The Contemporary MCEO Speaker-1 Contract — A'sha's Story

I have had direct personal contact with the Guardian Alliance (GA) since childhood, which included the experience of "**conscious fetal integration**" (spirit entering the fetus) and open (though fragmented) **reincarnational memory** since my physical birth in September of 1964. In infancy the Guardians would frequently interact with me in **dreams**, and occasionally they would visit me as conscious "**Light Orbs**" that I could physically see while I was awake. In the earliest Guardian Orb-contact, before I knew language here, the "Guardian-Orbs" would communicate with me through "*Direct Cognition*," and occasionally assist me with physical healing. The Guardians' presence was comforting and reassuring and I experienced the visiting Guardian presence as my "**real family**" from whom I had incarnated into Earth-life via my "biological host-family"; though I love them, I experienced my biological family in a way similar to that of "being an exchange student in a foreign country" and "living with a beloved local *host family* during your stay."

At **age 4**, I began to experience negative *physical "forced abductions"* from the Intruder Zeta races; the Zeta would also occasionally use the "vehicle" of "**Light Orbs**" for predatory contact. When the Zeta forced abductions began, the Guardians intervened directly and by **age 7** intensified contact to **physical "consensual abduction" transports**, through which my conscious training with them began. At this time the Guardians also **stopped conscious "Light Orb" visitations with me**, and engaged other means of **Keylontic Communication** and **physical contact**. The Guardians stopped using "Orb contact" to protect me from further confusion and deception by Zeta and other "Intruders" who were using "Light Orb" vehicles for manipulative contact, until my training was sufficient to "**tell the difference**" between "**friendly and unfriendly Orb phenomena**"; to my surprise, the GA-MCEO Guardians finally **re-introduced "Orb contact" in November 2008**, two years after our groups had begun training in personal "*Orb-ing Bi-location projection*." (More information on "Orbs," "Orb contact" and "Orb-ing" is found in *Introductory-Topics Summary-4*, the *Voyagers* books and in the *MCEO Freedom Teachings®* workshop DVDs.)

My training with the Guardian Alliance continued from age 4, until a ***Near-Death Experience*** at age 18, when my spiritual **ordinations** began with the Guardian Alliance–MCEO (*Melchizedek Cloister Emerald Order – Order of the Yunasa*) Eieyani Priests of UR of Kauai, Hawaii. I completed the *final level-6-Eckar MCEO-Ordination* in 1997, at age 33, at which time the Guardians offered me their ***MCEO Speaker-1 Contract***, which includes *CDT*-Plate* remote-translation (*12 Cloister-Dora-Teura Plate recorder discs from the 246,000 BC Emerald Covenant), teaching and specific planetary “grid work” responsibilities. In my preparatory training for CDT-Plate translation, the GA-MCEO orchestrated several *physical “consensual abduction”* transports, during which I was permitted to physically see and hold one of the CDT-Plate Silver Discs. During other GA-MCEO-orchestrated Bi-location experiences, I was trained to interact with the CDT-Plates in preparation for *CDT-Plate remote-translation* (information on the GA-MCEO CDT-Plates and “*remote-translation protocols*” is found in *Introductory-Topics Summary-1*). Following my MCEO-Eckar Ordination, I began in 1997 the formal remote-translation of the **MCEO CDT-Plates** and the Guardians’ **Keylontic Transmissions**.

Resulting from beginning CDT-Plate translations and the Guardians’ Keylontic Transmissions, the ***Voyagers*** series — ***Volume-1: The Sleeping Abductees*** and ***Volume-2: The Secrets of Amenti***—were published in 1999 (Granite Publishing), and at the Guardians’ request, I began doing **public workshops** featuring the Guardians’ teachings.

(Note: “*Keylontic Transmission*” involves an organic process of “multidimensional bio-electric data transfer,” or “**electronic data-streaming**,” that is **NOT “channeling”/ “conscious mediumship”** — the Guardians have progressively taught about the *hidden dangers* of “channeling,” and have provided alternative, safer “*Keylontic*” techniques for interdimensional communication and contact. More information on “*Keylontic Communication*” is found in *Introductory-Topics Summary-1*, the *Voyagers* books and in the *MCEO Freedom Teachings®* workshop DVDs.)

Kathara Healing, “Ascension Cycle,” Earth’s Templar & Azurite Press Travel Tours

In 2001 the Guardians identified *two other individuals* with whom they entrusted the “***MCEO Speaker-2 and Speaker-3 Contracts***” (historically MCEO Contracts involve only 3 appointed Speakers). These contracts do not involve direct CDT-Plate translation, but include various other duties of spiritual service and Keylontic Communication with the Guardians. In October 2000, ***MCEO Speaker-2 Michael “A’san” Deane*** and I married. At the request of the Guardians, the two of us and ***MCEO Speaker-3*** (a lady named ***Maryanne “Mac” Callaway***) founded “*Azurite Temple of the Melchizedek Cloister*,” which in 2002 was restructured to become “***Azurite Press MCEO, Inc.***,” co-founded by MCEO Speakers 1, 2 and 3. In addition to the continuing CDT-Plate translation and Keylontic Transmission of teachings pertaining to the subject matter featured in the *Voyagers* books, the Guardians in 2000 introduced the ***Kathara Bio-Spiritual Healing System™***, featuring ***inner-directed multidimensional self-healing technologies*** focused upon *restoration* of the dormant “*biological Ascension potentials*” of the ancient *Angelic Human* genome; this process of *genetic reverse-mutation* is referred to as “***Bio-regenesis***,” which can be accomplished through progressive, sequential restoration of key aspects of the *15-dimensional human anatomy*.

(More information on historical “MCEO Speakers,” “biological Ascension potentials,” “15-Dimensional Anatomy” and the “Angelic Human” lineage is found in *Introductory-Topics Summary-1*, the *Voyagers* books, the *Kathara Bio-Spiritual Healing System™* and in the *MCEO Freedom Teachings®* workshop DVDs.)

Since 2000, the Guardians have also progressively provided extensive training regarding “**Sacred Sites**” and Earth’s “**Planetary Templar**” (organic electromagnetic grid-line and Star-Gate/“Ascension Gate” system), and the historical and contemporary “**Hidden Big Picture Drama**” in which Earth and humanity have been and are currently engaged. These teachings are being provided by the Guardians at this time because in **January 2000**, Earth entered an expedited, 2213-years-early “**Stellar Activations Cycle**” (SAC) “**Halls of Amenti**” **Star-Gate opening period**, also called an “**Ascension Cycle**.” The SAC that began in January 2000 is the first one since the failed SAC of **22,326 BC**. Starting in 2000, the MCEO Speakers, at the Guardians’ request, have led **Azurite International Educational Travel Tours** “**Grid-Keeper**” workshop groups in which the Guardians guide us to various geographical locations and “*GA-MCEO Guardian Sacred Sites*” to assist them in restoring and activating key energetic circuitry within Earth’s Templar.

From 2000 to the present, our groups have traveled to many “*Guardian Sacred Site*” locations (some sites numerous times), including sites in **Egypt, Peru, India, Greece, Ireland, England, France, Andorra, the Netherlands, Belize, Mexico, Morocco, Bermuda, Tenerife, and St. Kitts**, and in **Hawaii** and various other sites within the **USA**.

(Detailed information on “Stellar Activations Cycles,” the “Halls of Amenti Star-Gates,” “Earth’s Templar” and “Grid-Keepers” is found in *Introductory-Topics Summary-1*, in *Voyagers Volume-2*, in the *MCEO Planetary Templar Stewardship Manual* and the *MCEO Arc-Hub-Gate Maps* handbooks, and in the *MCEO Freedom Teachings®* workshop DVDs.)

MCEO Freedom Teachings®, Kathara Team & Newcomers’ Modules Program

Many more books could have been published to contain the massive amounts of intensive information the GA-MCEO Guardians and the CDT-Plates have provided since 2002 — and that they continue to provide — but the Guardians chose instead to disseminate this information through the medium of **ongoing sequential independent MCEO workshops**. Our MCEO workshops simultaneously focus upon **personal healing and awakening**, status updates on the “*Big Picture Drama*” and **Planetary Templar Stewardship work**; each sequential workshop provides “next-level-up” dispensations from the Guardians, building upon the information provided in the workshop immediately before.

Since 1999, the workshop groups have grown rapidly as the Guardians’ teachings grow more in-depth, and in **2006** the body of the Guardians’ teachings released in the progressive workshops since 1999 was **trademark registered** under the (Melchizedek Cloister Emerald Order) **MCEO Freedom Teachings®**. Currently, our workshop groups average from **200–300 people**, and a **few thousand people** internationally are involved in our **Keylontic Science** and

related online e-Groups. As of *October 2009* there are **82 new-material workshops**; since the beginning the workshops have been filmed, and are currently available as **DVD packages** (many with supplementary written materials) on our "*Azurite Press Product List.*" Currently the MCEO Freedom Teachings® workshops collectively cover **over 1,000 hours of live teaching time.**

In 2000, following the guidance of the Guardians, *MCEO Speaker-2, my husband Michael "A'san" Deane*, created the organizational and administrative structures for **Azurite Press MCEO, Inc. USA**, which has expanded to include international affiliate offices in **Ireland, Australia and South Africa**; *Azurite Press* is the international distribution network for the MCEO Freedom Teachings® products and workshops. As the Guardians' teachings grew, the "next-level-up" information provided in each new MCEO Freedom Teachings® workshop progressively became so in-depth and specialized (each successive workshop introducing new subject matter in sequel to the subject matter from the workshop just before), that it became correspondingly more difficult for new people to "catch-up" enough to comfortably comprehend the in-depth subjects addressed at their first workshop. Resultantly, in **2003 MCEO Speaker-3, Mac Callaway**, organized the "*Kathara Team*," a group of dedicated MCEO Freedom Teachings® students who volunteer their time and talents to create an ongoing "**Newcomers' Modules Program**"—featuring a series of simplified, shortened presentations of *foundation teachings* from past MCEO workshops—that is offered on-location to newcomers prior to the main workshop presentations. The "*modules*" help new people to better understand various aspects of the foundation teachings, thus enabling them to receive greater benefit from the more intensive main workshop programs.

Through the dedicated efforts of *MCEO Speaker-2, my husband "A'san," and MCEO Speaker-3 Mac Callaway*, through the large group of *Azurite Press staff and volunteers* who have collectively become known as the "**MCEO Team**"; through the professional services of **Granite Publishing** (who publishes the *Voyagers* and *Angelic Realities* books) and **Learning Through Travel** (who organizes MCEO group-travel tours); and through the continuing support of the inspiring people who come to our workshops and value the MCEO Freedom Teachings®, my work in translating the Guardians' *MCEO Freedom Teachings®* continues to be made available and accessible to the public, and the Planetary Stewardship work of the Guardians continues to unfold. Many thanks and great appreciation are extended to this wonderful group of people for their contributions in bringing the contemporary MCEO Freedom Teachings® into the world. (Information on the "MCEO Team" is found in the "More Information" section of this website, under the heading "Meet the MCEO Speakers & International MCEO Team.")

Elements of the MCEO Freedom Teachings® & Ancient "False Ascension Science"

Since 1999 the MCEO Guardians' teachings have provided an ongoing, comprehensive study of the "**Cosmic Context, Structures and Dynamics**" of space-time-matter creation and spiritual evolution, of planetary, galactic and universal "**lost history**" and of the contemporary "**Big Picture Drama.**" The MCEO Freedom Teachings® have also provided a progressive program of studies in **advanced multidimensional anatomy**, including studies of: *15-Dimensional Anatomy; the 15-Chakra System, Axiatonal & Meridian Lines; the Light Body, Rasha Dark-*

matter Body, Elum'Eir-adhona Spirit Body, Aah-JhA' Hydro-acoustic Body and Jha-DA' Body; fetal integration, Bhardoah, growth cycles, Evolutionary Ascension Cycles, DNA, and much more.

The MCEO teachings explore the interconnection between the multidimensional anatomy and the physical-emotional-mental-spiritual bodies, the embodied consciousness, "higher states," the **DNA**, the **Realities of Transition** (conception, fetal integration, and "death"/Bhardoah) and the **Science of Ascension (Transmigration through Star-Gates/Time Portals via atomic Transfiguration)**. In 2000, introduction of the *Kathara Bio-Spiritual Healing System™ Level-1*—followed a few years later by *Kathara Levels 2–4*—provided a progression of **energy-technique applications** for advancement of personal **multidimensional healing and interdimensional consciousness expansion** through *sequential bio-field and DNA Template activation*. In 2008, due to unfavorable escalations in the planetary drama, we began expedited introduction of advanced **Kathara-12+** bio-spiritual healing technologies.

Within the intensive studies of "*Cosmic Context, Structures and Dynamics*" progressively featured in the MCEO teachings, we have learned of the intricate **genuine "Sacred Geometries"** inherent to personal and cosmic structure, and the corresponding **Sacred Processes of Physics and Consciousness**—such as **Partiki Phasing, Takeyon Harmonic Key Cycles** and **Eckashi Expansion & Adashi Return Cycles**—which are interrelated elements of the organic cycles of growth that govern cosmic formation, biological creation and spiritual evolution. We have also learned of the "**nature of space-time**," and of both the small and massive organic multidimensional "**time cycles**" that govern space, time, matter, consciousness and manifestation.

Progressively since 2000, the CDT-Plate translations and MCEO teachings have revealed many long-hidden secrets pertaining to the "**Science of Ascension**," which includes the **organic processes** of *interdimensional* and *trans-dimensional* **atomic Transmutation, Transfiguration, Translocation and Transmigration**. In our learning of the actual **organic processes** by which—and cosmic structures through which—the bio-spiritual dynamics of "Ascension" can occur, we have also received an extensive amount of information on the **intentional historical distortions** of "**Ascension Science teachings**." Through learning about the organic intricate structures, genuine processes and **Natural Laws of Multidimensional Physics** through which actual "*Bio-Spiritual Ascension*" (for "planets or people") can take place, the **falsehoods** carried within "**false Sacred Science**" teachings became progressively more obvious by comparison.

"False Sacred Science" teachings, and the **inorganic environmental and biological consequences** created through their use, are built upon **convoluted, self-serving perversions** of the organic *Laws of Multidimensional Physics*. Applications of these "*twisted multidimensional science*" teachings, historically engaged on Earth throughout different periods over many thousands of years, has **taken a terrible toll on human evolution** and on the **state of our planetary environment**. The "false Sacred Science" teachings emerged from periods in our ancient and pre-ancient past, during the historically ignored "**ancient advanced Earth cultures**" currently associated with "Atlantean and Lemurian mythology." During these ancient times, many **environmental and biological horrors** were created through application of the "*false Sacred Sciences*"; the **technologies** that emerged from these teachings represented a **perversion of the organic, living multidimensional technologies** that were once available through applications of *genuine "Sacred Science"*. In ancient advanced cultures, the "false

Sacred Science" teachings became known as the "Death Sciences," because reduction of eternal-life potential to **finite-life de-evolution** was the eventual **result of their applications**—regardless of what temporary benefits of finite power such technologies supplied.

During the ancient Atlantean period, there was **one particular body of "false Sacred Science" teachings** that emerged among Earth cultures after **one of the GA-MCEO CDT-Plates was stolen** and placed in Illuminati hands. The CDT-Plate revealed many advanced teachings of organic "Sacred Science," which Illuminati-Elder forces then *twisted* to form a particular "**wormhole technology**" through which they could seek fulfillment of their "Earth Templar Dominion" agenda. (Historical information on the stealing of the CDT-Plate and resultant ancient dramas is found in *Voyagers Volume-2, 2nd Edition*.) In ancient cultures, this particular *body of advanced twisted "false Sacred Science" teachings* that emerged, along with its resultant technologies, from perversion of the CDT-Plate teachings, was casually known as the "**Bloom of Doom**" technologies. This ancient name was adopted in reference to one of the primary **inorganic "energy distortion geometries"** used in this "Death Science," the structure of which, in common respects, resembled a "*blossom*." Other **characteristic components** of distorted mathematics and physics were also inherent to the "Bloom of Doom" Death Science. Components related to the "Bloom of Doom" technologies included a distorted **mathematical growth formula for artificial finite life** that in later days became known as the "**golden mean rectangle**" and "**Fibonacci spiral & sequence**," both of which were distortions of the "**Krystal Spiral & Sequence**" **organic eternal-life growth ratios** illustrated in the GA-MCEO CDT-Plate teachings.

Another component of the ancient Atlantean "Bloom of Doom" technologies emerged through distortion of the CDT-Plate symbol called the "**Kathara Grid**." *Distortions* of the CDT-Plate Kathara Grid symbol became known in the "Death Sciences" of the Atlantean period as the "**Tree of Artificial Life**," because temporary, inorganic, **finite-life artificial structures of matter, light and biology** could be created through the "twisted mathematical secrets" implied by the symbolic structure of the *Tree of Artificial Life* distortion. The genuine Kathara Grid represents the **organic core mathematical radiation-structures**, or "**lattices**," upon which eternal-life "**living**" **morphogenetic field-matter templates** are built. The **mathematical relationships** depicted within the organic Kathara Grid symbol represent the literal "**core mathematical formula**" of organic **radiation-lattice structure**, numbers of which lattices group together in very specific *geometric-mathematical patterns*—forming the structure of organic multidimensional radiation templates upon which "dark-matter," quarks and subatomic particles organize into structured manifest atoms and forms.

The organic Kathara Grid "lattice" features **12 "Signets"** or "power points" placed in very specific positions within a "**cross-bar lattice**" of **very specific proportions**; the **proportions and relationships** depicted in the genuine Kathara Grid symbol represent the mathematical formulae of organized-radiation-structure through which *organic, living matter, light and biology* are formed. The organic Kathara Grid is **not a "theoretical invention,"** but rather is a depiction of the *core organizational structure* upon which the organic, living, eternal-life Cosmos is, and has always been, formed. The organic Kathara Grid, and what it represents, exists as part of the organic **Natural Laws of Physics** that are indelibly inherent to the eternal, multidimensional Living Cosmos, and to the eternal "**Unified Field of Energy and Consciousness**" within which the Cosmos resides.

Distorted versions of the CDT-Plate original Kathara Grid symbol emerged through the “Bloom of Doom” teachings in Atlantis as the “*Tree of Artificial Life*” symbol, which originally depicted **11 “Signets”** instead of the organic 12, and which had specific **structural distortions** within the shapes and proportions of the “cross-bar lattice.” The organic “living” Kathara Grid symbol represents the literal “core mathematical formula” of organic *radiation-lattice structure* for the eternal Living Cosmos. Likewise, the various versions of the “*Tree of Artificial Life*” symbol represent a distorted, contrived, **inorganic “creation formula”** through which **unnatural** multidimensional radiation template-structures can be artificially created — by abusing the *Natural Laws of Multidimensional Physics* — to *harness and direct* the organization of “dark-matter,” quarks and subatomic particles, in order to form inorganic, finite-life artificial structures of light-radiation, and atomic and biological form.

Further distortions of the “*Tree of Artificial Life*” symbol emerged later in history as “*Tree of Life*” symbols depicting **7, 8, 9 or 10 Signet points**, with different “cross-bar lattice” distortions. These later Kathara Grid distortions represented renditions of the Atlantean “*Tree of Artificial Life*” creation formula as adapted by various groups of Illuminati who were in competition with the Illuminati “Bloom of Doom” creators. All such Kathara Grid distortions represent **attempts at implementing unnatural creation formulae** that deviate from the organic structures, and Natural Laws of Energy and Consciousness, inherent to the eternal Living Cosmos.

Two other components of the Atlantean “Bloom of Doom” teachings, and related “Death Sciences,” are hidden within two common symbol-forms referred to as the *vesica piscis* and the “*star-tetrahedron*.” The “**vesica piscis**” symbol is a set of **2 interlinked circles** with the inner-most “outside edge” (circumference) of each circle touching the center-point of the other circle. Within the CDT-Plates, this symbol was originally called the “**Bi-Veca Code**,” and it, along with its 3-circle **Tri-Veca Code** symbol counterpart, referred to specific organic structures, processes, functions and interrelationships inherent to the organic multidimensional electromagnetic frequency spectrum, and especially to the organic creation mechanisms and natural dynamics inherent to **light-radiation** and the organic Living Light structures upon which the eternal Cosmos is built. The “**star-tetrahedron**” symbol is a **3-dimensional symbol-form** constructed of 2 pyramidal-shaped vortices, each with a triangular base: one pyramidal-vortex is in the “point-up” upright position and intersects along a vertical line with the other inverted, “point-down” pyramidal-vortex. The 2-dimensional depiction of the star-tetrahedron is the commonly recognized symbol of the “**6-pointed star**” or “**Star of David**.” Within the CDT-Plates, both versions of this symbol were depicted with a circle around the symbol, and both were referred to as the “**Hierophant**” symbol, which depicted the mathematical formulae and multidimensional structures inherent to “**Merkaba Fields**.” Merkaba Fields are organic energy vortex structures that are part of the **natural multidimensional “circulatory system”** of the Living Cosmos, and which under certain conditions inherent to the Natural Laws of Multidimensional Physics, can become “**vehicles of transport**” within the organic processes of Genuine Ascension.

The Bi-Veca Code/“vesica piscis” and the Hierophant 6-pointed star/“star-tetrahedron” symbols, and the “Ascension Science” teachings corresponding to them, were part of the original “**Sacred Science**” teachings contained within the CDT-Plate that was stolen during the Atlantean period. In the hands of the Illuminati, the Bi-Veca and Hierophant symbols and their corresponding bases of knowledge were, like the “Kathara Grid” and “Krystal Spiral,” distorted: first into the “*Bloom of Doom*” technologies, and later into a variety of “Death Science” teachings and practices used by competing Illuminati groups in their quest for Earth Templar control. Unlike the **visibly**

discernible distortions of the Kathara Grid and Krystal Spiral symbols, Bi-Veca Code and Hierophant symbol distortions were **not immediately noticeable**; instead, the distortions were contained within the twisted teachings of *finite-life energy mechanics* that accompanied the symbols, while the image of the symbols themselves looked relatively the same. "Death Science" teachings involving the Bi-Veca Code — without its organic *Tri-Veca Code* counterpart — utilized the **distorted energy mechanics** inherent to the *vesica piscis*, by which inorganic, artificial, finite-life **static "Dead Light" radiation fields** can be generated through corresponding use of **distorted Merkaba Vortex mechanics**.

"Twisted" Merkaba Vortex mechanics implement **unnatural distortions of the spin-speed and spin-direction** of Merkabic Vortex sets, to create a **particle/ anti-particle harness field** within which energy and atoms can be trapped. Once trapped within the inorganic Merkaba Field, the harnessed energy quanta can then artificially sustain a prolonged longevity of form, and achieve limited local interdimensional transport, as long as the inorganic Merkaba Harness around it can *"feed"/drain energy from* organically living energy fields. The **inorganic Merkaba Field**, also known as the **"Death Star"** or **"External Merkaba,"** must "feed," much as an **"energy vampire"** — as unlike *organic "Krystar" Merkaba Vehicle* structures, the **"Death Star Merkaba"** is **incapable of independently generating energy quanta** for self-sustenance.

Once activated, this **"Artificial-Light Death Star Merkaba Vehicle,"** created through the **"Bloom of Doom"** and related technologies, engages the finite-life mathematical growth formulae of the *"golden mean rectangle"* and *"Fibonacci spiral & sequence"* to increase its spin-speed by draining energy from the life-field around it. Usually, inorganic *Death Star Merkaba* technologies employ the **unnatural spin-speed starting ratios of "34/21"** in relation to *two separate "same-spin fixed-vortex sets"* (4 vortices, rather than the organic 2) placed in counter-rotation to each other, which accelerate and blend to a **"common spin" of 55** when activated. Following activation, the Death Star Merkaba engages acceleration and quantum expansion via the inorganic growth ratios of the *Fibonacci sequence*, using the *"energy sucking"* dynamics inherent to the physics-mechanics illustrated within the *Fibonacci spiral*. **Organic Krystar Merkaba Vehicles** begin with a natural **"33¹/₃ – 11²/₃"** spin-speed ratio of a *single set of 2 counter-rotating vortices*, and build spin-speed and energy thrust to much higher speeds — beyond the known "speed of light" — through **internal quantum self-generation**, following the mathematical correspondences characteristic to the organic *"Krystal Spiral and Sequence"* growth formula. The **"ratio numbers"** pertaining to organic Merkaba Vortex spin-speeds refer to the **number of rotations** each counter-rotating vortex completes in a given period, for a period measured in increments that can be relatively compared to **"one rotation per trillionth of a billionth of a nanosecond,"** or RP-TBN.

Upon full activation, the **"Death Star Merkaba Harness Vehicle"** and its contents, be it a person, planet or galaxy, can engage **limited local interdimensional relocation** — but only through **inorganic wormhole, portal and black hole structures** formed by the same "Death Science" technologies. Once a biological or matter-form engages full Death Star Merkaba Vehicle activation, its matter-template becomes **permanently mutated**, and the being or matter-form loses its organic potential of natural multidimensional Ascension, along with the ability to pass through the organic Star-Gate "Ascension Passages" inherent to the Cosmic Templar. Though the Death Star Merkaba offers the **"immediate perks"** of *temporary extension of form longevity* and *limited interdimensional transport* within *black hole/wormhole systems*, due to the organic Natural Laws of Physics inherent to the eternal system of the

Living Cosmos, the ultimate fate of the Death Star Merkaba is **inevitable implosion, energetic self-annihilation** and release of its harnessed quanta to **space-dust**. Use of the Death Star External Merkaba Vehicle can be compared to *"taking a poorly planned quantum joyride that inevitably ends in a deadly crash at the end of a dead-end road"*; at the least, use of the Death Star Merkaba is a **very unwise decision**, if one genuinely cares about the potentials of one's own experiential evolutionary destiny.

Unlike the inorganic, **externally-fueled** *External* Merkaba of the Death Star Vehicle, the organic, **internally-fueled** *Internal* Merkaba structures inherent to the **Krystar Ascension Vehicle** allow for progressively unlimited interdimensional and *trans*-dimensional travel, and full, holistic evolutionary expansion back into the Original State of Pure Source-Consciousness. The *Krystar Ascension Vehicle* is formed through, and functions as, a **natural consequence to harmonious use of energy and consciousness** in relation to the Natural Laws of Physics inherent to the eternal Living Cosmos.

The distorted vesica piscis Artificial-Light manipulations and Death Star Merkaba mechanics, which are at the core of the ancient Atlantean "Bloom of Doom" and "Death Science" teachings, work together with the distorted matter-template mechanics of the *"Tree of Artificial Life," "golden mean rectangle,"* the *"Fibonacci spiral & sequence"* and other related "Death Science" components not discussed in this writing, to form an inorganic technology that attempts to manufacture an **"artificial facsimile of Eternal Life Ascension."** This **"facsimile of the sacred"** is intended to allow the organic *Laws of Energy and Consciousness* that govern the eternal Living Cosmos, to be bent, broken, twisted and misused, **without truth or consequence**, by the **whims of finite ego**.

Beings who **knowingly** employ this mentality desire to *"take a free ride at the expense of whomever or whatever crosses their paths,"* without any consideration for **"fair or harmoniously balanced energy exchange"**; they suffer from a **Dis-ease of Supreme Arrogance**, through which they become **self-deluded** into thinking they can escape the organic ***Natural Laws of Action and Consequence-to-Action*** by which the eternal Cosmos functions. Such beings inevitably learn, most often the "hard way," that such **"delusions of grandeur,"** and the ***perverse technologies created to fulfill them, simply do not work*** within the greater structures and context of the eternal ***Natural Cosmic Laws of Multidimensional Physics***—for energetic action will always be met with ***corresponding energetic consequence***.

The genuine "Sacred Science" teachings of the MCEO existed long before creation of the CDT-Plates or seeding of the Angelic Human lineage; the **organic First-Creation Dynamics** featured in the MCEO teachings existed as the **living framework of cosmic reality** long before the nature of these dynamics were ever recorded as "teachings." The **"Death Science" distortions** of these "First-Creation Dynamics" also existed within our Universe long before their more recent historical return to Earth through the Atlantean *"Bloom of Doom" teachings* derived from Illuminati infiltration of the stolen CDT-Plate. Technologies born of the "false Sacred Science" teachings, and corresponding perversions of Natural Cosmic Physics Laws, have **wreaked havoc for eons within our Galaxy and others**, since their inception billions of years ago among interdimensional races that attempted to *"push the concept of Free Will Consequence"* beyond all intrinsic, organic cosmic boundaries. Prior to the appearance of the "Bloom of Doom" Death Science technologies on Earth, these technologies were known in our local Universe as the **"Teachings of**

Metatronic Death Science," named after a *local entity collective*, called "**Metatron**," who was instrumental in bringing the Death Sciences more directly into our local Galaxy.

(Detailed information on "organic First-Creation Dynamics," the historical "Fall of Metatron" and related characters, and the mechanics and historical applications of "Metatronic Death Science" is found in *Voyagers Volume-2, 2nd Edition*, throughout various *MCEO Freedom Teachings®* workshop DVD programs, and in *Introductory-Topics Summary-1*.)

Ancient Deception, the Fall of Atlantis & Comparative Review of Death Science Paradigms

In the ancient Atlantean period of Earth, the "Bloom of Doom" Death Science technologies became well-rooted in Atlantean cultural practices; our **contemporary planetary environment**, human **DNA** and the **evolutionary potentials** of Earth's collective life-field are **still suffering** from the progressive, continuing effects of the applications of the Atlantean Death Science technologies. A primary factor in the **spread of Death Science teachings and technologies** within the advanced ancient cultures of the Atlantean period was the **mass deception** used by Illuminati groups to misrepresent these teachings as originating from a "Divine Inspired Source"; part of this deception involved the "demonstration of great powers" that could be achieved with application of the Death Science technologies. Masses of people were **deceived into thinking** that the "*wisdom and powers*" allotted them, through use of the Death Science teachings and technologies, were assisting them to *heal*, reach greater levels of *spiritual enlightenment* and attain mastery over the process of *Bio-Spiritual Ascension*.

In reality, the Death Science teachings and technologies progressively **mutated the DNA**, and *entrapped the consciousness* within a biologically-induced state of **false euphoria**—while systematically **dissolving the organic evolutionary potential** to achieve **Genuine Eternal Life Bio-Spiritual Star-Gate Ascension**. The ancient Illuminati races of the Atlantean period promoted the Death Science technologies *precisely to achieve these results*, for their **true motivation and intention** was not at all to "assist the human race" in aspiring to its potential "evolutionary glory"; the Illuminati agenda was to **covertly USE the human race** as "unwitting, expendable tools," through which the Illuminati goal of achieving **Earth "Templar Dominion"** could be fulfilled.

In ancient times, both the Illuminati-Human races and their ET Illuminati-Elder-kin directors **KNEW** that every biological life-form represents a "**biological electromagnetic quantum**," which exists in a **symbiotic bio-electric interrelationship** with the electromagnetic structures inherent to the **Planetary Templar and Star-Gate system**. The Illuminati intention was to **harness this "raw biological power"** of Earth's most "genetically advanced" Angelic Human species, by **cultivating the human biology** into a "vessel" through which the interdimensional frequencies of the **distorted "Metatronic Code"** could be "**electronically channeled en masse**" into Earth's Templar. If a mass of Angelic Human bodies could be **genetically mutated** to "run the frequencies of the **Metatronic Death Code**," then a critical quantum of the "**collective human body**" could be used to create "**quantum override**" of the organic electromagnetic coding of Earth's Star-Gate Ascension Passages, which are "electronically keyed" to the organic Angelic Human genome. Once such a "*mass of Metatronically-coded biological electromagnetic human quanta*"

was created, masses of humans could then be “guided” to perform specific “**spiritual energy rituals**” at various key “**Sacred Site**” locations of Earth’s Templar, during the “all-important periods” of Earth’s SAC Star-Gate-opening “**Ascension Cycles.**”

This process of “**invasion from within**” worked relatively well in fulfilling the **Illuminati small-scale agendas** of the ancient Atlantean period, culminating in “**Fall by design**” of Atlantean culture and resultant cataclysmic destruction of the territories of Atlantis. These “small Illuminati victories” of Atlantis represented “**baby steps**” in the fulfillment of a much larger “**Illuminati Master Plan,**” to which these “small steps” were **intended to lead.**

(Detailed information on the *symbiotic bio-electric interrelationship* between human biology and Earth’s Templar, the historical evolution of the Illuminati Master Plan, and the history of Atlantis is found in *Voyagers Volume-2, 2nd Edition*, throughout *MCEO Freedom Teachings®* workshop DVD programs and in *Introductory-Topics Summary-1.*)

As the GA-MCEO Guardians’ teachings and the CDT-Plate translations have continued, progressively more of the **joyous teachings and technologies** of true **love-based spiritual development** and **Genuine Eternal Life Ascension mechanics** have been revealed. But due to escalations in the hidden, contemporary *Earth Templar Conquest drama* that have occurred progressively since **September 2000**, the GA-MCEO Guardians have also revealed, along with the joyous teachings, the “**forbidden history records**” of the CDT-Plates, which detail the “**less-than-pleasant**” **history** of the “**Illuminati Master Plan,**” and the “**MUCH-less-than-pleasant**” **reality** unfolding “*cloaked before our eyes*” within the **contemporary planetary drama**. As we have learned more about the organic structures, genuine processes and *Natural Laws of Multidimensional Physics* involved with actual “*Bio-Spiritual Ascension,*” the similarities and the **differences between** the *Guardians’ MCEO CDT-Plate* teachings and “**popular New Age**” teachings have become progressively more apparent.

At the beginning of the SAC I had read very little of the popular “Ascension Science” teachings that were emerging within the New Age movement, so I had limited reference from which to compare or question; most of “my questions” were first asked by other people who had come into the MCEO teachings after studying numerous other popular and traditional spiritual paradigms. As I questioned the Guardians about the **differences in “subtle-anatomy structure, Ascension Science mechanics and ancient history accounts”** brought to my attention by others more well-read than myself, the Guardians progressively released information from the CDT-Plates that explained how the differing “Ascension Science mechanics” and “historical accounts” from various other popular spiritual paradigms were related to the teachings held within the MCEO CDT-Plate records.

Revelations concerning the **specific mechanics** of “**false Sacred Science**” teachings began around 2001, when the Guardians began release of the CDT-Plate ancient history records pertaining to the “**Fall of Metatron.**” From this point forward the technical teachings of the MCEO and CDT-Plate dispensations started to contain **detailed comparatives** between the **structures and mechanics** featured in the MCEO teachings, and those found in other, apparently contradictory paradigms. As the “**comparatives**” have grown, the **distortions, omissions, vacuities** and sometimes **utter falsehoods** contained in other paradigms have become painfully more obvious. In comparison to many of the “**very similar root teachings**” presented in various “New Age” paradigms, the differing views held within the MCEO CDT-Plates offer perspectives that are more **detailed, cohesive, comprehensive** and

cogent, and that simply make more “logical and spiritual sense.” Of further persuasive force, the MCEO teachings can show how and where the mechanics and structures featured in other paradigms fit within the more detailed, expansive mechanics and structures described in the CDT-Plate teachings; thus the MCEO teachings are “*inclusive*” rather than “exclusive,” which supports the “New Age” philosophy of “Unity/Christ Consciousness.”

At certain “crossroads of understanding,” such as in comparing the *structure, mechanics and numerical relationships* between the “*Krystal Spiral*” of the CDT-Plates and the *Fibonacci golden mean spiral* promoted in numerous popular “advanced” New Age “Ascension Science” teachings, even *more persuasive force* has emerged. For example, the “*Krystal Spiral*” has a **direct, immediate and permanent relationship with its own center-point of creation**, whereas the *Fibonacci golden mean spiral*, which is relatively based upon the geometries of the “golden mean rectangle,” has a **de-centralized start point of expansion**, rather than a centralized “center-point” of creation. There is a **logical/intuitive implication** held within this comparative that begs the question, “*Do WE not have a direct, immediate and permanent relationship with OUR own center-point of creation?*” This is what all New Age philosophies strive to teach us, and yet the logical/intuitive implication held within the “supposedly sacred” Fibonacci spiral promoted by New Age teachings illustrates a **contradictory “off-center relationship to origin.”** (Information on the Krystal Spiral & Fibonacci spiral comparative is found in several MCEO Freedom Teachings® workshop DVD programs.)

Another, more interesting example of contradictory logical/intuitive implication is found in **the way the “numbers” unfold** within the growth-expansion formulae of the “*Krystal Sequence*” and the “*Fibonacci sequence*.” The Fibonacci sequence features a sequence of numerical expansion in which the “*next expansion number*” to come is reached by “**adding together**” or “**devouring**” the **two numbers that come before it**. If we think of each number as a “**quantum of energy**,” then the two previous numbers are “added together” and **consumed** in order to “**become the next number**,” leaving nothing in their place; the “**numbers before**” become “**finite quanta**” that must “**disappear or die**” in order for the next number to be “**born**.” Thus the “numbers” within the Fibonacci sequence ALL represent **finite energy forms** that will be consumed and **cease to exist**, in order for the “next generation” to emerge. This is “**recycling of finite energy**” to create growth, not growth through **self-generated power**, and thus the mechanics of the Fibonacci sequence imply that it represents a **growth-expansion formula for finite life**, not **organic eternal life**. The growth-expansion pattern of the *Fibonacci sequence* can be found in nature, within energy structures and biological forms of a **finite nature**—which includes many, but not all, life-forms on contemporary Earth.

In comparison to the Fibonacci sequence of finite life, the numerical expansion of the *Krystal Sequence* from the CDT-Plate teachings occurs through **multiplying the preceding numbers**, in specific increments that are based upon the core structures of **Kathara Grid rotation**, to create the “next expansion,” **leaving the “numbers before” intact**; in “energy quantum” terms, the **eternal quantum integrity of all previous numbers remains constant**, as the **quanta** of the numbers before **are multiplied** through **self-generated power** to “**create the next unique number**.” Thus the “numbers” within the *Krystal Sequence* ALL represent **eternal energy forms** that will remain to infinity within their own unique individuation, always in relationship to the center-point from which they emerged, and always within the context of what they have “grown to become,” while the “next generation” emerges as a **unique quantum expansion** born of relative multiplication of the quanta before. This is “**creating new growth**”

through perpetually self-regenerating power," not growth through "recycling of finite energy," and thus the mechanics of the Krystal Sequence imply that it represents a **growth-expansion formula for organic eternal life**, not *inorganic finite life*. The growth-expansion pattern of the *Krystal Sequence* can be found in nature, within energy structures and biological forms of an organically **eternal nature** — which includes all life-forms within the Freed Worlds of "Eternal Life Ascension Systems."

The differences between the *Krystal Spiral and Sequence* and the *golden mean–Fibonacci spiral and sequence* can be simply understood in terms of their **respective relationships to their "creation points."** The *Krystal Spiral/Sequence* emerges from its **center-point** of creation — **to which it perpetually retains a living, "breathing"** (expanding and contracting) **connection** through preservation of what "came before" — and it expands through **multiplication** of that which came before. The *golden mean–Fibonacci spiral/sequence* emerges from a "point of adhesion" to a living/breathing form, to which it progressively loses contact, as it expands perpetually through **consumption and annihilation** of that which came before. The MCEO Guardians humorously refer to the *golden mean–Fibonacci spiral/sequence* as the "**Fib Of NO Chi (energy)**" **mechanics**; the simple differences of *logical/intuitive implication* between the "**Krystal**" **mechanics** and the "**Fib**" **mechanics** provide a comparative illustration of the **core differences** between and **intrinsic natures** of the respective **greater "creation paradigms"** each system of mechanics represents. Throughout the MCEO Freedom Teachings® many "direct" and "implied" differences have emerged between MCEO teachings and other paradigms, and with each comparative, a relative **"body of reasonable doubt"** has grown in relation to some of the other paradigms. Through the progressive comparatives, it has become obvious that the ancient Atlantean "**Bloom of Doom**" Metatronic Death Science is an **"alive-and-well and dominant force"** within the contemporary New Age movement.

Free Will Choice, "It's ALL True," the Encryption Lattice and the "Paths of Rise & Fall"

Though the "*Cosmos allows and finds value in all things*," and "*It's ALL good/God*" as the New Age sayings tell us (and with which the MCEO perspective actually agrees), it is also "*all good/God*" to **learn to discern** between the **various paths of spiritual awakening**, if one hopes to have any conscious influence at all over the direction of personal evolution. "*Where precisely does each 'spiritual path' lead?*" is a question worth asking; in the MCEO CDT-Plate dispensations the answer to this question is answered in precise detail, unlike the lofty but *vacuous* explanations offered in other paradigms. And yes, "**eventually ALL paths return to Source**," but another good question to ask is, "*What will the experiential road between here and Source look like?*" For therein lies the **core reason for discernment** in choosing a "life path," be it "spiritual or otherwise."

The Cosmos "runs by" certain **immutable "Natural Laws"** that will exist and *experientially apply*, whether or not one chooses to believe in them; one such Cosmic Law is that of "Cause and Effect," "**Action and Consequence-to-Action**," or the "**Law of Reciprocity**" ("What goes around comes around"). We WILL have "*consequence-to-action*" for each action we choose to take, and if we happen to choose an evolutionary path built upon the fundamentals of energy inherent to the "**Death Sciences**" path of *finite life and Space-dust Return*, we will live the experiential energetic consequence of that choice. If we "**choose not to choose**" a path of conscious evolutionary direction,

and simply, as the song says, "...*Sha-la...la-la-la...Live for Today...*," our **not choosing still remains a choice**; and in the "choice of no choice," we will be at the **mercy of the energetic consequence** that emerges through the "**field of mass action**" surrounding us in the external environment. In our current societies, we have a wealth of "happy affirmative New Age jargon" with which we could "blissfully dance ourselves into unknowing oblivion" for several life-times coming, but behind the "jargon" there are *real energetic realities* taking place, and it is through the response to those *underlying energetic realities* that we will meet with the reality of experiential *energetic consequence*.

Along with revelation of the "**light-, love- and joy-filled**" teachings of Genuine Ascension, the GA-MCEO Guardians have also released the "less-than-pleasant" aspects of the CDT-Plate historical records, which reveal the realities of the *Death Sciences* and their historical effects. The revelation of both the "**positive and negative**" **aspects** of our collective history and current, hidden human dilemma — and explanation of how each "polarized reality aspect" fits into the greater "**Unified Big Picture**" — was done to enable us to make more conscious, intelligent, informed choices, so that we might apply our *Gift of Free Will Choice* in ways that draw to us the *experiential consequences* we most desire. If re-evolutionary *awakening* to the **joyous path** of Genuine Eternal Life Ascension is what one desires, then choosing a belief-paradigm that is overtly *or covertly* based upon core realities of the *Death Sciences* will bring to one the energetic consequence *opposite* to that desire. **Energetic truth and its consequence** will always go "hand-in-hand" within the "Cosmic Law of Cause and Effect." *Energetic truth* is the **reality in core frequency-vibration** held by a being or thing at any given "now moment" in time. It is the **cumulative affect of this "energy truth"** that will draw to us the **corresponding cumulative energetic consequence** of that truth, through the "**Law of Cause and Effect**" that is inherent to the Eternal Laws of Multidimensional Physics.

The "*reality in core frequency-vibration,*" of a being, thought, idea, emotion, matter-form, or any manifest "thing," represents what is called the "**core radiation-encryption.**" This "core truth in frequency-vibration" is in actuality the frequency-vibration of the **core energy-radiation signature** held within the **morphogenetic field-matter template lattice**, upon which the organization of the multidimensional form of any manifest "thing" is structured. The *morphogenetic field template* is referred to as a "**lattice**" because it is a constantly fluctuating, flowing field of **intricate interwoven geometrical forms and patterns** made of minute **points of radiation**, that exists within, behind and surrounding the matter-form that manifests upon it.

In terms of this core-radiation "**Encryption Lattice,**" even "**invisible phenomena**" such as "thoughts," "ideas" and "emotions" are literal manifest **things**, possessing **tangible form, structure, matter-expression** and a core **Encryption Lattice** somewhere within the multidimensional spectrum. The "**cumulative sum of the frequency-vibration**" of the core Encryption Lattice at any given moment is called the "**Base Pulse Rhythm**" or "**BPR.**" It is the "**BPR**" of the morphogenetic field *Encryption Lattice* that draws a manifest form to the **cumulative energetic consequence corresponding to the "BPR" of its Encryption Lattice.** The "Cosmic Law of Cause and Effect" expresses within Ascension Systems as the "**Law of Reciprocal Attraction**" through which the Encryption Lattice of a manifest form is drawn into reciprocal, or mutual, relationship with its corresponding energetic consequence; it is the "**Law of Co-resonant Harmonic Alignment,**" which simply means that the specific core frequency-vibration,

or “BPR,” of a matter-form’s Encryption Lattice will draw that matter-form into relationship with other matter-forms that have a *correspondingly similar* Encryption Lattice and “BPR.”

In the **Re-evolutionary Ascension Path of Accretion**, “like-encryption attracts like-encryption” and “opposite polarities attract” through *Co-resonant Harmonic Alignment* of common BPR-core-frequency-vibration between the morphogenetic field Encryption Lattice of a manifest form and the *Encryption Lattice* of the greater “Unified Field.” Because of this dynamic, a manifest individual can use “Free Will” to “create its own reality,” because its personal Encryption Lattice is connected to the larger Encryption Lattice of the greater Unified Field through an **organic common neutral field**, through which **energy openly circulates in mutually appropriate proportions**, allowing for **perpetual quantum exchange** and **self-regeneration** between the personal Encryption Lattice and Unified Field Encryption Lattice. Through this organic *common neutral field*, the individual can consciously direct the BPR and geometrical-mathematical contours of the personal morphogenetic field Encryption Lattice, within a perpetual co-resonant relationship of **mutual energy exchange**. Through the common neutral field, the field of the individual remains connected to, but not controlled by, the greater-quantum Unified Field Encryption Lattice—thus the individual shares a **perpetual, reciprocally cooperative relationship** with the Living Unified Field. In Ascension Systems, “for every action there is a *reciprocally appropriate* reaction”; in Ascension Systems the “Cosmic Law of Cause and Effect” expresses as the “**Eternal Law of Reciprocity/Mutuality**,” which leads to progressive identity-accretion into wholeness and eventual Self-Transfiguration into eternal-life consciousness through the dynamics of “**Stardust Return**” in **Krystar Ascension**.

In the **De-evolutionary Fall Path of Annihilation**, “opposite encryptions and opposite polarities attract” through *Adhesive Disharmonic Alignment* of opposite BPR-core-frequency-vibration between the morphogenetic field Encryption Lattice of a manifest form and the Encryption Lattice of a greater-quantum “Quarantine Field.” Because of this dynamic, a manifest individual **has no Free Will**: its personal Encryption Lattice is **adhered to** the larger Encryption Lattice of the greater-quantum Quarantine Field by an **inorganic static bond** through which **energy cannot openly circulate**, but rather remains in an inorganic state of **perpetual counterforce tension** between the individual Encryption Lattice and the Quarantine Field Encryption Lattice. Through this inorganic field of *counterforce tension*, the field of greater quantum to which the individual is bonded will control and direct, by “**Quantum Dominance**,” the *contours and BPR* of the personal Encryption Lattice—thus the individual cannot consciously direct the BPR and geometrical-mathematical contours of the personal morphogenetic field Encryption Lattice, as it can only respond in **subjugated service** to the Encryption Lattice of the greater-quantum field to which it is adhered. In Fall Systems, “for every action there is an *equal and opposite* reaction”; in Fall Systems the “Cosmic Law of Cause and Effect” expresses as the “**Finite Law of Polarity Competition**,” which leads to progressive identity-fragmentation and eventual self-annihilation through the dynamics of “**Space-dust Return**” in **Death Star implosion**. Contemporary Earth is presently a “**Blended System**” with over 66% of its Encryption Lattice in Fall System BPR alignment.

Regarding the Sacred Sciences of *Ascension Systems* and the Death Sciences of *Fall Systems*, the MCEO Freedom Teachings® and the Guardians are not interested in “*proving which is right or which is wrong*.” From the MCEO perspective, there is no “polarity drama” between the two viewpoints and the reality systems they form. **BOTH** viewpoints are known as “**The Truth**” within the *Unified Big Picture of Eternity*. The **Sacred Ascension**

Sciences contained within the ancient MCEO *CDT-Plate teachings* represent a record of *The Truth corresponding to the re-evolutionary path of Genuine Eternal Life Ascension*; *this truth* is imbued within the Encryption Lattice and demonstrated throughout the *structures, mathematics, processes and dynamics* inherent to every Ascension System and for which the MCEO paradigm stands. The *Metatronic Death Sciences* contained within the ancient “**Bloom of Doom**” *teachings* represent a record of *The Truth corresponding to the de-evolutionary path of genuine finite-life expansion*; *this truth* is imbued within and demonstrated throughout the *structures, mathematics, processes and dynamics* inherent to every Fall System and for which the Bloom of Doom paradigm stands.

Thus the **contradictory perspectives** are both *Absolutely True* in relation to the **realities of energetic consequence** each respectively creates and embodies, as they coexist as part of the “IS-ness” within the Unified Big Picture reality of Cosmic Eternity. Both perspectives are “**true in relation to their own energetic objective**” and “**false in relation to the objectives of others.**” The greatest difference between these realities, aside from the quality of evolutionary experience within them, is that *Ascension Systems*, like the eternal-life Cosmos, are *eternal* and represent a path of Source-Return through the *Innocent Knowing* of Stardust wholeness — whereas *Fall Systems*, unlike the eternal Cosmos, are *finite* and represent a path of Source-Return through the *Innocent Unknowing* of *space-dust* fragmentation.

That which is eternal, *remains eternal*, and that which is finite *eventually self-destructs*, returning to its Source as undifferentiated units of consciousness; the God-Source Conscious Unified Field allows for the expression of both perspectives through application of the Gift of Free Will, and each expression will have its corresponding *experiential consequence*. All beings and things were originally manifest from the *Common Eternal God-Source Conscious Unified Field*, through the eternal dynamics of **Sacred Science**, and all were equally imbued with the birthright of Ascension and the Gift of Free Will Choice. The eternal Cosmos *does not require Fall Systems* in order to “achieve and maintain its balance”; Source simply *allowed for the potentiality* of Fall Systems as a means for expression of Free Will Choice. The Eternal Cosmic Laws of Multidimensional Physics were created by Source to serve as an organic moderator to Free Will Choice, through the dynamics of cause, effect and consequence; and it is through the dynamics inherent to these Cosmic Laws that eternal Living Balance is perpetually maintained, with or without the presence of Fall Systems.

The question over “**which path is right or which path is wrong**” simply comes down to “**choosing the energetic Truth that most suits you**” and your *Encryption Lattice* — the *energetic consequence* and experiential “out-picture” of that chosen truth **will be yours**, whatever you decide. The reality of “who and what you are” is the *energetic truth in frequency-vibration* held within your Encryption Lattice; in Ascension Systems, **Free Will** is the tool we use to “**create our own personal evolutionary destiny**” within the **preordained framework** of the Cosmic Unified Field, through conscious direction of the contours and “BPR” (cumulative core *frequency-vibration*) of our personal Encryption Lattice. In Fall Systems, the personal power of Free Will Choice and control of the personal Encryption Lattice is progressively subjugated to the greater-quantum power of the Encryption Lattice of the environmental collective.

The Hidden Human Dilemma, "Channels," Earth Extinctions, 2012 & the Planetary Encryption Lattice

Re-evolution into *conscious-wholeness* "**Stardust**" spirit through energetic **self-accretion**, or **de-evolution** into *unconscious-fragmentation* "**space-dust**" spirit through energetic **self-annihilation**...THIS is the question that lies at the heart of the **contemporary human dilemma**. As a result of the events from the ancient Atlantean period, most of Earth's populations continue along their path of **unconscious "Sleeper" evolution**, unaware of the consequential realities of *Encryption Lattice BPR alignment*—or of the impact their personal and collective belief systems have upon the personal and collective Encryption Lattice BPR. Meanwhile, the majority of those whom are "awakening" do not realize they have equally become "**caught within a carefully laid web of deception**" called the "**New Age**" movement, in which the "great joys of Awakening, Enlightenment and Empowerment" are being heralded from within the teaching paradigms of the "*Bloom of Doom*" *Metatronic Death Science Code*. And through this glossy-web of deception called the "**NET**," the majority of the awakening populations are being used intentionally and covertly as tools by the "fallen ET-angels and Descended Masters," who are "guiding" them into fulfilling the **Illuminati Master Plan** agenda.

Presently, the "Great White Hope" of the awakening New Age population has been "plugged-in" to the "Illuminati NET-Broadcasting station," through which its "**channeled material**" comes; it is no "coincidence" that the information so many of the channels receive is *complementary*. Mostly ALL of this material leads us back to the **absolute falsehood** that "*all of humanity* was created as an **ancient primate-hybrid slave-race** by the ancient **Anunnaki**," and thus we should be glad to view ourselves today as their "**children**." This twisted history, along with other falsehoods pertaining to the "**Christ Story**" and various other periods of ancient historical significance, is an **intentionally contrived false ET-Raider Race history** currently being "**beamed in**" from the **Illuminati NET**, precisely to keep us from remembering or discovering the powerful truth and current potentials of our genuine **Angelic Human** heritage.

Many contemporary "channels" who bring in distorted information from the **Illuminati NET** are not aware they are receiving their information from this source, and thus they themselves are being misled to the same degree as the general populations who follow their disinformation (this was also the case for many historic channels and their audiences). If they choose, such individuals can learn safer practices of interdimensional communication that involve Keylontic data-streaming, rather than "channeling," through energy techniques offered in the MCEO Freedom Teachings®. Some contemporary channels are more aware of the **Illuminati** agendas they serve, because they are actually incarnate members of the corresponding **Illuminati** soul-groups; such individuals rarely have interest in changing their communicative relationships, as they feel the emotional attachment characteristic to co-resonant Encryption Lattice alignment with the **Illuminati** soul-groups to whom they are connected.

Not only do all channels and "mediums" place themselves at risk of serving as vessels through which disinformation can come — they also put themselves at risk of direct identity displacement, or biological possession; all can achieve greater freedom, clarity and protection in their pursuit of interdimensional communication through choosing to employ MCEO Keylontic technologies. If the interdimensional identities being channeled are serving the

Ascension Path agenda, they will encourage their human contact to employ MCEO communication technologies. If the channeled identities are harboring an overt or covert alignment with Fall Path agendas they will tell their human contact that they do not need such protective measures, and will discourage "at all costs" the use of MCEO technologies, because they know the MCEO technologies will assist their human contact to discern between the Ascension and Fall Paths, and to break free from ill-intended multidimensional manipulation. The choice, and resultant responsibility of consequence, always remains with the individual human contact.

The "Anunnaki" history of which so many "channels" now speak represents a **partial truth** that **applies only** to the **descendants of the Illuminati Anu-Leviathan hybrid lines**, whose genome was blended with that of the Angelic Human during the ancient Atlantean period. **Genuine "Angelics" and "Ascended Ones" DO exist**, but because of the electromagnetic quarantine of the Illuminati Broadcast NET, it is almost impossible to "reach them" from Earth without specialized methods of protected multidimensional communication (that *DO NOT involve* channeling). There is a **"Grand Design"** behind what is being orchestrated by the Illuminati through the "NET-Broadcast channeling movement"; the NET has **functionally operated for about 13,000 years** through intentionally laid distortions within **Earth's geomagnetic field**. Throughout "known" history, the "channels" have been slowly but progressively "awakened"—"Metatronic-style"—for many thousands of years, each "bringing in pieces" of the often-competing versions of the *Illuminati NET-Broadcast story*. The Illuminati Broadcast-NET has been, through the ages, instrumental in "**seeding disinformation**" into various bodies of "Sacred Doctrines," which have culminated in the formation of the *traditional* "**mass control dogmas**" of both religion and science that are still to this day the "guiding force" of the "collective human psyche." As the long-awaited "**2012 Time of Grand Significance**" approaches, a **global fleet** of many "**new channels**" has "awakened," and now, three years before the long-awaited "**Grand Illuminati 2012-Event**," the "*collective NET-Broadcast stories of the historical and contemporary channels*" are **coalescing** into a "**complementary, believably cohesive platform of false unified history**" to which masses of "awakening humans" currently subscribe.

When the events of history and contemporary times are viewed with an **understanding** of the function of **Encryption Lattices**, and their direct role in creating "**evolutionary path alignments**" through the reality of *BPR Co-resonance*, it can be understood that "**specific mass beliefs**" create corresponding "**specific contours and geometrical-mathematical patterns**" within the collective "**Species Encryption Lattice**," and resultantly within the **Planetary Encryption Lattice**, all of which directly affects the *core BPR alignment* of the planet, and thus the **planet's evolutionary path alignment**.

Neither our remembered nor our forgotten history has unfolded by accident—it has been covertly, meticulously, and patiently orchestrated through **off-planet Illuminati-Elder "Raider Races,"** and the unwitting, manipulated, power-hungry, and equally-amnesiac earthly **Illuminati-Human "children"** genetic-lines that these Elders created in Atlantis as an intended "**expendable quantum resource**" through which to fulfill their "**End Times Master Plan**." It is precisely this ancestry from which the current Illuminati-Human genetic line has emerged, and though these "ET-hybrid-human collectives" appear to be (especially to themselves) "*covertly running the global show*," they are in truth being as badly manipulated, deceived and disempowered by their Illuminati-Elders, as general human populations have been by the Illuminati-Humans. What the Illuminati-Elders have **failed to reveal** to their "children" is that from the inception of their "*Grand Master Plan*" in Atlantis, they **never intended to "save their hybrid-**

children" when they orchestrate Earth's "**Final Extinction Event**" at the height of fulfillment of their "Illuminati Master Plan." *This* is the "**Big Secret**" that is not even being revealed through contemporary primary Illuminati NET-Broadcasts.

The "**5 Mass Extinction Events**" that have historically occurred on Earth (approximately 446 million years ago [MYA]; 364 MYA; 252 MYA [the largest]; 200 MYA [TJ Event]; and 65 MYA [KT Event]), were **NOT "happenstance occurrences** that resulted from organic environmental conditions"; these events were **deliberately and specifically purposed extermination events** orchestrated by competing Illuminati-Elder race ET-groups, as part of their long-running battle over "Earth Templar Star-Gate dominion." All of these "*extermination events*" took place **prior to Angelic Human 1st-Seeding** 25 MYA, and all were created in order to **change the mathematical-geometrical patterns of Earth's core Encryption Lattice morphogenetic field, by removing the Encryption Lattices of "undesired life-forms"** from the Encryption Lattice of Earth's collective life-field.

The **technologies** by which such *enormous effects* can be generated are the product of "*Bloom of Doom*" *Metatronic Death Science* applications. During the Atlantean periods of **13,400 BC** (about 15,000 years ago) and **10,948 BC** (about 13,000 years ago), these pre-ancient *Metatronic Death Science* technologies were once again slowly but progressively **re-awakened** to serve an *instrumental role* in the Illuminati Master Plan agenda. (New information on the *13,400 BC and 10,948 BC Atlantean periods* and the "*precession of the equinoxes*," *Illuminati Master Plan and 2012* is found in *Introductory-Topics Summary-1*; further information on the history of the Illuminati Master Plan and Atlantis is found in *Voyagers Volume-2, 2nd Edition*, and throughout *MCEO Freedom Teachings*® workshop DVD programs.)

So in contemporary times, all humans, both "Angelic" and "Illuminati" alike, share a "common human dilemma," as together we are facing a rapidly approaching "appointment with destiny," during which the evolutionary potentials of humankind will be finally determined. Presently both the "Great White Hope of Enlightenment" that the New Age movement was intended to become, and the "**traditional brotherhoods**" of religion and science that this "**Great White Other-hood**" was planning to "assimilate," are together **wandering blindly toward a collective destiny**, where they will have little conscious choice as to the "nature of global events" in which they will become progressively entrenched.

Currently both the "traditional" and "New Age" collectives are **unknowingly becoming**, to quote an earlier passage, a "*mass of Metatronically-coded biological electromagnetic human quanta*" who "*perform specific 'spiritual energy rituals' at various key 'Sacred Site' locations of Earth's Templar,*" during **this all-important period** of Earth's **2000–2017 SAC Star-Gate-opening "Ascension Cycle."** The passage continues: "*This process of 'invasion from within' worked relatively well in fulfilling the Illuminati small-scale agendas of the ancient Atlantean period, culminating in 'Fall by design' of Atlantean culture and resultant cataclysmic destruction of the territories of Atlantis. These 'small Illuminati victories' of Atlantis represented 'baby steps' in the fulfillment of a much larger 'Illuminati Master Plan,' to which these 'small steps' were intended to lead.*" **Sound familiar?**...Yes, indeed, once again "**Atlantis IS Rising**" to **repeat its ugly history all over again**, but THIS TIME, it's the "**Final Conflict Drama**" and the "**Final Big Game**" is on.

The “baby-steps” of the ancient Atlantean Illuminati victories have now become the **“giant steps of an invisible Illuminati-Elder Leviathan Goliath”** — the Illuminati-Elders are dedicated, as they have been since long before Atlantis, to their **“Prime Objective”** of seizing dominion of Earth’s Star-Gates, through control of the **Planetary Encryption Lattice** and *geomagnetic field*. The only reason the Angelic Human lineage was permitted to survive, and the only reason the Illuminati-Human races were so painstakingly cultivated, was to enable the off-planet Illuminati-Elder races direct bio-electronic access to Earth’s Star-Gates during an SAC. In the view of the Illuminati-Elder races, once bio-electronic Star-Gate access was accomplished, and Earth’s Star-Gates were opened on a dominant Metatronic Code, through the presence of both the Angelic Human and Illuminati-Human genetic line, both “Earth human” gene lines will have “served their purposes” and “become redundant.”

The **“point of species redundancy”** within the Prime Objective of the Illuminati Master Plan, is the point at which Earth’s Star-Gates would open under Metatronic dominance during an SAC. This point has been scheduled by the Illuminati-Elders for about 13,000 years, to occur between the end of 2012 AD and the beginning of 2013 AD, and at this point, the Illuminati-Elders have long intended to orchestrate the “6th and Last Earth Extinction,” through rapid shift of Earth’s geomagnetic poles.

The duration of this “invasion from within” Illuminati-Elder Templar conquest may seem “ridiculously long,” but for beings who have **extended their biological longevity to several hundred thousand years** through the application of the Metatronic Death Science technologies, this conquest drama seems not much longer than **“a blink of an eye.”** It is only to we *“Puny Humans”* (as “Metatron” called us in a recent channeling), with our roughly 100-year biological life-spans, that the period over which this “invasion from within” has spanned *seems too unimaginably long*, so as to render the idea of its possibility unbelievable. But **“believe it or not” this drama IS taking place**, and it will unfold its “scaly clutches” around our coming “2012–2015 appointment with Illuminati destiny”—yet **there is still time** for the application of **human Free Will** to *influence*, though not directly control, the events that will in the **near future** unfold.

The Big Game, the Show, Pertinent Questions and the Silver Seed Awakening

Dear People, the “2012 Mass BPR Showdown” is on; are we going to *pull up a chair, grab a bowl of pop corn, and “just watch the show unfold”*? Or are we going to make an effort to achieve some conscious control over our personal evolutionary destinies? The choice is fully up to each individual, and the MCEO humbly respects whatever your free will choice might be. Sadly, most human populations **do not even realize that the “show has been released into the theater,”** and so will continue to move forward within the **“Atlantean Waking Dream”** of long ago, from which we all emerged. For those of us who still care about our personal evolutionary destinies, **positive, love-based, joy-filled** things can be done in **preparation for, and following 2012**, which will provide the opportunity for us to **SHIFT ourselves** into a **more desirable evolutionary alignment** than that of the “Path of Fall,” with which the primary quanta of Earth are now engaged due to the **66% quantum alignment** of Earth’s Planetary Encryption Lattice, and geomagnetic field, to the Metatronic Code. Earth’s current predicament **“begs a host of questions,”** that the MCEO Guardians can now begin to address:

- ***Will Earth's current "SAC 'Ascension Cycle' Star-Gate opening period" continue?***

Yes, but with extensive modifications, which will be progressively addressed in coming MCEO teachings. In 2003 Earth's **Halls of Amenti Star-Gate System** fell to Metatronic Illuminati control; the MCEO Guardians' efforts to rehabilitate the Amenti Gates failed by the end of 2003. And thus the Encryption Lattice of Earth's Amenti Star-Gates no longer aligns with the organic Ascension Passages of the Living Cosmos, but rather aligns with the **Metatronic wormhole structures** that interface with the fallen **Parallel Earth–Parallel Milky Way Black Hole System**.

With the fall of the Amenti Gates in 2003, the MCEO Guardians have progressively activated a very ancient network of trans-dimensional Earth Interface Star-Gates which include the **"Arc of the Covenant–Hub Gate Network,"** the **"Polarian Gate System,"** and the **"Na-VA'-Ho Spanner Core Gate System,"** which together, in 2012, will allow for the opening of the **"Aurora Silver Seed Gates,"** through which Earth's Templar can retain direct connection to the Living Cosmic Templar Ascension Passages, despite the Illuminati's scheduled 2012 opening of the **Fall-aligned Parallel Alpha-Omega Gates** into Earth's captured Halls of Amenti Star-Gate system. Through opening of the Aurora Silver Seed Gates, Earth's Arc of the Covenant, Polarian and Na-VA'-Ho Spanner Core Gate Networks will fully open in 2012, keeping the potentials of Genuine Eternal Life Ascension viable on Earth during the current SAC.

- ***Why did Illuminati-Elders schedule the fulfillment of their Master Plan Prime Objective for 2012 AD?***

In 22,326 BC the Illuminati Earth Templar Quest ended in a "stalemate" between Guardian and Illuminati races. Since that time, both groups knew that the "Templar Conflict Drama Showdown" would occur during the next SAC Star-Gate opening period, as the Illuminati Force required Earth's Halls of Amenti Star-Gates to be open in order to fulfill their agenda of using inorganic Metatronic wormhole structures to **"blend the Encryption Lattice of Earth's Templar with that of the fallen Parallel Milky Way Galaxy."** Earth's next SAC was not due until **4230 AD**, but the **Metatronic Fall Gate artificial wormhole structures** of the Parallel Milky Way Galaxy and Parallel Earth were due to open in our time equivalent of **2012 AD**.

In the **13,400 BC** and **10,948 BC** Earth Atlantean periods, the Illuminati Force succeeded in orchestrating **two inorganic accelerations** of Earth's "wobble," "precession of the equinox" cycle and **Encryption Lattice**. These accelerations caused an **inorganic time-acceleration** within portions of Earth's Templar and Halls of Amenti Star-Gate system, which would cause Earth's Halls of Amenti Star-Gates to **open prematurely in the 2012–2013 AD period**, for **Encryption Lattice blending** with the opened **Fall Gate Cycle of the Parallel Milky Way Black Hole System**. Earth's Amenti Gates would open in this period only if there were a sufficient number of Illuminati-Human hybrid races on Earth to "run the bio-electronic Amenti Gate Codes" into Earth's Templar during this **"Parallel Gate Alignment."** The Illuminati Parallel Gate Alignment is called the **"Alpha-Omega Alignment,"** which occurs between October 2012 and February 2013, with peak alignment on **December 21, 2012**.

If the Illuminati-Elder agenda succeeded, Earth's Amenti Star-Gates would be prematurely forced open to engage direct Encryption Lattice and Merkaba Field Blend with **Parallel Earth**, through opening of the

Metatronic wormholes within the black hole center of our Milky Way Galaxy. In preparation for the “Parallel Alignment” and the Illuminati-scheduled “Earth human 2012-appointment with Illuminati destiny,” the Illuminati-Elder races progressively orchestrated the “*Common-man Mass DNA Mutation*” through which the Illuminati-Human line — carrying the Amenti Star-Gate codes as a result of interbreeding with the Angelic Humans— would be “ready” for the “2012–2013 AD Alpha-Omega Alignment.” (Information on the “Common-man DNA Mutation” is found in *Introductory-Topics Summary-1*, in *Voyagers Volume-2, 2nd Edition* and within various *MCEO Freedom Teachings®* workshop programs.)

Throughout the history of this Atlantean Drama, since the 22,326 BC “stalemate,” the GA-MCEO–Krystal River Guardians progressively attempted to postpone the “Final Conflict Drama” until the next organic Amenti Gates SAC of 4230 AD, but intended to intervene directly if the Illuminati Force attempted to orchestrate early opening of Earth’s Halls of Amenti Star-Gates in 2012 to engage the Alpha-Omega Fall Alignment. In 1984 AD the Guardians initiated the “**Bridge Zone Project**” Templar Restoration Mission and began early opening of the Amenti Star-Gates for the 2012–2017 period, because they discovered that Earth would meet with a cataclysmic end in the future probability of **2976 AD** and thus would not make it to the next organic SAC of 4230 AD. If the Bridge Zone Project was successful, Earth’s Encryption Lattice would be restored to organic Ascension Path Alignment, and the Illuminati 2012 Master Plan of the Alpha-Omega Alignment would be prevented. With the fall of Earth’s Halls of Amenti Star-Gates to Metatronic Illuminati control in 2003, the Bridge Zone Project evolutionary option failed by 2006. Thus Earth is currently in the middle of the covert “Final Conflict Drama” and rapidly approaching the Illuminati 2012 Alpha-Omega Alignment and their intended “Last Extinction” agenda. (Information on the “Bridge Zone Project” and Amenti Star-Gates is found in *Voyagers Volume-2, 2nd Edition* and within various *MCEO Freedom Teachings®* workshop programs.)

The date of 2012 AD was chosen by the Illuminati-Elder races as the point of fulfillment for their Master Plan Prime Objective because this is the date-period in which the *Fall-Gate system of Parallel Earth and Parallel Milky Way open into the Metatronic wormholes in our Galactic Core*. It is thus the point in time at which the Alpha-Omega Alignment between Earth’s accelerated Templar and the fallen Parallel Galactic Templar system can engage inorganic Metatronic Blending through the Metatronic wormhole system in the black hole core of our Milky Way Galaxy. Simply put, the Metatronic Encryption Lattice of Earth’s Halls of Amenti Star-Gates aligns with that of the fallen Parallel Earth and Milky Way, through our Galactic Core, to engage the “Alpha-Omega Fall Path Alignment.”

- ***What is the core purpose behind the Illuminati Master Plan Prime Objective of forcing Earth into “Alpha-Omega Fall Path Alignment” in 2012 — and how can they achieve this Prime Objective?***

During the “Illuminati Templar victory” of the 10,948 BC Atlantean period, the Illuminati force succeeded in establishing a long-range electromagnetic wormhole-link between the Solar Star-Gates at the core of our Sun, and those at the core of our “Parallel Sun” within the Parallel Milky Way Galaxy. The Illuminati-Elder races refer to the Fall-aligned black hole system of the *Parallel Milky Way Galaxy* as the “**Alpha Wormhole System**,” as it is the “*beginning point*” from which their *progressive invasion* into our Milky Way Galaxy was launched long ago. The Illuminati-Elders refer to *our Milky Way Galaxy* as the

"**Omega Wormhole System**," as it is the "*intended end point*" at which their progressive invasion will be complete, with the fulfillment of the *Illuminati Master Plan Prime Objective*; hence the term "**Alpha-Omega Fall Path Alignment**."

When the Illuminati-Elder races achieved their 10,948 BC Templar victory through large-scale Metatronic "Bloom of Doom" Death Science applications, and successfully created the inorganic *long-range electromagnetic wormhole-link* between our Sun's core Solar Star-Gates and those of the *Parallel Sun*, this "wormhole link" enabled the Illuminati-Elders to create a massive **solar space-time anomaly** called the "**Solar Time-Torus Tunnel**." The "*Solar Time-Torus Tunnel*" formed an inorganic "*vesica piscis*" blend, and resultant anomalous "**Tube Torus-shaped**" Metatronic *space-time* **adhesion field**, between our Milky Way Galaxy and the Parallel Milky Way Galaxy, through the core Star-Gates of their respective suns. With creation of the Solar Time-Torus Tunnel, our Solar System became an inorganic "**binary star system**," with the orbit of our Sun directly, unnaturally tied to the orbit of its invisible Parallel Sun.

At the 10,948 BC point in time where the *Solar Time-Torus Tunnel* was created, the **solar orbit cycles** brought the **Solar Star-Gates** of both suns into **direct alignment** with the **core Star-Gates** of their respective **Galactic Cores**. Through the inorganic link of the *Solar Time-Torus Tunnel*, the **core Star-Gates of our Milky Way Galaxy** were **inorganically "wormhole-linked"** to the **core Star-Gates of the Fall-aligned Parallel Milky Way Galaxy**; this Galactic Core wormhole link created a second, massive Tube Torus-shaped *intergalactic space-time adhesion field*, surrounding the smaller *Solar Time-Torus Tunnel*. The intergalactic space-time adhesion field created an inorganic **intergalactic space-time displacement field** called the "**Great Toral Rift Time Rip**" — also known as the "**Great Rift of Space-Time**" — between our Milky Way and the Parallel Milky Way galaxies. (The **ancient Maya** referred to the Toral Rift as the "**Black Road**.") Illuminati-Elder forces from the Fall-aligned Parallel "**Alpha**" **Milky Way Galaxy** had been attempting for eons, long before Earth became ensnared in the drama, to create the *intergalactic "Toral Rift Time Rip" anomaly*; this anomaly represented the "**final missing piece**" of the "**intergalactic Metatronic Alpha-Omega wormhole puzzle**" they had been painstakingly assembling over many millions of years to fulfill the Prime Objective of their *Omega System Invasion Master Plan*. Though the Alpha Illuminati-Elders had come close to creating the "intergalactic Alpha-Omega Toral Rift anomaly" during various periods of intergalactic history, they did not fully succeed in this endeavor until their *Templar victory* of the **10,948 BC Earth Atlantis**.

The Prime Objective of the Omega System Invasion Master Plan, for which the Alpha Illuminati-Elder races created the *intergalactic Toral Rift space-time rip* and corresponding *Alpha-Omega Wormhole Networks*, was quite simple and single-minded. The Parallel Milky Way Alpha Galaxy long ago entered final **Fall Alignment** to become a self-contained, finite-quantum "**Quarantined Black Hole Fall System**" that was destined, by the eternal *Cosmic Laws of Cause, Effect and Consequence*, to engage the "**Path of Space-dust Return**" upon expiration of its finite quanta, and resultant full-system particle/anti-particle annihilation. The "fallen" Alpha Illuminati-Elder races devised their *Omega Invasion Master Plan* agenda with the **Prime Objective** of "*ensnaring further quanta of living energy with which to feed their dying system*," in order to "*indefinitely postpone the inevitable Space-dust Return*" of their galaxy.

The Alpha Illuminati-Elders employed large-scale use of the *Metatronic "Bloom of Doom" Death Sciences* to create the inorganic intergalactic Alpha-Omega Wormhole Networks, and to create the intergalactic "Great Toral Rift" of 10,948 BC. The specific **purpose** of the Toral Rift Time Rip *intergalactic space-time displacement field* was, and is, to **draw the living energy quanta of the Milky Way Galaxy into their Fall-aligned Parallel Milky Way Galaxy Black Hole**, in order to "feed the quantum spin" of their falling galaxy to **postpone the organic consequence of its implosion**. If the Alpha Illuminati-Elders could succeed in this Prime Objective, they believed they would then be able to "enlarge the plan" by "devouring other neighboring galaxies," following the expansion cycle ratios of the **Fibonacci spiral**, to orchestrate an **artificial facsimile *Second-Creation*** that could perpetually sustain itself through "Forced **Metatronic Feeding**" from the living "**First-Creation**" systems of the eternal-life Cosmos.

When the Alpha Illuminati-Elders succeeded in creating the "*Great Toral Rift*" intergalactic space-time displacement field in 10,948 BC Atlantis—through first creating the "**Solar Time-Torus Tunnel**" wormhole-link between our Solar Core Star-Gates and those of the Parallel Sun—a second time-acceleration of Earth's "polar wobble" was simultaneously initiated. The second "Earth-pole wobble acceleration" hastened the SAC of a portion of Earth's Halls of Amenti Star-Gates, bringing this cycle into **direct synchronization** with the SAC opening period of the **Parallel Earth Amenti Star-Gates**. Because of this 10,948 BC Earth-time-acceleration and subsequent inorganic **Earth/ Parallel Earth Amenti Star-Gate synchronization**, Earth's Amenti Star-Gates would **open prematurely**, during the **2012 AD** opening of the Parallel Earth Amenti Star-Gates. When the intergalactic planetary Amenti Star-Gate sets *begin* synchronized opening in **October 2012**, Earth and Parallel Earth will engage **Metatronic "Alpha-Omega Fall Alignment."** (Information on the "1st and 2nd Earth-pole wobble accelerations" and synchronization of the SACs of the Amenti Star-Gates of Earth and Parallel Earth is found in *Introductory-Topics Summary-1.*)

As the two artificially synchronized SACs initiate their Amenti Star-Gate opening cycles with **opening of the Solar and Parallel Solar Core Star-Gates**, the central inorganic **10,948 BC Solar Time-Torus Tunnel wormhole-link** between our Sun and the Parallel Sun will also open. **If the Illuminati Master Plan Prime Objective unfolds in 2012 as the Illuminati-Elders intend**, opening of the Solar Time-Torus Tunnel wormhole will then **open the inorganic intergalactic Alpha-Omega Wormholes** at the **Galactic Cores** of our Milky Way Galaxy and the Parallel Milky Way Galaxy, resultantly **opening the 10,948 BC intergalactic Toral Rift Time Rip Metatronic space-time displacement field** of the "*Atlantean past*," into the "*future period*" of the **present 2012 AD**. Once the *Atlantean Toral Rift* opens into the fabric of our contemporary 2012-space-time, an **anomalous space-time blend of "past and future-present converging"** will unfold. As the two planetary Amenti Star-Gate sets open into their respective Solar Star-Gate Alignments, Earth and Parallel Earth will be brought into the *Alpha-Omega Fall Alignment* of the 10,948 BC *Toral Rift Time Rip*.

Once the Amenti Star-Gates of Earth and Parallel Earth engage with the 10,948 BC Atlantean Toral Rift Time Rip, *Earth and Parallel Earth*, and *Sun and Parallel Sun*, will then initiate a **Cataclysmic Pole Shift** of the **geomagnetic fields** and **Geographical "Crust Roll" Rotation** at the *Alpha-Omega Fall Alignment peak* of **December 21, 2012**, to **resume the planetary and solar polar-alignments** that were/are present in the **10,948 BC** period. During the 10,948 BC period, the **Solar Star-Gates** of both our Sun and Parallel

Sun were in **direct alignment** with the **Galactic Core Star-Gates** of their respective **Galactic Cores**, which allowed for opening of the intergalactic wormholes at the core of both galaxies, through which the Toral Rift Time Rip space-time displacement field was created. When contemporary *Earth and Parallel Earth, Sun and Parallel Sun* resume the Galactic Core–aligned planetary and solar polar-alignments of the 10,948 BC period, the energy quanta of our Solar System and those of the Parallel Solar System will be progressively **compressed** and **drawn “backward in time,”** the quanta of the two solar systems first **compacting** into a **“vesica piscis” bond** at the center of the **Toral Rift space-time displacement field**.

The process by which our Solar System and its Parallel Solar System are “drawn back in time” into the Toral Rift Time Rip involves Metatronic Death Science **“Death Star”** distorted ***Merkaba Vortex Mechanics***. The energy quanta of our Solar System, and those of the Parallel Solar System, first **compact into a “vesica piscis” bond** at the core of the Toral Rift Time Rip, as the **Merkaba Field Vortex–set** of each respective sun is progressively **attracted into opposite-polarity electromagnetic bond** with the Merkaba Field of the other sun; as the two suns are drawn into the Toral Rift “Harness Field,” their orbits—and their corresponding solar systems — progressively intersect to form a “vesica piscis” orbital bond. As the two solar systems progressively “collide” to engage the “vesica piscis” orbit, they are both **drawn “backward in time”** toward the 10,948 BC **center creation point** of the Toral Rift space-time displacement field.

As the two solar systems draw backward in time, the **spin-speeds** of their respective **Merkaba Fields** progressively **accelerate**. When the spin of our mutated “same-spin–vortex-set” **Solar Merkaba Field** reaches **“34 spin-speed,”** and the likewise-mutated “same-spin vortex-set” of the **Parallel Solar Merkaba Field** simultaneously reaches **“21 counter-spin-speed,”** the two Solar Merkaba Fields and their contents are **drawn together** and begin “backward-time progression” toward the **center-point** of the Toral Rift’s *Tube Torus–shaped* “Metatronic Harness Field.” As the two Solar Merkaba Fields merge, the faster 34-spin Solar Merkaba Field **reverses the spin of the slower 21-spin Parallel Solar Merkaba Field**, and the two Solar Merkaba Fields accelerate to **“55 spin-speed,”** blending to form a large, **singular, inorganic External Metatronic Merkaba Field same-spin vortex-set**, with an **internal, Metatronic Death Star Atomic-Encasement Harness** surrounding the quanta of the two solar systems held within it.

Following the **Fibonacci expansion sequence**, the Blended Solar Merkaba Field accelerates from its **“55 starting spin-speed”** to a **“144 spin-speed,”** at which point it generates an **external Thermal-Encasement Field** and **“jumps the organic boundaries space-time-light,”** entering a **superluminal state** to **pass into the center-point** of the 10,948 BC Toral Rift Time Rip — where it becomes an **externally fueled, finite-life “Death Star External Merkaba Vehicle Black Hole Feeder Field.”** Once formed, the Death Star External Merkaba Vehicle begins **“quantum feeding”** from the remaining local living-energy environments of our Milky Way and the Parallel Milky Way galaxies, initiating **quantum growth and spin-speed acceleration**, following the *Fibonacci expansion sequence*, through **perpetual “quantum feeding”** from the life-fields of both galaxies.

As the Blended Merkaba Field accelerates to **“144 spin-speed”** to enter the *superluminal state* of the *Death Star External Merkaba Vehicle*, it progressively acts as a **“particle accelerator”** to the quanta of the two solar systems held within its **internal Atomic-Encasement Harness**. Once the point of superluminality is

reached, the **extreme particle acceleration** of the encased **matter-forms** of the two suns and their solar systems causes their **Encryption Lattices** and **atomic structures** to **progressively implode, explode and shatter** within the Metatronic Atomic-Encasement Harness at the center of the Death Star Merkaba Vehicle. The two solar systems are thus **reduced to the raw energy quanta** of **"hyper-accelerated space-dust"** within the internal Atomic-Encasement Harness. The quanta of the two solar systems **blend and merge** to form a **"singular quantum field of inorganic, superluminal, artificial static-radiation Dead Light particulates,"** quarantined within the Atomic-Encasement Harness. From the superluminal state, the Death Star Merkaba Vehicle—and the superluminal quantum-radiation particulate field (of what had been the two solar systems) that is held within the Death Star's internal Atomic-Encasement Harness — then **"quantum-transfers"** through the **Metatronic Alpha-Omega Wormhole passages**, out of the 10,948 BC Toral Rift Time Rip space-time displacement field and into the **Alpha System Parallel Milky Way Galaxy** as **"quantum influx."**

Once **quantum transfer** has occurred, and the Metatronically-harnessed quanta of what were once the two solar systems have been transferred within the *Death Star Merkaba Vehicle* to the fallen *Parallel Milky Way Galaxy Alpha Black Hole System*, the Death Star begins **spin-speed deceleration**, leaving the superluminal state, and the **"singular quantum field of inorganic, superluminal, artificial static-radiation Dead Light particulates"** within its internal Atomic-Encasement Harness begins corresponding **particle deceleration**. As the static-radiation particulates of what had been the two solar systems engage particle deceleration and leave the superluminal state, the **matter structure re-forms** within the Death Star internal Atomic-Encasement Harness, through the process of **particle re-accretion**, following an **inorganic blended organization** of what were the original core Encryption Lattices of the two solar systems. The "Dead Light" radiation particulates within the Death Star Encasement Harness each still carry a minute **"nano-bite"** of the *original Encryption Lattice radiation-signature* from which they fragmented. Through this *nano-bite* radiation-signature, the particulates from both our particle Solar System and the anti-particle Parallel Solar System **re-accrete in a distorted organization**, to re-form a **new mutated, blended Encryption Lattice** upon which the **particulates re-materialize** into a **"new" matter-form** within the Death Star Atomic-Encasement Harness.

The **"new artificially rendered matter-form"** re-materializes within the Parallel Milky Way Galaxy Alpha Black Hole System as a **"singular, distorted, finite-life mutated facsimile"** of the original two solar systems. The particulate field re-materializes within the Death Star Atomic-Encasement Harness in the Parallel Alpha Black Hole System as a **"new finite-life Artificial-Light Facsimile Death Star Solar System"**—a **permanently mutated, "twisted, fallen version"** of our Solar System and the Parallel Solar System combined. The new "Facsimile Solar System" then falls under the **Hierarchical Quantum Dominance** of the Metatronic Encryption Lattice of the finite-life, quarantined "Parallel Alpha Fall System." Once the **Artificial Death Star Solar System** is re-formed inside of the Death Star Merkaba Vehicle, it will continue **Metatronic Fibonacci expansion** through **progressive consumption** of the **two Galactic Fields** from which it was formed, as its "Feeder" Death Star Merkaba Vehicle continues to siphon energy quanta from the remaining living-energy aspects of the two Galactic Fields. As the Death Star Solar System "feeds," it will begin to pull the Milky Way and Parallel Milky Way galaxies into **"Death Star**

Transformation” and corresponding **“Fall Path of Space-dust Return Alignment,”** to progressively “build” a finite-life **Artificial Death Star Black Hole Galaxy** within the Parallel Milky Way Galaxy Alpha Fall System.

Creation of the *Artificial Death Star Black Hole Feeder Galaxy* is the core purpose **Prime Objective** of the **Alpha-Omega Illuminati Master Plan**. The **Alpha Illuminati-Elders** of the fallen **Parallel Milky Way Galaxy Alpha Black Hole System** joined with other Illuminati-Elder races of several other Quarantined Black Hole Fall Systems, and formed the **“Alpha-Omega False God-Head” Illuminati-Elder “Fallen Angel Hierarchy.”** Through creation of the **Artificial Death Star Black Hole Galaxy** — an abomination of Metatronic “Bloom of Doom” Death Science creation — the **“Alpha-Omega False God-Head” falling Illuminati-Elder collectives** hope to **“Re-create Creation in their Own Image.”** They hope to use the Death Star Galaxy to “create, then assimilate, others of its kind,” to form a massive **Death Star Universe** that sustains its existence and **averts the organic consequence of eternal Cosmic Physics Laws,** through **perpetual rape of and feeding on** the Living Cosmos. The **“Alpha-Omega False God-Head”** will discover the **great fallacy** of this “recent rendition” of their Master Plan Prime Objective in **2976 AD.**

The **Metatronic “Bloom of Doom” Death Science dynamics** of the **“Death Star Merkaba Vehicle”** described above in relation to the **macrocosmic Illuminati Master Plan Prime Objective,** also apply on a **microcosmic** level. An individual life-form that engages *Death Star Merkaba Vehicle activation,* either **unconsciously** through environmental **Planetary Encryption Lattice Quantum Dominance,** or **consciously** through **intentional practice** of Death Star Merkaba Vehicle activation technologies, is aligning with the **“Death Star Fall Path Destiny.”** Individuals retain the **“power of Free Will Choice”** in regard to evolutionary path **“biological Ascension Alignment”** **up until the point of the first full “55 spin-speed” Death Star activation.** At **“55 spin-speed”** the Death Star Merkaba Vehicle forms its **internal Metatronic Atomic-Encasement Field,** begins generating its **external Thermal-Encasement Field,** and initiates **Fibonacci “Death Spiral feeding”** for expansion and acceleration.

From the **“Metatronic-55” activation point** forward, the **Atomic Encryption Lattice and Bio-magnetic Field** of the atomic structure become permanently mutated into **Metatronic Code configuration.** Through the **“automatic Death Spiral feeding”** that initiates at the **“Metatronic-55-point,”** the **Death Star Merkaba Vehicle** will eventually accelerate to **“superluminal” spin-speed,** resulting in **permanent “Death Star Transformation”** of the **biological-atomic structure** and corresponding **permanent “Fall Path Space-dust Return Evolutionary Alignment”** for the entrapped spirit-consciousness. Once an individual life-form engages the **“Metatronic-55-point”** of Death Star Merkaba Vehicle activation, any potentials of organic, **biological-atomic Genuine Eternal Life Ascension** are **permanently lost for the current lifetime,** but the **spirit-consciousness can reclaim Eternal Life Ascension** abilities through engaging very specific energetic **countermeasures.** If one desires to prevent or cease *Death Star Merkaba Vehicle activation,* counterstrategies of **Bio-regenesis healing**—by which progression of Death Star *spin-speed acceleration* can be *prevented, halted or partially reversed*—are usable while the physical-atomic **body is still alive.** When the physical-atomic body has reached its “natural” death point, if progression of Death Star activation has been *sufficiently halted and reversed* while the body was living, the embodied **spirit-consciousness** can then be **freed** into the **Path of Re-evolutionary Eternal Life Ascension,** through intentional

application of the *specific organic bio-energetic processes* inherent to Eternal Life **Bhardoah Ascension Transition**.

If a being has engaged Death Star Merkaba Vehicle activation (either **knowingly**, through practice of Death Science applications, or **unknowingly**, through *Quantum Dominance override automatically generated by Metatronic Coding* running within the environmental *Planetary Encryption Lattice* and *geomagnetic field*), and if **no energetic counterstrategies** are taken, then activation of the Death Star Merkaba Vehicle and its resultant evolutionary consequence **will occur automatically, overriding any conscious "Free Will Choice"** to the contrary. "**Merkaba Field Vortex-sets**" are an organic part of the "invisible multidimensional anatomy" of all atomic-matter structures and biological life-forms, so "**everyone and everything**," including planets and stars, **have sets of Merkaba Fields**—whether or not one knows or believes they are there. The organic structure and function of the personal smaller-quantum Merkaba Fields is directly and continually affected by the condition of the larger-quantum environmental **Planetary Merkaba Fields, Encryption Lattice** and **geomagnetic field**.

The Merkaba Fields, Encryption Lattice and Bio-magnetic Fields of **individual life-forms** on a planet will adopt a "**microcosmic copy**" of the configurations held within the planetary body. If the dominant quantum percentage of the **Planetary Body** Merkaba Fields, Encryption Lattice and geomagnetic field is holding a **Metatronic Death Star configuration**, this configuration will **automatically govern and override** the configuration and contours of the personal anatomy, unless **direct energetic counterstrategies** are actively employed. The Illuminati-Elder races were well aware of this **fact of cosmic multidimensional physics** as they progressively orchestrated their Master Plan **Prime Objective** toward its intended 2012 fulfillment. When the *Alpha-Omega/Toral Rift 10,948 BC–Time Rip Fall Alignment peak* of **December 21, 2012** occurs, a dominant **66%-quantum** of Earth's Planetary Encryption Lattice, Merkaba Fields and geomagnetic field will initiate engagement of the "**Metatronic-55**" **activation point**; this will create the **dominant-quantum configuration** for the environmental planetary atomic structure and planetary life-field.

Within 24 hours of when this **December 21, 2012 planetary "Metatronic-55-point"** occurs, the Encryption Lattices, Merkaba Fields and atomic Bio-magnetic Fields of Earth's atomic-matter structure and biological life-field will **automatically** adopt a "microcosmic copy" of this planetary Metatronic-55 configuration. It is at this point that individuals will need **direct energetic counterstrategies**, first to halt, and later to partially reverse, the *automatic activation* of the personal Death Star Merkaba Vehicle. For this reason, and the *reasons to follow*, the MCEO–Krystal River Guardians have been progressively intervening directly, and will continue to do so with the **2012 Silver Seed Awakening**.

At the "Metatronic-55-point" of the 2012 *peak Toral Rift Alignment*, if the Illuminati-Elders "have their way," a **pre-cataclysmic "40-day Window of Chaos"**—starting from the **December 21, 2012 peak Toral Rift Alignment** and running to about the **end of February 2013**—will unfold as the Encryption Lattice and Merkaba Fields of the Sun, and of Earth and its populations, engage **Fibonacci expansion spin-speed acceleration up to and beyond full "Metatronic-55" activation**; in addition, **Earth and our Solar System** will enter a "**backward-time progression**" toward the **center-point** of the 10,948 BC Toral Rift Time Rip. During the "Window of Chaos"—if the "2012 Drama" progresses that far—the **geomagnetic fields** of both

Earth and the Sun will begin the process of *“pre-shift” erratic fluctuation and anomalous behavior*, with corresponding increase in solar coronal mass ejections (CMEs) and rapid climatic and “Earth Change” consequence, and biological populations will experience progressively more **mental, emotional and biochemical instability** as the **Epigenetic Overlay “follows the flux”** of the planetary geomagnetic field.

If this *“End Times Scenario”* unfolds, then at the end of the **“40-day Window of Chaos”** the Encryption Lattice and Merkaba Fields of the Sun, the rest of our Solar System, and of Earth and its populations, will reach critical acceleration to **“Metatronic Death Star Merkaba 144 spin-speed,”** at which point *Earth and Parallel Earth*, and the *Sun and Parallel Sun*, will first have **temporary collapse** of their geomagnetic fields, and will then initiate, over about **3 to 6 days**, **Rapid Cataclysmic Pole Shift** of the geomagnetic fields and Geographical **“Crust Roll” Rotation** to **resume** the planetary and solar polar-alignments of the **10,948 BC** period. This 3 to 6 day period will represent the **6th and Last Extinction** of the entire life-field of Earth; and from this **biological extinction**, the Illuminati’s **“Quantum Harvest”** of body, soul and spirit will unfold. As full Toral Rift Galactic Alignment occurs through **“Pole Shift,”** a glowing-red **Thermal-Encasement Field** will form around the personal-atomic, planetary and Solar System Death Star Merkaba Vehicles, and the Death Stars, with their contents, will enter a **superluminal state** and **“time-jump backward”** across the organic boundaries of space-time-light, **passing into center-point alignment** with the 10,948 BC Toral Rift Time Rip.

From the point of time-jump and thereafter, Death Star acceleration will rapidly increase until the Encryption Lattice and matter structure of everything contained within the Death Stars **shatters and vaporizes** through excessive particle acceleration, to become a “singular quantum field of Metatronic particulate space-dust,” as the Solar System Death Star passes through the **Alpha-Omega Wormholes** into the **fallen Parallel Milky Way Galaxy Alpha System** for **“final Death Star Transformation.”** Once arriving in the Alpha System, atomic transformation will complete as the Death Stars and “particulate soup” decelerate spin-speed and the particulates, along with the fragments of consciousness they carry, “re-form” into a mutated, inorganic, **non-living “Facsimile Distortion”** of what they once were. Beings who engage the “Death Star Transformation,” following death of their organic biology, will suffer a permanently mutated Encryption Lattice structure, **and complete “memory wipe,”** returning to “Living-Dead” conscious awareness in a biochemical and mental state that resembles the characteristic **symptoms of Alzheimer’s disease**. The **“Transformed Living-Dead” life-field** will find that its original gifts of Free Will Choice and Eternal Life Ascension have been **permanently subjugated** to the “self-proclaimed authority” of the **Illuminati-Elder Alpha-Omega False God-Head Hierarchy**, and the only evolutionary options remaining are those within the De-evolutionary Fall Path of Space-dust Return.

The Illuminati Fall-groups that promote the *“Death Sciences and Bloom of Doom” paradigms* call the process just described above **“Ascension,”** and have many **“Ascended Masters”** who have engaged the **Death Star Transformation**. In the reality of the eternal Living Cosmos, the process described above is the **antithesis** of Genuine Eternal Life Ascension; it is simply the **most rapid method** of entering the **De-evolutionary Path of Fall**. There are **two primary options of experience** within the **Fall Path** of Death Star Transformation. One option is “making peace with one’s plight” and **regaining freedom** through the organic process of **Space-dust Return** to the eternal-life Source Field, when your existing store of quanta

is expended; this option can be accomplished only through the direct **Guardian-race intervention efforts and education programs** that are periodically extended into Quarantined Black Hole Fall Systems. The other option is remaining under the directive of the **governing Illuminati Hierarchy**, who have progressively lost their ability to FEEL, and who **sustain their illusion of "finite immortality and Elitist Subjugation"** by raping, stealing and "vampiring" energy from the "Innocents" of Living Systems, and from each other, with no remorse, regret or mercy. In this option, one simply continues to de-evolve, becoming "more and more like them." The irony of this latter option is that, due to the **Eternal Laws of Action and Consequence-to-Action** that govern the **ENTIRE Cosmos**, ALL Fall Systems and those within them eventually meet their end through **Space-dust Return**, regardless of what is done to prevent this consequence. It is a self-defeating path of progressively diminishing return to space-dust fragmentation.

- ***Will this Illuminati-Elder 2012 Master Plan continue to unfold?***

Yes, BUT not exactly as the Illuminati intend or envision, due to the continuing efforts of direct intervention by the GA-MCEO Guardians and Krystal River Councils of Aquareion–Adashi Adepts.

- ***Will Earth experience the "6th Mass Extinction" through the geomagnetic and geographical Pole Shift that the Illuminati-Elders intend to initiate in 2012 as part of their Master Plan Prime Objective?***

NO, not in the 2012–2013 period — but due to their Dis-ease of Supreme Arrogance, the Illuminati-Elder Force still thinks so. Through continuing Guardian intervention, the geomagnetic Rapid Pole Shift and geographical Pole Shift "Crust Roll" that the Illuminati intend to initiate between October 2012 and February 2013, will not occur as the Illuminati-Elders plan. The Illuminati agenda requires Earth's planetary Merkaba Fields to reach a specific acceleration of Metatronic spin-speed, in order to **fully engage the *Alpha-Omega/Toral Rift 10,948 BC-Time Rip Alignment on the December 21, 2012 "alignment peak."*** Through Guardian counterstrategies that are already in place, Earth's Merkaba Fields will not achieve sufficient Metatronic spin-speed to progress into full "Metatronic-55" activation for full immersion into the Toral Rift Time Rip.

Without full engagement of the Alpha-Omega/Toral Rift Alignment, Earth's geomagnetic field, and thus geographical crust, will **not engage the "Rapid Pole Shift and Crust Roll"** that the Illuminati are expecting. *Immersion into the Toral Rift Time Rip*, the resultant "Rapid Pole Shift" of Earth and our Sun, and *Death Star Transformation cannot be prevented*, but these events will be **postponed** till the **2230–2976 AD** period by ***"stalling the Death Star activation process"*** in 2012. However, the **"Metatronic-55-point"** of the December 21, 2012 Toral Rift Alignment peak — and the **opening** of the *Solar Time-Torus Tunnel, Toral Rift Time Rip* and fallen Halls of Amenti Star-Gate sets — **cannot be prevented or postponed during the 2012 period**; these aspects of the Illuminati Master Plan will unfold. All efforts will be made by the MCEO–Krystal River Guardians to buffer and postpone, for as long as possible, the consequences of these events which will occur in 2012.

- *Since Earth will avoid the Illuminati-Elder-planned 2012 Mass Extinction and Rapid Pole Shift, does this mean that potentials for Earth Changes, climate anomalies, and political and economic problems will also be avoided?*

Sadly, no; though the MCEO Guardian efforts can and will prevent the 2012 Rapid Cataclysmic Pole Shift —and thus the corresponding 6th Mass Extinction— Earth's Templar will continue to remain under a high degree of stress as the Planetary Metatronic Encryption Lattice continues its partial activation through the geomagnetic field NET. The MCEO Guardians' efforts will slow the progression of the consequences inherent to the Metatronic activations, but there will still be progressive environmental issues of **growing tectonic instability, global warming** due to Metatronic Templar frequency accelerations, continuing **ozone depletion** and increase in **solar CME** potentials. The contemporary problems of **global pollution, species extinction and loss of sustainable resources** will also continue and expand.

The Illuminati-Human populations will begin a "covert stealth division" between those who do and those who do not accept "Amnesty-Bio-regenesis Agreements" with the MCEO-Krystal River Guardian races. Illuminati-Humans who *do not accept* Guardian Agreements will continue the covert advancement of their "**One World Order and Armageddon**" agendas. This on-planet Illuminati Force will continue to control **global economic structures** and orchestrate "financial crashes for mass control" at their whims; they will continue their efforts of "**select population reduction**" through the ongoing creation of "targeted" wars, "natural disasters & famines," and "designer diseases," via ongoing applications of the Atlantean Death Sciences; and they will continue efforts to assist their Illuminati-Elder races in staging direct, overt invasion from Parallel Earth, once "population reduction" efforts have reduced the threat of large-scale human resistance.

The Illuminati-Human Force that *does accept* MCEO-Krystal River Amnesty-Bio-regenesis Agreements will quietly and discretely operate as a "**counterforce of quiet rebellion**" among the Illuminati Loyalists, slowing the progress of the Illuminati Master Plan agenda at every turn. Part of the "Illuminati Rebellion Force" will adopt a strong "**sustainability platform**" focused on better Earth-resource management until 2230 AD, while traditional Illuminati Loyalists within this platform will push for greater **space programs** to expand immediate potentials of resource exploitation and in attempt to *create a feasible future Fall Gate evacuation plan to avoid Earth's coming confrontation with issues of solar CMEs*. The speed at which these "Illuminati Earth Dramas" unfold will be determined by how well the "Illuminati Rebellion Force" causes "resistance drag" on the forward movement of the Illuminati Loyalist agenda, and how well the human "Guardian Force" works with the MCEO-Krystal River Guardians to assist in keeping Earth's tectonic plates as stable as possible.

- *At this point in the hidden "Final Conflict Drama" can the Guardians salvage Earth from "final Encryption Lattice alignment" with the Toral Rift Time Rip Path of Fall and resultant 2230–2976 AD Pole Shift?*

Again, sadly, NO—due to degenerative changes that occurred, as a result of Illuminati actions, within the core Star-Gates of our **Sun** in **2007**; since this time "*Earth Salvage*" has no longer been a viable option.

BUT the Guardians can and WILL *postpone* this now-inevitable Illuminati Master Plan scenario, and the planetary *Pole Shift* and *solar CME escalations* this scenario implies, for a period of **approximately 200 years—to about 2230 AD**.

During this period of 200 years, humans who are *still genetically able* after the 2012 “Metatronic-55-point” and corresponding “2012 BPR Showdown,” and who *desire* to do so, can engage a program of ***Expedited Bio-regenesis Healing*** called the “***Silver Seed Awakening***,” through which accelerated reverse-mutation of the DNA Template can occur, to allow **reclamation** of the organic ability of **Ascension through atomic Transfiguration**. On a more positive note, though the current “SAC Drama” certainly did not unfold as well as it could have, where the drama *has led* means that Earth’s Ascension Passage Star-Gates, the Aurora Silver Seed Gates and corresponding Gate Networks, will remain open for the next *200 years*. This “**200-year window**” will enable humans, both of the “**Angelic**” and “**Illuminati-Human**” lines on “**Amnesty Contracts**,” who engage the “**Silver Seed Awakening Healing**” *at its initiation in 2012*, to heal their **atomic-biology and Encryption Lattice** sufficiently to engage biological “**Star-Gate Slide Ascension**” into the nearby “**Free Worlds**” and the “**Path of Re-evolutionary Ascension**” within which these worlds reside.

The period from **2007 AD**—when the “point of no return” was reached regarding the Solar Star-Gates—to the year **2230 AD** is called the “**Cycle of the Load-Out**.” It is the **Final Evacuation Cycle** of not only Earth, but of the falling *Milky Way Galaxy*. After the **2230 AD** period, all **Ascension Star-Gate Passages** within the Milky Way will permanently close, and the galaxy will enter **Universal Quarantine** as a “**Fall System**” on the “**De-evolutionary Path of Space-dust Return**.” And it is for this reason, and the far-ranging consequences it implies, that the **GA-MCEO Guardians and Krystal River of Aquareion-Adashi Adepts** have now, with this writing and related public interface, engaged this **First Installment** of their “**Official Disclosure**” Protocol.

- ***Since Earth will engage Pole Shift and Toral Rift Time Rip Fall Alignment around 2230 AD, and since Earth Change potentials will increase progressively from 2012, and Illuminati Loyalists will continue with their “One World Order” Parallel Invasion Agenda — while continuing environmental exploitation and seeking potential future Fall Gate evacuation plans through earthly space programs — what will Earth’s Guardian Angelic Human and Amnesty Illuminati-Human Forces do during this 200-year “Load-Out Evacuation” period?***

Those working for the “**Ascension Path**” **Alignment** will focus upon various aspects of keeping Earth Ascension potentials viable during the Load-Out Last Ascension Cycle 200-year window of open Ascension Star-Gates, working directly with the MCEO–Krystal River Guardians through “**Reciprocal Exchange Contact**” contracts, while progressively developing skills in personal “**Orb-ing and Slide Ascension**” **Translocation** for Guardian-guided **visitation** to the **Higher Earth territories**.

While remaining in their earthly incarnation, some individuals will feel inspired to become **Earth Stewards** of the “Aurora Silver Seed” Star-Gates and corresponding Interface Gate Networks. Many people who resonate with the work of the “**MCEO Grid-Keepers**” will feel inspired to assist in local or global efforts of

developing sociopolitical **peace strategies** and **"Fair Trade"** economic models, and will be inclined to support planetary **"environmental sustainability," "alternative clean energy"** and **"humanitarian morality"** efforts, while assisting the Guardians directly in maintaining planetary **tectonic stability** during the Load-Out Cycle. Other individuals, while sharing many of the inspirations of the "Grid-Keepers," will feel drawn to aspects of **Krystal River Silver Seed Healing**, and will focus more fully upon applications of personal Bio-regeneration and reverse-mutation of the Encryption Lattice and DNA Template, through which the ability of organic *physical "Transfigurative Ascension"* Star-Gate Passage can biologically reawaken; individuals who have this **"MCEO Healer"** orientation will be most involved with providing bio-spiritual healing facilitation, education and guidance to self and others in preparation for **"physical Slide-Orb Ascension"** to Higher Earth. Still others will feel a **"calling"** to serve as MCEO–Krystal River **"Wayshower Ministers,"** who will share many of the inspirations and objectives of both the "MCEO Grid-Keeper" and "MCEO Healer" groups, but who will feel a more personal affiliation with **providing spiritual assistance and guidance** to those on the *Path of Bhardoah Ascension*.

Illuminati-Humans on Guardian Ascension Path **Amnesty Contracts** will work quietly to strengthen global **environmental sustainability, economic stability** and political **peace efforts**, and to create **"resistance drag"** on the Illuminati-Elder "One World Order Invasion Agenda," while engaging personal *Silver Seed Healing* to gain organic *biological "Slide-Orb" or conscious-spirit Bhardoah Ascension* abilities. All collectives who engage Free Will Choice for *Ascension Path Alignment* will be working toward the **final common goal** of direct organic **"Slide-Orb" or "Bhardoah" Ascension Passage** through the **Aurora Silver Seed Star-Gates**, into the **Re-evolutionary Krystal River Ascension Path**, which begins with passage into the **Higher Earth territories** that exist beyond the Illuminati-NET. All Ascension Path groups will first, through *"Reciprocal Exchange Contact"* contracts, work toward developing skills in "non-channeled" trans-dimensional **Keylontic Communication** with the MCEO–Krystal River Guardians, while simultaneously developing abilities in Bi-location and Translocation **"Slide-Orb-ing" visitation** to Higher Earth territories.

(Information on "Higher and Lower Earth" is found in *Introductory-Topics Summary-1* and will feature in future *MCEO Freedom Teachings®* workshop programs. New MCEO Keylontic Communication and Slide-Orb-ing skill development techniques will be featured in the book *2012 – Life After Earth: Orb Whisperers and the Silver Seed Awakening* [forthcoming], planned for release late summer 2010.)

- ***During the Load-Out Evacuation Cycle "200-year window" of open Ascension Star-Gates, will anyone who chooses to participate in Silver Seed Healing technologies be able to reclaim the ability of atomic Transfiguration for physical-biological Transmigration "Slide-Orb" Ascension to Higher Earth?***

This is a "time-sensitive" question. During the Illuminati **"Alpha-Omega/Toral Rift Time Rip Alignment"** peak of **December 21, 2012**, certain presently-dormant Metatronic **"Alpha-Omega" Codes** will activate within Earth's Encryption Lattice, **Halls of Amenti Star-Gates** and geomagnetic field, initiating the **third inorganic time-acceleration** of Earth's *"wobble," "precession of the equinox" cycle* and **two-thirds** of Earth's Encryption Lattice. Activation of the Metatronic Alpha-Omega Codes will cause the **Illuminati**

Broadcast-NET in Earth's geomagnetic field to *partially blend* with the corresponding Illuminati-NET of **Parallel Earth**, which will strengthen our Earth's Illuminati-NET into an environmental electromagnetic **Metatronic Time-Harness**, within Earth's geomagnetic field; this Metatronic Time-Harness is deceptively referred to, within some contemporary Death Science teachings, as the "**Synthetic Christ Consciousness Grid**" in Earth's atmosphere. The activation of the Illuminati-NET Metatronic Time-Harness in Earth's geomagnetic field will directly affect the **DNA and existing biorhythms** of all life-forms on Earth through the **Epigenetic Overlay**.

The **greater quantum** of the planetary Metatronic Time-Harness will override the **smaller quantum** of the existing Encryption Lattice, BPR and Epigenetic Overlay configurations of biological life-forms—and of the *matter-base* entrapped within the Metatronic Time-Harness—creating an automatic, environmentally induced **inorganic time-acceleration/vibration increase**, **Encryption Lattice BPR-deceleration/drop**, and corresponding biological-atomic Co-resonant Disharmonic Alignment with the *Alpha-Omega Fall Path*. The Illuminati's **2012 Alpha-Omega Time-Harness/ "False Christ Consciousness Grid"** activation will engage the biological-atomic structure to **biochemically ensnare** the embodied conscious awareness into the "**perceptual harness**" of *Illuminati Broadcast-NET transmissions*, and will cause the **DNA Template** and Encryption Lattice to engage the "**Fibonacci spiral expansion**" of the Metatronic Code. Once the Metatronic Code engages Fibonacci spiral expansion to the "**55-Blending Ratio**" within the Encryption Lattice, and creates corresponding Merkaba Field "55-speed acceleration," the **atomic structure and biological anatomy fall under the subjugation and dominion** of the planetary Metatronic Alpha-Omega Time-Harness.

At the point of activation of the "Metatronic 55-Blending Ratio" within the Encryption Lattice and DNA Template, any previously existing organic potential for *biological* passage through natural Ascension Star-Gates is *permanently lost* through critical-mass damage to the Encryption Lattice, DNA Template, chemical DNA and Epigenetic Overlay. With activation of the "Metatronic 55-Blending Ratio" the "**Common-man Blended DNA Mutation**" becomes **permanent**, and **human DNA** becomes **permanently transformed** from that of the original *eternal-life* Angelic Human species genome, into the *inorganic finite-life* genetic imprint of a **new Illuminati-Leviathan mutant-hybrid-human Fall-species**, predestined to temporary subjugated dominance, and intended eventual extermination, by the Illuminati-Elder races to which its mutated Encryption Lattice is connected.

If the consciousness is ensnared within a biology that engages activation of the "Metatronic 55-Blending Ratio," the **conscious-spirit** will become **entrapped** within the Alpha-Omega Fall Alignment of the "*False Christ Consciousness Grid*" within Earth's geomagnetic field—even **following death of the physical body**. No biological life-form on Earth would be spared this **2012–2013 environmentally induced biochemical-spiritual holocaust** and resultant De-evolutionary Fall Path Alignment—the intention of the Illuminati Master Plan—if it were not for the **intervention efforts** of the *MCEO–Krystal River Guardians*.

During the Illuminati "**Alpha-Omega/Toral Rift Alignment**" peak of the **December 21, 2012 solstice**, the MCEO–Krystal River Guardians will synchronize activation of their "*Silver Seed Host Grid*," called the "**Stardust Silver Seed Ascension Grid**" of eternal-life Krystal-Consciousness, with the Illuminati's

Metatronic Time-Harness/False Christ Consciousness Grid. Activation of the Genuine Ascension Path “Stardust Grid” will engage **one-third of Earth’s Encryption Lattice and BPR** with the **organic, slower-moving time cycles** of the **Higher Earth Aurora Silver Seed Ascension Star-Gates**; this engagement will remain **until 2230 AD**. There is *nothing the Illuminati Force can do to prevent or override the direct intervention of the Guardians’ Stardust Silver Seed Ascension Grid*; the Illuminati Force will discover the truth of this reality when they find that the *Cataclysmic Pole Shift of Earth*, which they are currently predicting for 2013–2015, does not occur as they plan. The Illuminati-Elder Force “*Alpha-Omega False God-Head*” will also discover around **2976 AD** that their **Master Plan Prime Objective** of creating the **Death Star Black Hole Universe** is **also doomed to fail**, because in **2976 AD the Parallel Milky Way Alpha Black Hole System explodes**—as an **energetic consequence** to their own actions—even before the Death Star *Solar System* is created. Eternal-life First-Creation “has a way of taking care of itself...eternally,” and this is why the Cosmos “*simply allows*”; this is a lesson that Illuminati Fall-groups everywhere would do well to learn. *That which is eternal, remains eternal, and that which is not simply eventually destroys itself.*

Individuals who **make choices** that allow their personal Encryption Lattices to enter **Co-resonant Harmonic Alignment** with the Guardians’ **Stardust Ascension Grid** between **December 21, 2012 and January 31, 2013**, will receive the gift of the “**Silver Seed Awakening**,” which will create **progressive biological immunity** to the Illuminati’s environmentally induced **automatic “Metatronic 55-Blending Ratio” permanent DNA mutation**. Those who successfully achieve the Stardust Ascension Grid Alignment *before or during* this **short “window of opportunity”** will retain existing DNA Ascension potentials, and will receive regeneration of any missing organic Encryption Lattice/ DNA Template Ascension Codes, while generating sufficient strength within the personal Encryption Lattice to withstand environmental Metatronic Code quantum-override from the planetary geomagnetic field Metatronic Time-Harness. Individuals successfully achieving the Stardust Alignment by January 31, 2013 will **retain the potential** to engage organic **atomic Transfiguration physical-biological Slide-Orb Ascension** through the Aurora Silver Seed Ascension Gates, to the Higher Earth territories and beyond.

Whether an individual can fulfill the *potential of physical-biological Ascension* — once this potential is secured through the 2012–2013 Stardust Alignment/Silver Seed Awakening—will be determined by several factors, which include the *existing stress-damage of the personal organic DNA*, the *remaining personal biological tolerance levels for atomic Transfiguration*, and the progressive application of *Silver Seed Healing Bio-regeneration activations*, as well as *sustained stability* of “Earth’s side” of the Aurora Silver Seed Ascension Gates. With the Stardust Alignment, the *potentials* of biological Ascension Passage are restored, but even if the restored potentials for personal *biological Ascension* are unable to reach fulfillment for reasons such as those mentioned above, the **conscious-spirit** will still achieve **spiritual Ascension** to Higher Earth and beyond, through organic **Bhardoah Ascension** at the point of biological death. Regarding Bhardoah Ascension Transition at death, the **living body** before death becomes a “**vessel of progressive freedom**” within which DNA Template and Encryption Lattice Bio-regeneration reverse-mutation progressively occurs through Silver Seed Healing applications; attempting to “accelerate” one’s spiritual

Ascension through acts of *suicide* can *directly interfere with the organic mechanics of spiritual Ascension*, and so the MCEO Freedom Teachings® **strongly advise against** such acts.

This short-term December 21, 2012 to January 31, 2013 "*window of opportunity*" for accelerated DNA Template Bio-regeneration reverse-mutation through the *Stardust Silver Seed Alignment* is **available to ALL contemporary Earth humans**, with the exception of those who have **already engaged** the "**Metatronic 55-Blending Ratio**" permanent DNA mutation. Currently, **very few** members of the contemporary **Illuminati-Human** race, and no members of the Angelic Human race, have engaged the "*Metatronic 55-Blending Ratio*" DNA and Encryption Lattice mutation. Only individuals who have experienced full **biological-atomic "Death Star Merkaba Vehicle" transit** through **Metatronic Wormholes**, via conscious intentional use of the "*Death Star Merkaba Vehicle*," or individuals who have directly, personally participated in **Death Science Time Rip experiments** such as the "**Montauk Project**," will have already engaged the associated "Metatronic-55" permanent DNA mutation. So, like contemporary Earth Angelic Human collectives, **most Earth Illuminati-Human collectives are still able to achieve the potential physical-biological "Slide-Orb Ascension" freedoms** offered in the Guardians' *Stardust Silver Seed Alignment*; engagement with the Stardust Silver Seed Ascension Alignment can be accessed by Illuminati-Humans through **Amnesty Host Contracts** with the trans-dimensional **MCEO–Krystal River Councils**, and through practice of the Silver Seed Healing technologies that will be progressively introduced in the MCEO Freedom Teachings®.

After the Stardust Alignment "**window of opportunity**" **closes** on January 31, 2013, both Angelic Human and Illuminati-Human populations who have not achieved Stardust Alignment will *biologically engage* the *automatic "Metatronic 55-Blending Ratio"* mutation from the *planetary geomagnetic field*, and from this point forward will become **permanently unable** to regain **physical-biological "Slide-Orb Ascension"** potentials. But, individuals who do not achieve the Stardust Alignment by January 31, 2013 can still, throughout the *Load-Out Evacuation Last Ascension Cycle "200-year window"* of open Ascension Star-Gates, engage Krystal River–hosted *conscious-spirit Bhardoah Ascension* Stardust Alignment, through application of Silver Seed Healing technologies and Amnesty Host Contracts with the Guardians. Achieving **Bhardoah Ascension Stardust Alignment**—and gaining freedom from the *Metatronic Time-Harness/False Christ Consciousness Grid* in Earth's geomagnetic field, with its corresponding *biochemical perceptual harness*—will become **progressively more difficult**, but not impossible, following the **end of 2013**.

Individuals who achieve the Stardust Alignment by January 31, 2013 will automatically "**genetically pass on**" the **biological Ascension potentials** they receive to **any offspring conceived during or after the "2012–2013 window of opportunity,"** and will also automatically pass on, through the **parental-DNA Etheric Template link**, the biological Ascension potentials to **any children previously birthed**, who are **age 33 or under**. Activation of the "**retro-inherited**" biological Ascension potentials within previously birthed offspring will occur only if the "**Higher Self**" of the individual child engages this activation through **Free Will Choice**. Activation of the biological Ascension potential and Stardust Alignment within the DNA and Encryption Lattice of any offspring **conceived to a Stardust-aligned parent** (mother or father) *during or after* the "2012–2013 window of opportunity" will **occur automatically**, as the **conception itself implies a Free Will Choice for Stardust Alignment** initiated by the newly incarnating individual spirit. The same

dynamics of "Encryption Lattice and DNA Template inheritance" will apply to offspring born of a parent or parents who attain *Bhardoah Ascension* potentials through Stardust Alignment: the children will inherit *Bhardoah Ascension* potentials.

So the answer to the question of "*Who will have the opportunity to reclaim biological 'Slide-Orb Ascension' potential within the Load-Out Last Ascension Cycle 200-year window of open Ascension Star-Gates?*" is **time-sensitive** in relation to the *December 21, 2012 – January 31, 2013* "**window of opportunity**" for **Stardust Silver Seed Alignment**. In simple terms, those of both Angelic Human and Illuminati-Human gene lines who do not achieve Stardust Alignment by the **January 31, 2013** close of the "window of opportunity," **forfeit *physical-biological* "Slide-Orb Ascension" potential** — due to the automatic, environmentally induced *Metatronic Alpha-Omega Alignment* DNA quantum-override that will occur through Earth's geomagnetic field. But conscious-spirit *Bhardoah Ascension* potential can be regained, with progressively greater difficulty, after the "window of opportunity closes," through *Guardian Amnesty Host Contracts* and *Silver Seed Healing applications*.

- **So what can a caring humanity do "in the meantime," in preparation for 2012 and beyond?**

LOVE and Let Live, and make your personal choices wisely...THIS is the immediate, short answer.

Wise Choices, Symbol-Clues and Salvaging the Sacred

The ability to "*make wise personal choices*" begins with taking responsibility for *personal education*; explore, investigate, learn and **compare** the core ideas within popular belief systems to which you feel drawn. Though "*logical comparison of ideas*" can reveal useful and "telling" implications about the "nature of a thing," it is through the "*intuitive comparison of FEELING*" that the **energetic truth in frequency vibration**, the core **Encryption Lattice**, and thus the *underlying reality of the* "nature of a thing," can be discerned. "*Think?*" Certainly. "*FEEL?*" Absolutely. Then **combine** the observations of both "**head and heart**" to let the infinite **wisdom of spirit** shine through.

Since 2001, the GA-MCEO Guardians progressively revealed the CDT-Plate teachings pertaining to both "positive and negative sides" of the planetary "Big Picture" drama, showing these "sides" not as "competing forces," but rather as "**two counterpoint forces of Free Will Option**" that together exist as inherent aspects of Eternity within a Free Will Cosmos. When attempting to become educated about spiritual development and the multidimensional reality spectrum, it is currently **difficult to discern** "the underlying nature of a thing," to determine whether you desire to engage with it. One of the most important benefits to emerge from the Guardians' revelations of "*false Sacred Science*" and the ancient "*Bloom of Doom*" Death Science paradigm is that our "logical minds" have been provided with **directly perceivable clues**, and points of reference, with which to discern the nature of various New Age "Ascension teachings" and traditional religious paradigms. Each of the **symbols** previously identified in this writing provides a **direct and apparent clue** as to the "underlying nature and evolutionary path-alignment of the teachings" within which the symbols appear. Some of the *Metatronic Death Science teachings* are scattered

throughout various New Age and traditional religious doctrines—**interspersed** with portions of genuine eternal-life teachings. This **“convolution of teachings”** makes it very difficult, both logically *AND intuitively*, to discover the *core energetic truth in frequency vibration* (the **Encryption Lattice**), and thus to discern the actual **“energetic path of consequence,”** that a body of teachings in reality represents; it is herein that the **logical Symbol-Clues** become helpful.

Before discovering the “Symbol-Clues,” it is important to remember that **all of the aforementioned symbols**, and many other related **“symbols,”** have emerged into our contemporary cultures from ancient Atlantean times. All of the symbols previously mentioned in this writing, and numerous related symbols not herein identified, are intentionally rendered ancient Atlantean **distortions** of what were once **“Sacred Spiritual-Science Symbols”**; these distorted symbols originated from intentional perversions of the organic MCEO teachings contained within **CDT-Plate-11**, which was stolen from Angelic Humans and placed in Illuminati hands by the Anunnaki named Thoth, in the 22,326 BC period. Though the intrinsic meanings of **the specific applications of multidimensional physics** for which these symbols stand, have been lost to current civilizations, the **realities of the energy processes** and the core **Encryption Lattice** that these symbols represent have never lost their meaning, significance or *hidden power* of atomic energy direction. If you find distorted versions of these once-sacred symbols alone, or together, within a body of teachings, you can **initiate a quiet healing option** into the Encryption Lattice of the body of teachings, which will offer the opportunity for healing and “Salvaging of the Sacred” as a **new energetic option of Stardust Alignment** becomes available within the Encryption Lattice of the body of teachings. Rejection of the entire body of “distortion-contaminated” teachings is NOT the point, nor is this approach helpful in any way; **most contemporary religious, spiritual and scientific mass belief systems currently exist as a “convoluted blend” of both “Rise Encryption” and “Fall Encryption.”** One does not need to *“throw the baby out with the bathwater,”* as the old saying goes.

When distortions of the once-sacred symbols listed below are found, investigate the contours of their **“original sacred version”** as depicted within the Ascension Path MCEO CDT-Plate translations. Use the original “sacred version” in your **contemplations or meditations** — ALONG WITH the “commonly used version” — and simply **sincerely intend** that you will feel within the symbols ***The Truth as it applies to you***, in terms of which symbol you currently “co-resonate with.” If you feel more connected to the “common distorted version,” that is okay, and there is no obligation to accept the validity of the MCEO symbol version. The idea is to **simply investigate, learn more, try to “feel out” the Encryption Lattice beneath both symbols**, so that you can **compare**, and thus **make a more educated conscious choice** regarding your personal path of evolution. Illuminati-Human Leviathan Coding carried within the Encryption Lattice and DNA Template (which at this point all humans, with our “Common-man Blended Genome,” share to greater or lesser degrees) will co-resonate more strongly with the *Metatronic Death Science* symbol Encryption Lattice, but if you feel this relationship it does not mean that the “Metatronic Fall Path” is *“destined to bind you,”* for the opportunity of **Stardust Alignment Silver Seed Healing** of the Encryption Lattice, and thus the DNA Template, **is extended to ALL of contemporary humanity** — including those of Illuminati-Human descent.

If Genuine Eternal Life Ascension is what you consciously desire, but you feel “torn and confused” between personal current belief system allegiances and the ideas proposed in the MCEO Freedom Teachings®, the MCEO–

Krystal River Guardians suggest that you simply **consider both ideologies as valuable viewpoints** through which you can learn, grow and expand your spiritual awareness, rather than “getting yourself into a mental polarity tangle” over which viewpoint is “right or wrong.” Explore, respect and **compare** the ideas represented in both viewpoints, and embrace the ideas in both that “feel right to you at the time,” while reserving the right to “free yourself” from the ideas in either viewpoint that do not “feel right” at the time. After a period of trying this **“Salvage the Sacred” approach**, revisit the ideas which previously did not “feel right,” and you may be surprised to discover that you have grown to understand the ideas in a different, more harmonious light. Using this approach of “comfortable comparison,” you allow yourself and your current personal belief system **“room to grow, expand and mature,”** while aligning yourself with the “best ideas” of both viewpoints in relation to your present “personal truth.”

Regardless of the decision you make about “what truths suit you,” comparing the symbols and the teachings of both the MCEO-Ascension and Metatronic-Fall Paths will offer you the benefit of **greater clarity** — and thus **greater opportunity for Conscious Evolution**—no matter what you decide. The **“Symbol-Clues”** below are provided **only to assist you in your quest for greater clarity**, and are **NOT intended to be misused as grounds to engage vilification, judgment or bigotry against belief paradigms** that may be associated with the symbol distortions, **or against the people who follow those belief systems**. Remember when exploring the “Symbol-Clues” below, that most contemporary belief systems represent a “convoluted blend” of both “Sacred Ascension Teachings” and “Fall Teachings”; the idea is to “Salvage the Sacred”—not to invalidate the entire body of thought.

Symbol-Clues to Encryption Lattice Orientation

- If you encounter a spiritual doctrine or scientific theory that places the **Golden Mean Rectangle/Fibonacci Spiral & Sequence** as significant to its theories, experiments or “esoteric” teachings, know you are dealing with a viewpoint that **implies the rest of the “Bloom of Doom” Metatronic Death Science components**, and its Fall Path Alignment, even if the rest of the “Bloom of Doom” symbols and teachings are hidden from direct view.
- If you encounter a doctrine that assigns significance to the symbol of the **“Tree of Life,”** in a depiction which **diverges** from the sacred proportions inherent to the **Krystic 12-Signet Kathara Grid**, know that at least part of the *underlying Encryption Lattice*, and thus the *path of consequence* carried in this doctrine, is that of *Death Science orientation*—no matter how altruistic its outer “good intentions” may be.
- If you encounter teachings that identify the **star-tetrahedron/“6-pointed star”** or the **Bi-Veca Code/vesica piscis** as a symbol of significance, know the underlying orientation of these teachings is not determined *by the appearance of the symbol* itself, but rather by the *way in which it is used*.
- There are many other **“commonly known symbols”** that also hold an **“implied orientation of Encryption Lattice,”** some of which have been previously identified in the MCEO teachings, such as the **upright “crucifixion cross,” the inverted “crucifixion cross”** and **“5-pointed star/pentagram.”** The two “crucifix versions” and the inverted pentagram represent *specific manipulations of light-spectra* that are directly associated with the *vesica piscis Artificial-Light mutation*, and thus imply energetic *Death Science Encryption Lattice alignment*. The orientation of the upright pentagram can be discerned by how it is used, rather than simply by its appearance. The presence of these symbols within a body of teachings indicates

at least a partial distortion of the Encryption Lattice behind the body of thought within which these symbols are found.

Though the dispensations of the CDT-Plates and the GA-MCEO Guardians may reveal realities that most contemporary Earth humans ***“just do not want to hear about,”*** these revelations nonetheless are made as a gesture of the **Guardians’ love** for humanity, and of their **enduring commitment** to **“seeing us through to the end,”** while holding for us the living potentials of our **re-evolutionary vision of Eternal Life Ascension** that we had long ago forgotten. What might this **“end,”** which the Guardians are “seeing us through to,” look like? The immediate answer to that question has yet to be decided, for this decision will be made through the realities of personal and Planetary Encryption Lattice BPR alignment, especially as we move through the period of the **“2012 BPR Showdown”** and the **Illuminati “Metatronic-55-point”** and **Alpha-Omega/Toral Rift Fall Alignment peak of December 21, 2012.**

The “2012 BPR Showdown” is not a *“showdown over planetary Templar control,”* for the alignment paths of Earth’s Encryption Lattice BPR, and thus the **immediate planetary energetic consequences, have already been determined.** Fulfillment of the Illuminati’s ***Death Star activation,*** and the corollary ***6th Extinction,*** will be **stalled and postponed,** and our Solar System will **not be drawn into the 10,948 BC Toral Rift Time Rip,** until the **2230–2976 AD period,** due to the MCEO–Krystal River Guardians’ intervention. The ***“Metatronic-55-point”*** acceleration will, however, **control the primary geomagnetic fields of Earth and the Sun from December 21, 2012 forward,** and will thus **automatically control**—by Quantum Dominance—the **Encryption Lattice BPR of Earth’s life-field and matter-base,** unless *conscious energetic counterstrategies* are progressively personally applied. The “2012 BPR Showdown” is a ***“personal BPR Showdown,”*** as through it the **use of individual Free Will Choice** will determine **which aspect** of the *now-preset planetary evolutionary-path alignment,* and the corresponding realities in consequence, that each individual will experientially encounter.

May we all make our choices well, for this time it is the **“End Game,”** and **we will each exist within the energetic consequence of our contemporary choices** for a very long time to come. The MCEO–Krystal River Guardians will also extend **Silver Seed Healing “Ascension Alignment” opportunities** to various **plant, animal, crystal and elemental species** whose Encryption Lattices are capable of engaging this alignment. **Earth humans** who choose **“Ascension Alignment”** through personal Silver Seed Healing will be **instrumental in extending this healing opportunity** to the other kingdoms of Earth’s life-field, for these humans will be the only force resident on-planet with an Encryption Lattice through which the Ascension Alignment can be “anchored” on Earth — and thus made accessible to Earth’s extended life-field. The **“Re-evolutionary Ascension Path of Stardust Return” (Path of Rise),** or the **“De-evolutionary Fall Path of Space-dust Return”:** the choice belongs to each and every human presently alive on Earth. The hidden energetic realities of the contemporary planetary and galactic **“Big Picture Drama”** will ensure, through the **“Cosmic Law of Cause, Effect and Consequence,”** that this human evolutionary choice is made, whether or not we are ready.

The Guardians are not here to “save us”; no one can “save us” from the energy consequences resulting from our current and historical use of Free Will Choice. The most they can do is to temporarily buffer us from the full brunt of

our collective planetary consequences, and **return to us the knowledge of how we as individuals can choose to "save ourselves."** The current planetary drama is **challenging us**, individually and as a "common race of man," to **"be the change we wish to see in the world,"** as Gandhi so eloquently phrased it. **We can still change our personal destiny**—and change our personal relationship to the Path of Fall Return with which the planet is now aligned—by *choosing to change ourselves*. The part of ourselves that most needs changing is not so much the "external ideological associations" we choose to hold, but rather the underlying reality of energy frequency-vibration held within our **personal Encryption Lattices**, which lie beneath our consciousness and our *biological-atomic form*.

For the **last 10 years**, the GA-MCEO has been providing us with the MCEO Freedom Teachings® and CDT-Plate translations precisely so that **we may empower ourselves** to make this "internal change," and literally **SHIFT the BPR** (Base Pulse Rhythm) of our **personal Encryption Lattices** out of the planetary "Metatronic-55" Fall Alignment—if we desire to do so with our Free Will Choice. The Guardians have offered us the opportunity to "become our own saviors" and to reclaim our original birthright of Eternal Life Ascension, and fortunately they have cared enough, and intervened in the planetary drama sufficiently enough, to **"buy us some much-needed evolutionary time!"**

After the "Fall of Metatron" revelations started in 2001, the MCEO teachings expanded rapidly in all directions of reference. By **2006–2007**, the *MCEO Freedom Teachings®* had progressed into in-depth study of **"Elemental Command," trans-dimensional projection, and "Bi-location–Orb-ing."** Currently our focus is upon *expedited re-awakening* of the ancient Angelic Human *genetic abilities* of **atomic Transmutation and Transfiguration**, through which the once-organic genetic abilities of *biological Translocation* (physical *visitation* to "elsewhere" in space-time) and *Transmigration* (*permanent physical relocation* to "elsewhere" in space-time) can begin activation in time for the **2012 Stardust Alignment and Silver Seed Awakening**, which will enable at least some of the contemporary human species to eventually engage biological **"trans-dimensional space-time travel" and "Bio-spiritual Ascension"** (re-evolution out of finite matter-form back into eternal-life matter-form, and then into pure eternal-life original consciousness beyond form) during the 2007–2230 AD Load-Out Last Ascension Cycle. In ancient Atlantean/ Lemurian, Egyptian, Christian, and pre-ancient "mystery schools," the MCEO Freedom Teachings® were referred to as **"Ascension Training"**; today, we refer to these Ascension Path teachings as **"Sliders Training."** We began our *MCEO Freedom Teachings® "Sliders Workshop Series"* in **August 2008**; this workshop series runs through the **end of 2012**.

Before we can become Orb-ing "Ascension **Sliders**," we need first to become **"Shifters,"** through consciously **shifting** our morphogenetic field **Encryption Lattice BPR**, and thus our **biological-atomic biorhythms**, out of the current planetary "Metatronic-55-point" Toral Rift Fall Path Alignment, and into Co-resonant Harmonic Alignment with the Ascension Path of the **Stardust Alignment** and the *Silver Seed Awakening*. Between October 2009 and December 2012, the MCEO Freedom Teachings® will progressively focus upon the study of healing the personal "Encryption Lattice" in preparation for the "2012 Mass BPR Showdown" and the Silver Seed Awakening. **Humanity is welcome to join us in this journey of healing and freedom.** Sometimes truth really IS stranger—or at least much more complex—than fiction. What has been described in this writing IS the reality of what is occurring behind the scenes on this planet; the reality of this drama will move forward with or without humanity's acknowledgement

or consent. We can engage our planetary reality through **conscious knowing** or **unconscious unknowing**—both are choices, and individually we WILL experience the energetic consequence of our choice.

May the sun warm your shoulders, may the wind be at your back...and may you choose to ride the *Rising Tides of Stardust* into a joyous, loving Eternity.

With Love, Light and Awareness ... and a "Sprinkling of Stardust" ... A'sha Deane – MCEO Speaker-1
