EDITOR AND PUBLISHER

This tenth edition of the WHO'S WHO IN MALAYSIA AND SINGAPORE is offered to the public in the confident hope that it will prove to be the most comprehensive reference guide of its kind ever produced in this region. The WHO'S WHO IN MALAYSIA is a biennial publication bringing you up-to-date biographies of prominent people of almost all walks of life both in Malaysia and Singapore and of Malaysian who are overseas.

There are outlines in this book providing information about the Governments of Malaysia and Singapore, their Rulers and Ministers, their representatives in other countries, their Members of Parliament and of State Legislative Assemblies. This edition contains a large number of biographies of women leaders and sports personalities and details of the achievements of biographees in fields such as medicine, science and education.

The latest lists of National Honours of Malaysia including the State Orders and Decorations are in the first part of this book. Mention has been made after honours conferred on Malaysians by his majesty the king and other rulers.

As in the previous editions of the WHO'S WHO, biographies of Malaysians and other residents in Singapore and also other information about the Republic of Singapore and also other information about the Republic of Singapore are in a separate section. This section is followed by a Trade Guide.

The latest information about the biographees and other information received by us after the printing of the main section, are in the Supplement appearing towards the end of the book. Photographs of biographees which were inadvertently omitted are inserted in the Supplement. The Obituary Section provides brief notes on those whose biographies would have been included but who passed away while this book was being prepared for publication.

Once again we wish to record our thanks to those who have helped us in various ways, those who have been and still are our subscribers and to all our advertisers for their generous support.

We are grateful not only to those who sent us their biographical information and photographs at our request but also to those readers including some from other countries who have written to us in appreciative terms. Needless to say we are heartened by this encouragement. Indeed, the publication of as many as ten editions during the past nineteen years has been made possible by the continued support we have received from our subscribers and advertisers. We must mention that a few people declined to furnish us with their particulars. All the same we have done our best to include all available information. We would like to offer our apologies for any omissions or errors in this edition.
