

PayFusion365 For Sola + Microsoft Dynamics 365 Finance & Operations, Commerce, and Finance and Supply Chain

The Vaulted Standard in Secure Payments for Microsoft Dynamics 365

PayFusion365 for Sola turns Microsoft Dynamics 365 into a revenue engine. Plug into Dynamics 365 with prebuilt checkout, secure tokenization, and intelligent routing that lifts approvals and lowers cost. Partners ship faster with less custom code. Merchants capture every sale across web, mobile, and in-person from one enterprise platform. It is the payments layer your Dynamics 365 stack deserves.

PayFusion365 for Sola is the payments engine built for Microsoft Dynamics 365 leaders who refuse to settle for bolt-ons. It transforms Finance, Supply Chain, and Commerce into revenue-driving hubs by embedding in-person, online, and platform payments directly into your workflows. For Dynamics 365 subscribers and Microsoft Partners, this isn't just integration, it's acceleration: faster go-live, airtight compliance, and omnichannel visibility that turns every transaction into a strategic advantage.

Modular Architecture Highlights:

- **Dynamics 365 Commerce:** EMV Credit/Debit as Credit, Gift, NFC Tap-to-Pay, Mobile Wallets (Apple Pay/Google Pay), On Account/AR, Kiosk, Unattended
- **Dynamics 365 Finance and Operations/Supply Chain:** ACH, Pay-by-Link, Credit/Debit as Credit, recurring billing, automated retries, level 2/3 elevation, and account updater for subscription and invoice scenarios.
- **Security and Fraud:** tokenization, encryption, 3D Secure 2.0, fraud screening, and chargeback alerts.

Embedded Dynamics Architecture Intelligent Routing & Optimization Fast Integration & Deployment

 Credit, Debit, Apple Pay, Google Pay, ACH, Gift Cards, and More

 Countertop, Mobile, and Unattended Devices

In-Person Payments

- Countertop, mobile POS, and unattended kiosks
- Accept EMV Credit/Debit, Apple Pay, Google Pay, Gift cards
