FOR THE OLD MACHINE TO BREAK DOWN UNDER THE WEIGHT OF ITS OWN BAD POLICIES AND CORRUPTION--WE MUST DO SOMETHING ABOUT OUR LIVES AND OUR WORLD NOW. EVEN IF YOU JUST WRITE IN "NONE OF THE ABOVE" ON YOUR BALLOT, AT LEAST YOU'RE LETTING THE powers that be know you're here and you're watching them.

SIX PRINCIPLES OF NONVIOLENCE*

PRINCIPLE ONE: NONVIOLENCE IS A WAY OF LIFE FOR COURAGEOUS PEOPLE.
It is active nonviolent resistance to evil.
It is aggressive spiritually, mentally and emotionally.
It is always persuading the opponent of the righteousness of your cause.
It is only passive in its non-aggression towards the enemy.

PRINCIPLE TWO: NONVIOLENCE SEEKS TO WIN FRIENDSHIP AND UNDERSTANDING.
The end result of nonviolence is redemption and reconciliation.
The purpose of nonviolence is the creation of the Beloved Community.

PRINCIPLE THREE: NONVIOLENCE SEEKS TO DEFEAT INJUSTICE NOT PEOPLE.
Nonviolence recognizes that evil doers are also victims.
The nonviolent resister seeks to defeat evil not people.

PRINCIPLE FOUR: NONVIOLENCE HOLDS THAT SUFFERING CAN EDUCATE
Nonviolence accepts suffering without retaliation.
Nonviolence accepts violence if necessary, but will never inflict it.
Nonviolence willingly accepts the consequences of its acts.

PRINCIPLE FIVE: NONVIOLENCE CHOOSES LOVE INSTEAD OF HATE.
Nonviolence resists violence of the spirit as well as the body.
Nonviolent love is spontaneous, unmotivated, unselfish and creative.

PRINCIPLE SIX: NONVIOLENCE BELIEVES THAT THE UNIVERSE IS ON THE SIDE OF JUSTICE.
The nonviolent resister has deep faith that justice will eventually win.
Nonviolence believes that God is a God of justice.

* Derived from "Pilgrimage to Nonviolence" in Dr. King's Stride Toward Freedom, Harper & Row, 1958

On Saturday, January 26th, 1991 an organized mass of a quarter of a million people converged upon our nation's capital. What occurred was a display of people power. It was a tangible display of the peace and anti-war movement which has spread throughout our country. Although it sometimes difficult to sort through the governmental and media rhetoric, it is clear to all of us in the peace movement that nobody wins in a war. Over 125,000 people will have paid the price of death for this war. - Final dollar cost will end up being billions. And, this all occurs at a point in history when these dollars are desperately needed for social and humanitarian purposes. The result will be continued suffering here in the U.S. and around the world. The members of our peace family would like to thank all of those who supported the anti-war effort and know that the struggle for nonviolence, peace, and love will continue.

The environmental movement as a whole has finally admitted that we are serious about preserving the ecological integrity of the planet.

I've seen what people call beauty
It's all around, look closely and you'll see
The world that you may never know
We're losing it, we can't just let go.
Far away a dolphin cries
How long will we tell ourselves lies?
It's getting hotter everyday
We can't just push it all away
Because will we ever have the chance to save?
Because will we ever have the sea
I've seen what used to be the sea
My eyes swell up with tears of sympathy
The water that used to be so blue
It is now black, what will we ever do?
A wounded bird begins to die
We can't keep telling ourselves lies
Rain forests are destroyed by the hour
Why can't we have more will power?
Because will we ever have the chance to save?
What animal is next to die
You can kiss the earth good-bye
Because will we ever have the chance to save?
Next to disappear from this place
is a species called the human race
Will we ever have the chance to save...the earth?

The bright orange orb
lights the grey expanse of sky
Below the sky was a train.
The ocean poured through the door
The life of struggle
The ocean chants and dances.
In front of the white house,
The ocean meets the rocky shore
These rocks are cold and blue,
They show no emotion,
The ocean crashes over the rocks,
but the rocks still remain,
The rocks now try to push the ocean back,
With no success,
Today the ocean made a move forward
and covered some of the rocks
making them part of the ocean
Even if one pebble becomes a part,
The ocean's movement was a success.

NEW WORLD VISIONS

It's definitely time for changes around here. I truly think most people see the need for changes which would make the world much less full of stress and unhappiness and much more peaceful. Changes so things would be run on love and mutual respect, not the selfish search for huge profits of business-

men. It feels good to be one of a group of people who realizes this is a time of reconstructing, a time to create a peaceful environment. But when are the politicians and heads of the huge corporations going to see that the state of this country must not remain the same? Sure, they'd love this country to stay the same since they have always gotten richer as we have fallen around them. But we are the majority and cannot and will not let this vicious cycle of greed and capitalism continue.

I see a new world rising ahead, maybe it's too idealistic, but dreams can come true. I see everyone with adequate food, housing and jobs. I see people of all races, religions, ages, and sexual preferences together. And enjoying it. We are all made of flesh and blood, it's so hard to understand why some people believe certain groups are superior. I see the education system reworked to last much longer than just 12 to 16 years. I see significant reductions in money spent on defense as more people realize it is impossible to keep peace while at the same time

preparing for war. I see money spent on researching AIDS and other diseases and rebuilding the harm done to our Mother Earth rather than useless research. I see transportation becoming more accessible so kind people can get together with other kind people from far away to expand this peaceful movement. I see people's loneliness being lessened and unity stronger than ever through a strong networking movement.

As more and more people become aware and join this growing movement of peace, I believe more strongly everyday that we can do it. Maybe ever so slowly at first, but it must happen so we can all be freer and happier people. So, all you kind people out there, communicate and create peace with your words and actions. Please write, if you wish. I'd love to hear.
