(HE'S NOT SHITTIN' AROUND!)

GO FUCK
YOURSELF

DO IT TODAY!

I ain't going to defend obscenity -- there ain't no such thing; and besides, I ain't into defending things -- I'd much rather do them! It's like all the University students getting real upset over the Dionysus in '69 obscenity bust, and coming out in support of the Performance Groups right to go naked --- Fuck that jive bullshit! -- if students were really serious (for the fun of it, so yo speak) and would realize that you have to be part of the solution to the problem instead of acting as a "neutral buffer" which prevents immediate & fundamental change -- if they were really serious about people being able to go naked any & every where, they would take their own clothes off more often, instead of going and paying \$3.00 to watch some actors have some fun. So, the students should show up in court naked and expose the real truth. All Power to the Spirit and Body of the People! Anyway, back to the pigs & the honkie courts who are so perverse and guilt-obsessed as to judge young people obscene because of a word written or spoken, or for being in a pure state of being --- while they beat off but never comm under their black robes of death, and while they goose each other with their billy clubs and squeal gleefully while beating our heads bloody. Let them be exposed to the people once and for all! Let them beware lest some dope crazed, exhibitionist takes a mind to kidnapping some smut-obsessed authority and ties him Naked to the Amerikan flag pole for all to come by and see and touch! POWER TO THE PEOPLE!

FOR IMMEDIATE RELEASE--April 20, 1969

The forces of political and cultural oppression have opened up a new front. Along with attempts to silence, arrest and confine the leadership of the black community, the odious forces of repression inherent in capitalistic societies have begun to strip the young white communities of their spokesmen. This oppression was manifest in the Chicago conspiracy indictments.

ITEM: April 17, 1969. After deliberating for four days, a jury of 12 honkies in Oakland County, Michigan found John Sinclair, White Panther Minister of Information, guilty of assaulting a pig. Fred Smith, MC5 guitarist, was acquitted. Judge F.E. Robert* will sentence Sinclair on May 12. Maximum penalty is two years in prison plus a fine.

ITEM: April 19, 1969. Fears of pig plots to get Sinclair and stop the MC5 become less of a paranoid fantasy and more to be fact. At the Canadian border on the way to a job in Pointe Edward, Ontario, the band, John, and Bob Rudnick were stripped, searched, and harrassed while their car was stolen and maliciously ransacked by the nefarious Royal Canadian Mounted Pigs. Panther Minister of Information was seized and arrested for failure to register as a narcotics offender (a federal offense). A picture of Sinclair and Smith plus pages of background on the group were posted at the border crossings. The memos acknowledge warnings by the Detroit Hog Squad to be on the look-out. John Sinclair was held in Port Huron jail for two days without

bail* and arraigned* in Detroit* on Monday* * * * *

FLASH -- WHITE PANTHER Minister of Defense Pun Plamondon & Minister of Education Skip Taube have been arrested in Ann Arbor on the bogus pig charge of "distributing obscen material to minors, with the intent to corrupt their morals." BULLSHIT! We will continue to serve the peoples needs for information and provide all the righteous assistance we can young people who are struggling to liberate themselves from honkie consciousness. The control addict creeps can get fucked if they perceive our doing what is right, what must be done, & what is beautiful as an attack on them --- shit, we're busy enough taking care of our own survival and building a new Hip culture that our only concern for the authorities is to make sure that when they pass away we can forever close the book of history written by, for, and administered by Pigs! Taube & Pun are out on \$250 bond each, and their preliminary exam will be May 14 -- ALL WHITE PANTHERS ARE WELCOME & NEEDED TO SHOW SUPPORT & ENERGY IN THE COURTROOM, THE STREETS, AND THE SCHOOLS! ALL POWER TO THE PEOPLE AND THE PEOPLES CULTURE! ;

FLASH -- White Panther Minister of Information, John Sinclair, convicted in Oakland, Mich. for assaulting a pig (that's what they say after they beat the people bloody and mace us); sentencing will be May 12 & an appeal is planned.

FLASH -- Fred "Mad Dog" Smith, MC5 guitarist was found NOT GUILTY in Oakland, Mich. on a pig assault charge. STRIKE FAST & ESCAPE!

FLASH -- White Panther Minister of Defense, Pun Plar ndon & Minister of Education, Skip Taube were busted for giving away information about the White Panthers -- (distributing obscene material to minors) -- seems the authorities take the statement "Fuck God In The Ass" out of context and use it as an excuse to harrass and try & snuff out the Ministers and high school brothers of the White Panthers. The preliminary exam starts May 14 & Skip and Pun will represent themselves in court (after consulting with lawyers from the National Lawyers Guild (call them if you are ever in need of legal assistance, they are pretty hip and understand the bogus bull-shit of the laws in a radical way)

Upside down flaming jeep. No helicopters/ They were treacherously brilliant. The Marine had to learn fast or die Communist China death soup hardon piano wire. He was PFC Moore and was laying on his stomach on the grass crawling. He saw some North Koreans and sighted his automatic weapon. Red flame of BRATATATATATAT as mouths open falling backwards. They are dead and he moves careful forward taking rice and making sure they are dead. He makes certain they are all dead. He shoots them again to make certain. Fighting way through nearly impossible vegetation. He rests. He spits and smells his spit because he has nothing else to do. He moves ahead into nightfall Communist China. Bamboo hut in clearing with light burning. Moore feel light and great at once moving there to window sees woman kimona robe open. "I'm an American soldier."

"Come in," she say.

He do.

"You like saki?" she ask him.

"Yes. I'd like some saki."

They sit on the floor of bamboo hut and drink cups of warm saki. Moore sees China moon through the window and kimona robe with dragon on back.

"American soldier?"

"Si, senorita."

She makes Chinese food. They have egg rolls and chicken chow mein.

Tea.

"You like fuck me?" she say.

"Your cunt go sideways, don't it?"

American moves over dirt floor to girl & opens robe and puts hand on yellow breast slow. He feels so odd here in Communist China death march. He kisses breast and stomach. Water drips on his head. And the men appear. They take Moore to Heaven. They run him through an angel's harp. They stuff him in Chinese firecracker and on green lawn in Memphis he explodes like yellow submarine.

A SONG FOR ZAPATA

Fifty years ago, on April 10, 1919, Emiliano Zapata, General in chief of the Mexican Liberation Army of the South, rode into an ambush and was killed. The following day, one of the survivors of his guerilla group scrawled this on a wall in Cuernavaca: "It is better to die on your feet than to live on your knees." Panco Villa, Zapata's countr-part in the North of Mexico, composed the following words (not the ones in the school books) to "La Cucaracha" in reference to the Fascist pig generals who killed Zapata and who's rule led to an epidemic and famine which killed a million people in the state of Morelos after the murder of Zapata:

La Cucaracha, la cucaracha
Ya no puede caminar,
Poque no tiene,
Porque la falta,
Marijuana que fumar.

The roach, the roach
He can't go anywhere,
because he doesn't have,
because he's lacking,
Marijuana to smoke.

HIGH SCHOOL STUDENTS FIGHT BACK-FROM MONTREAL TO MEXICO

Black & White Students fought over a water fountain at Canarsie HS in Brooklyn. The administration called in the cops. The school was closed down. Nothing was accomplished. There are 300,000 high school students in New York City. When students fight among themselves, no one wins.. when we get together we can't lose. The students at Eastern District HS-Puerto Rican, balck and white, know what I'm talking about.

A few tuesdays ago, Dean Didjan Goldberg decided sutdents shouldn't be allowed to hang around the hall and rap with their friends. By Friday Goldberg had challenged too many students and the word had been spread. 10:30- "thats when most of the shit happens"-the lid blew. A black kid had been given a JD card for telling Goldberg he would bust his ass if he got suspended for loitering. Enough. Time to show the Man what happens when he busts our brothers. Running through the halls smashing window after window that separates them from the outside, desk after desk that holds them in boring classes, dumping file after file in Goldberg's office - strike a match burn the shit! Out the windows, into the street--dean's lists, delany cards, textbooks, toilet seats. \$4,500 worth.

The principals and the Bd of Ed and the PTA & the cops think that the use of brute force is going to bring "law & order" into the schools. Guntoting, billy club swinging pigs and senile bureaucrats aren't going to change anything. We're getting angrier everyday. As Lindsay was listening to big pig Leary's report on his riot control, a student from Tech was busted for a Molotov cocktail, gas went off at Christopher Columbus, and the students of Taft were protesting the suspension of a brother. WE WANT AN END TO VIOLENCE! But who is violent? The system that wrecks our lives, stunts our growth, forces us to fight! WE WILL DEFEND OURSELVES AND EACH OTHER!

LAST CHANCE FOR OUR SPECIES

Speakers at the Sierra Club's annual Wilderness Conference last weekend delivered articulate warnings of various impending ecological disasters.

The several approaching catastrophes seem to be racing each other: will our species poison itself, or will it starve itself, or will it smother itself? Of course we can't forget the bomb, we may all be wasted away by the bomb.

The speakers at the San Francisco Hilton had organized their information brilliantly--and delivered it firmly. But never once did they say 'by any means necessary'. They had all the information, but they didn't seem to have a program or a way to put a stop to the rape of our mother earth.

Prof. Robert Curry of the UC Santa Barbara said the population explosion is not occurring but has already occurred and the first of a series of widespread famines is inevitable within a relatively short time; he proposed that certain wilderness areas be designated "refugia", and this area must be protected from large, starving populations.

Gary Snyder suggested that Prof. Curry's "refugia" also protect traditional primitive peoples in order to preserve the knowledges of wild ecology. He also suggested that Borneo be sealed off from civilized human predators.

Gary said he would be happy to sit down in front of a bulldozer whose operator was bent on earth-rape. He proposed investigations to determine which US organizations and companies and private individuals are most responsible for fucking up the ecology of the planet.

Probably the brightest ecological action so far was one pulled off by Diggers and Provos in New York City in early summer of 1967. Executives of Consolidated Edison, one of the chief air polluters in NYC, got soot sprayed in their

faces as they emerged from their headquarters building around 5 pm. The guerrillas got away before the peace officers arrived.

HERE'S WHAT YOU CAN DO!

Every morning when you get up blow your nose into an envelope, seal it up with a little note inside, send it to Detroit Edison. Tell them, since you guys put this shit in the air, I thought you might want it back. The next day do the same thing only send it to GM or Ford. You get the picture.

OR

Find the spot where a certain factory pollutes a river, blow it up, or a factory who pollutes the air, blow up its smokestacks. They get the picture.

* We are eating up the planet, the New York Times takes a forest, every Sunday, Los Angeles draws its water from the Sacramento Valley the rivers of British Columbia are ours on lease for 99 years, there are no more clams in Puget Sound

every large factory is an infringement of our god-given right to light & air to clean and flowing rivers stocked with fish to the very possibility of life for our children's children, we will have to look carefully, i.e., do we really want/need electricity and at what cost in natural resources human resource do we need cars, when petroleum pumped from the earth poisons the land around for 100 years, pumped from the car poisons the hard-pressed cities, or try this statistic, the USA has 5% of the world's people uses over 50% of the world's goods, our garbage holds matter for survival for uncounted "underdeveloped" nations

Every man, woman and child on the face of the planet earth, has the right to the highest and the best and the most beautiful life that technology and human knowledge and wisdom is able to produce. Period. So we start from there."
