Historical Origins of the MCEO Teachings By A' sha Deane

Includes: MCEO Teachings & the CDT-Plates; Historical Method of CDT-Plate Translation; CDT-Plates & Historical World Religions; CDT-Plates & Contemporary World Religions; Science, Spirituality, Evolution and the Templar; Humanity's Dark Age — Lost Civilization, Forbidden History, the Templar and DNA; The NET, "Higher & Lower Earth," the Toral Rift, Equinox Precession & False Yugas, and the 2012 Alpha-Omega Alignment; Contemporary MCEO Vision; Contemporary CDT-Plate Translations, Current Earth Drama & the 6520 AD Welcome Stations

MCEO Teachings & the CDT-Plates

The MCEO teachings did not originate on Earth; these teachings represent a record of advanced spiritual-science knowledge and extensive history that has been translated into many forms, in many different periods and locations, within and beyond our 15-Dimensional Universe. The record of knowledge and history that the MCEO teachings stand for represents a gift of insight, hindsight and foresight, first provided over 950 billion years ago, by the Elder Races of our Universe and beyond, who have evolved to embody the realities of "Eternal Life Ascension" that are revealed in the MCEO teachings. The MCEO teachings were brought to Earth in several different periods of pre-ancient history — beginning with their first dispensations 25 million years ago, which were subsequently destroyed.

In more recent pre-ancient history, the MCEO teachings were again brought to Earth by a collective of interdimensional races referred to as the Guardian Alliance-Melchizedek Cloister Emerald Order (GA-MCEO), under the supervision of their Elder Councils, the Krystal River Councils of Aquareion-Adashi Adepts; the MCEO teachings were returned to Earth as a gift to an evolving humanity. Detailed profiles of the GA-MCEO collective are found in the Voyagers books (by Ashayana Deane, Granite Publishing 1999-2001); profiles of the Adashi Adepts are found within various MCEO Freedom Teachings® workshops. The GA-MCEO and Adashi

Adepts have served for many eons as Guardians of our 15-Dimensional Universe and beyond. The more recent pre-ancient historical MCEO teachings of Earth emerged from the 12 CDT-Plate Silver Recorder Disc Libraries that were given to the ancient Urtite human races of Earth by the MCEO Guardians' Azurite race, in the 246,000 BC Atlantean period, as part of the Emerald Covenant Co-evolution Agreement treaty. After receiving the CDT-Plates, the Urtites made the original written translations, creating the 590-volume Maharata Texts. Partial Maharata Text/ CDT-Plate translations were later made in numerous periods and Earth cultures, the last partial translation starting in 10 BC during the "Christ Period" (12 BC - 27 AD). (History of the CDT-Plates is detailed at the start of Voyagers Volume-1, 2nd Edition; detailed history of the Guardians' involvement with human evolution is found in Voyagers Volume-2, 2nd Edition.)

Historical Method of CDT-Plate Translation

Since the first CDT-Plate/ Maharata Text translations were made in 246,000 BC, many events of both climatic change and human warring have occurred on Earth; due to the recurrence of such events, in 208,216 BC the Maharata Text books and 10 of the 12 CDT-Plates were retrieved by the Azurites and secured under MCEO guardianship. One of the two missing CDT-Plates was retrieved and returned to MCEO protection in the 1600s AD, and the other, final CDT-Plate was retrieved in November of 1999 AD. In pre-ancient times, after securing the Maharata Texts and 10 of the 12 CDT-Plates, the GA-MCEO and Krystal River Adashi Adepts created a set of protocols by which the MCEO CDT-Plate/ Maharata Text teachings would be returned to Earth through remote-translation during certain periods of significance, while the retrieved CDT-Plates/ Maharata Texts remained in security storage until a future date when they could be safely returned.

The protocols by which the Guardians have historically orchestrated remote-translation of the CDT-Plates/ Maharata Texts during various periods of human history involves their appointment, in a particular period, of a group of 3 MCEO Speakers from among Earth human populations — each group of 3 MCEO Speakers works closely together with the GA-MCEO Guardians to bring remote-translations of the CDT-Plates/ Maharata Texts into their respective period. Since 208,216 BC, numerous partial translations of the CDT-Plates/ Maharata Texts have been orchestrated, including the more recent efforts of 22,340 BC, 2040 BC and 10 BC; in more recent periods of ancient history, MCEO 3-Speaker groups and partial CDT-Plate translations have appeared within Hindu, Hebrew, Chinese, Tibetan, African, Egyptian, Mayan, Incan, Celtic-Druidic, and some other cultures.

The method by which MCEO Speakers achieve remote-translation of the CDT-Plates begins early in life, with at least one of the three Speaker-appointees having repeated, direct physical contact-encounters with members of the GA-MCEO from very early childhood onward. During every period in which the CDT-Plate/Maharata Text translations are rendered, the GA-MCEO is aware of the identities of the “potential Speakers” before they enter physical incarnation on Earth, and watches over them from the point of physical conception. These MCEO 3-Speaker appointments are assigned prior to conception, with each of the 3 Speaker appointments having an additional 2 “primary backup” appointments — and occasionally a few others to serve as “secondary backup” — in the event that an appointed Speaker cannot fulfill the assignment. In every period, a “pool” of several individuals incarnate with specific dormant configurations carried in their DNA; when activated, these configurations open specific “electromagnetic passages” within the neurological circuitry, allowing those who carry them to receive protected, electronically-encoded data-streams directly from the GA-MCEO. Over time, as the dormant DNA coding activates, the individuals become progressively more able to biologically receive and neurologically translate information transmitted on the GA-MCEO data-stream, enabling them to develop clear, conscious, protected interdimensional communication with the GA-MCEO. This process of coded interdimensional electronic data-streaming is called Keylontic Communication.

Keylontic Communication is not the same as the process commonly known today as “channeling” or “conscious mediumship.” Channeling is a process in which the spirit essence of a disembodied individual or collective temporarily (or sometimes permanently) enters the physical body, bio-energetic field and consciousness of an incarnate human in order to communicate in the human world. The GA-MCEO and Adashi Adepts do not engage the process of channeling because it most often causes biological damage to the human DNA that can severely interfere with the individual’s biological and spiritual evolution; in this regard channeling is considered “risky.” In many cases, both “channeling” and “trance-mediumship” (unconscious channeling) can also lead to temporary or permanent “identity displacement” or “possession” ; in this regard channeling and trance-mediumship are considered downright dangerous. Channeling is thus viewed by the GA-MCEO and Adashi Adepts as an unsafe and unreliable method of interdimensional communication.

As Keylontic Communication electronic data-streaming does not cause human DNA damage — and does not intrude on or invade the human biology and bio-energetic field — it is the method of choice for Guardian collectives. All humans have an organic genetic ability to engage some degree of Keylontic Communication, and also

have a genetic vulnerability to invasive interdimensional exchange. Interdimensional communication is an organic ability and a birthright of all humans, but it is a gift that requires educated application if it is to be developed safely. (More detail on the process and dynamics of Keylontic Communication, and information on creating safety in interdimensional communication, is found in the Voyagers books.)

Though all humans have an innate biological and spiritual predisposition to interdimensional exchange and Keylontic Communication electronic data-streaming, not all humans carry the responsibilities of MCEO Speaker Contracts. During conception, individuals with MCEO Speaker Contracts receive additional dormant DNA encoding directly from the GA-MCEO, which requires the direct assistance of the GA-MCEO for activation. In early childhood, and extending into adolescence, the GA-MCEO initiates repeated physical contact-encounters with the Speaker or Speakers who are intended to engage CDT-Plate remote-translation in adulthood. Through these contact-encounters, the GA-MCEO engages the progressive process of activating the specialized dormant DNA coding, which, when fully activated, will allow for Keylontic data-streaming directly from the CDT-Plate discs for remote-translation, and will provide direct “live” data-streaming with GA-MCEO and Adashi Adept representatives. The process of Keylontic Communication electronic data-streaming has been the method by which the GA-MCEO has orchestrated remote-translation of the CDT-Plates throughout Earth’ s history, and it is the same method of remote-translation used today.

CDT-Plates & Historical World Religions

The CDT-Plate/ Maharata Text translations of 246,000 BC contained the original multidimensional spiritual-science “Ascension” teachings from which the “Original 12 Ancient Earth Religions” and all subsequent fragment-religions eventually de-evolved; thus the CDT-Plates and Maharata Texts represent the “Common Source” from which all known Earthly historical and modern religious doctrines and early scientific inspiration emerged. The Original 12 Ancient Earth Religions did not begin as competitive, contradictory doctrines, but rather represented complementary perspectives, which were first taught in Oral Translation after the CDT-Plate remote-translation protocols had been established by the MCEO Guardians upon their reclamation of 10 of the 12 CDT-Plates in 208,216 BC. The Oral Translations emerged from division of the CDT-Plate/ Maharata Text teachings into 12 corresponding aspects called “Legions” ; each “Legion” represented an Oral Translation of one of the 12 CDT-Plate Silver Discs. The collective body of the 12 CDT-Plate Oral Legions was known as the “12 Legions of the KRYSTHL-A” ; the word “KRYSTHL-A” was derived from the “7 Sacred Sounds” that

represent the “1st Audible Core-Creation Sound Tones” in our 15-Dimensional Universe. The “7 Sacred Core-Creation Sound Tones” are “Ka, Ra, Ya, Sa, Ta, Ha, La” ; the pre-ancient word “Krys-thl’ -a” was used in reference to the collective body of the “12 CDT-Plate Oral Legions.”

In the MCEO CDT-Plate records, the original Earth human races are known as the “Angelic Human” lineage. Each of the 12 CDT-Plate Oral Legions was entrusted to one of the 12 original Earth Angelic Human race lines, which were collectively referred to as the “12 Tribes Humans.” (Detailed information on the Angelic Human 12 Tribes lineage is found in Voyagers Volume-2, 2nd Edition.) Each “Tribe” protected, and perpetuated in Oral Tradition, the knowledge and historical record contained within its respective “CDT-Plate Oral Legion.” Each single CDT-Plate Oral Legion was remote-translated by an MCEO 3-Speaker group that was a member of the “Tribe” to which the CDT-Plate corresponded; only one 3-Speaker group was active on Earth at any given time.

The CDT-Plate Oral Legion remote-translations were returned to Earth over time, in sequential order, starting with the teachings contained in CDT-Plate-1. Each Oral Legion was brought into Angelic Human culture in different periods to sequentially assist in the progressive evolution of the human collective. Historical translations of the teachings contained in the “2 missing discs” were rendered from the Maharata Texts through GA-MCEO Keylontic Communications. In various historical periods the “12 Tribes Humans” themselves became known as the “12 Legions of the Krysthl-a” ; in later historical mistranslations of the 12 Legions’ CDT-Plate Oral Translations, the word “Krysthl-a” became fragmented and polarized into the words “Kryst” (later to become the word Christ), and HL-a (later to become the word Allah). This was the “First Division of the 12 Tribes,” and from it both the populations and Oral Tradition further fragmented and de-evolved.

During several periods in history following the inception of the 12 Legions of the KRYSTHL-A CDT-Plate Oral Translations, portions of the original 12 Oral Legions were reorganized and restructured, or “re-legion-ed,” to create partial written translations of the CDT-Plate teachings, which appeared in various early languages and dialects. The first written translations that emerged from the 12 Oral Legions became known as the “Original 12 Angelic Human Earth Re-Legions” ; this word was later translated into “Religions” in the languages and dialects respective to the cultures of certain periods. The teachings of the CDT-Plate written partial-translations — which evolved from the 12 Legions’ Oral Translations to become the “Original 12 Ancient Earth Re-Legions” — were initially unique unto each other, but complementary and concurring due to recognition of their CDT-Plate Common Source. It is from these pre-ancient teachings that the doctrines of all

subsequent historical fragment-religions emerged. Over time and through the intentional historical manipulations orchestrated by Illuminati races (who possess hybrid “Angelic Human plus various ‘Intruder ET’ ” genetic lines), the original complementary perspectives and teachings of the “Original 12 Ancient Angelic Human Earth Religions” were progressively distorted into competitive, contradictory doctrines and “mass-control-dogmas.” (More information on the historical and contemporary relationships between ancient earthly Angelic Human and Illuminati-Human cultures, and the emergence of the “early man” hybrid-species popularized by Darwinism, is found in Voyagers Volume-2, 2nd Edition.)

CDT-Plates & Contemporary World Religions

The contradictory doctrines of the historical “control-dogma distortions,” through which “human populations were pitted against each other,” emerged through progressive intentional distortion, mistranslation and concealment of the original CDT-Plate translations. All traditional fragment-religious texts — and “New Age” channeled doctrines — are at this point distorted beyond recognition, containing falsifications and omissions historically intended by Illuminati groups to sustain the mass-control-dogmas by which they covertly govern and direct contemporary human global society. But within the present distortion of doctrine, each primary religion of today still contains a “seed of spiritual truth” derived from the Original 12 Ancient Earth Religions, their earlier 12 CDT-Plate Oral Legions of the KRYSTHL-A, and the original Common Source CDT-Plate/ Maharata Text MCEO teachings from which they all originally emerged.

Within the MCEO teachings of present-day CDT-Plate translations, the words “Kryst,” “Krist” and their derivatives are often used. In the current context these words are the shorthand reference to teachings, ideas and motivations corresponding to the pre-ancient word “KRYSTHL-A,” the “7 Sacred Sounds” (“1st Audible Core-Creation Sound Tones” in our 15-Dimensional Universe) from which this word is derived, and the collective body of “Common Source” multidimensional spiritual-science “Ascension” teachings contained within the original, pre-ancient CDT-Plate/ Maharata Text translations. In the earliest of the present-day CDT-Plate translations, the word “Christ” was used to denote the correspondence between the pre-ancient “Kryst” teachings and some of the teachings contained within the modern “Christian religions.” As the present-day translations progressed, this spelling “evolved” back into the original “Krist/ Kryst” shorthand spelling of pre-ancient times — the source of the later word “Christ.” The CDT-Plate teachings contain correspondences to some of the teachings in most primary world religions of today, and so their affiliation extends far

beyond the boundaries of Christian doctrine alone. (CDT-Plate historical records pertaining to the “Christ drama,” and more information on the “Common Source of world religions,” are found in Voyagers Volume-2, 2nd Edition.)

The MCEO Freedom Teachings® respect the “seeds of genuine Sacred Truth” that still remain within most of the contemporary world fragment-religions, and hold the “Sacred Books and Doctrines” of these religions, and the populations who “follow” them, in equal value. “Some of the teachings” in almost every contemporary religion represent the “Common Seed of Truth” from which all religions emerged; and “some of the teachings” in almost every contemporary religion represent the “Common Bed of Falsehoods” with which the truths have been assaulted. The falsehoods contained within contemporary religious doctrines emerged through intentional promotion of false teachings and manipulation of historical record, which various competing global Illuminati factions have progressively orchestrated throughout generally-known human history, in order to evolve their mass-control-dogmas. While all of today’s traditional religious doctrines share a “Common Seed of Truth,” they also share this “Common Bed of Falsehoods” imposed on them by forces that seek the ultimate demise of the once-Angelic Human species.

Of the falsehoods perpetrated on our spiritual truths, the “greatest falsehood of all” is the intentional, complete omission from the “books of spirituality” of the pre-ancient, advanced scientific teachings of multidimensional physics that are contained within the MCEO CDT-Plates and their original written Maharata Text translations. This intentionally contrived, progressively orchestrated omission of historical fact, which has been executed over a period of recent history dating back only to 11,000-10,000 BC, has culminated in the creation of a “species-wide mass illusion,” in which an inorganic division, and seeming competition, between spiritual and scientific realities is perceived. And through this illusion, a “spiritless science” justifies its endeavors without conscience or concern for “spiritual law or consequence” — and a “science-less spirituality” remains castrated from the true knowledge through which its lofty aspirations of an “eternal afterlife and Ascension” can be fulfilled. Original CDT-Plate records of ancient and pre-ancient history include record of spiritually and technologically advanced human, and other-than-human, cultures. Both the CDT-Plate historical record, and the CDT-Plate teachings of the spiritual-science technologies of “Ascension,” have historically been stripped from contemporary fragment-religion doctrines, and denied within scientific paradigms. This omission and denial of ancient “core truths and foundation facts” was contrived to prevent the human masses from acquiring the knowledge and personal power by which they could reclaim directional control over their personal and collective evolutionary destiny.

Science, Spirituality, Evolution and the Templar

The original MCEO CDT-Plate teachings clearly explained the inherent unity of “science and spirituality” and the intimate interrelationship between consciousness, spirit and atomic structure; they detailed the specific structures and processes inherent to the science of multidimensional physics by which the spiritual achievement of “Ascension” occurs. The CDT-Plates teach that “Ascension” happens via the organic process of atomic Transfiguration, through which a being is enabled to biologically engage natural multidimensional spiritual evolution back into wholeness, freedom and eternal-life expression. Through the process of atomic Transfiguration — which involves very specific structures and processes inherent to the laws of multidimensional physics as they apply to human bio-spiritual anatomy — a human being can experience “Ascension Passage” into ever-greater states of multidimensional bio-spiritual evolution. “Ascension Passage” is the organic bio-spiritual process of dimensional Translocation (visitation) and Transmigration (relocation) through the multidimensional structures of space-time, which culminates in re-evolution back into the original Eternal State of Pure Consciousness from which all initially emerged. This “model” of reality is called “Evolutionary Determinism,” or the “Stair-Step Creation” model. (More information on the Evolutionary Determinism model is found in Introductory-Topic Summary-3, information on the related “Paths of Rise and Fall” is found in Introductory-Topic Summary-2, and the teachings of “Stair-Step Creation & the Science of Ascension” are extensively detailed in the progressive dispensations given through MCEO Freedom Teachings® workshops over the past ten years.)

The CDT-Plates teach that the process of “Ascension” takes place through the organic structures of the “Interdimensional Universal Star-Gate System,” which is referred to as the “Universal Templar.” In the CDT-Plate history records, humanity was recognized as the “Angelic Human” race — a race of “interdimensional extraterrestrial” origin that was seeded on Earth by the GA-MCEO Elder Races to serve as Guardians of Earth’s Planetary Templar “Halls of Amenti Star-Gate System.” The original Angelic Human genome carried the inherent biological characteristics required to bio-electronically engage directly with Earth’s Planetary Templar and Halls of Amenti Star-Gate System. This genetic configuration, referred to as the “12-Strand Diamond Sun Crystal Gene” DNA, also enabled ancient Angelic Humanity to experience the organic process of “eternal-life evolution” through Transfigurative Ascension. Historical Illuminati manipulation of CDT-Plate/ Maharata Text translations included intentional omission of the teachings of the “Sacred Science” by which the “spiritual

accomplishment” of Ascension occurs, because in revelation of the teachings of “Ascension,” the realities of Earth’ s Templar Star-Gates and the “secrets of the Angelic Human genome” would also be revealed. If awareness of Earth’ s Templar — and of Angelic Humanity’ s original, historical, biological commission as Templar Guardians — remained as common knowledge, the Illuminati races would be unable to fulfill their long-term agenda of Planetary “Templar Dominion.”

Humanity’ s Dark Age — Lost Civilization, Forbidden History, the Templar and DNA

The Illuminati-Human races of old carried varying hybrid genetic codes containing only portions of the “Diamond Sun Star-Gate DNA Codes” organic to Angelic Human DNA. Earth Illuminati-Human hybrid race lines extend back to around 670,000 BC; the contemporary Illuminati lineage only reaches back to around 250,000 years ago, emerging through a primate-ET-human hybrid evolutionary strain known as the “Leviathan.” Contemporary Angelic Human lines extend back to almost 800,000 years ago, when the Third Seeding of the Angelic Human 12 Tribes was rendered; Earth’ s First Seeding of the Angelic Human lines occurred 25 million years ago, and about 250 million years ago the Angelic Human First Seeding occurred on Parallel Earth. The original Angelic Human lineage did not share “primate DNA” — this connection emerged through historical periods of forced genetic blending that were orchestrated by the Illuminati-Elders, following earlier attempts of consensual DNA Bio-regeneration of ET-visitor gene lines. If the Illuminati-Elder races were to achieve their goals of Earth Templar Dominion, the Illuminati gene lines would need to progressively interbreed with those of the Angelic Human, over many generations, in order for the Illuminati races to gain, by genetic blending, biological access to Earth’ s Planetary Templar Halls of Amenti Star-Gates. (More information on Angelic Human Seedings and the Illuminati Leviathan races is found in Voyagers Volume-2, 2nd Edition.)

Attaining operational knowledge of, procuring biological access to, and achieving covert dominion over Earth’ s Templar Star-Gates is precisely what competing Illuminati groups have, historically and to this day, strived to achieve. The progressive orchestration of denying “sacred knowledge” to the masses and falsifying the human historical record — while promoting extensive over-breeding and overpopulation through historical forced interbreeding, distorted spiritual teachings and manipulative science — has not occurred “haphazardly” or “by accident.” These things have occurred, and are still occurring, by meticulous “contrived design,” carried out over many generations since 250,000 BC by

Illuminati-Human hybrid-races, following the directives of their “off-planet interdimensional/ extraterrestrial Elder kin.” The Illuminati-Elder-race Atlantean agenda of “Earth Templar Dominion” was part of a much older Illuminati Master Plan Prime Objective that began on Earth 550 million years ago, when Earth’s Halls of Amenti Star-Gates were created — long before the Angelic Human lineage was seeded on Earth as the intended “genetically keyed” Guardians of the Halls of Amenti. (More information on the Illuminati Master Plan Prime Objective is found in Introductory-Topic Summary-2, and information on the historical evolution of the Atlantean Conspiracy is found in Voyagers Volume-2, 2nd Edition.)

For the last 13,000 years especially, Illuminati-Human forces, guided by their “off-planet directors and Elder kin,” have been covertly “grooming and cultivating the human masses” in preparation for a particular “human appointment with destiny” that would occur in a particular “period of planetary significance.” During this period, the Illuminati objective of Earth Templar Dominion could potentially be fulfilled — if their multi-generational attempt at “genetic blending” was successful. Some Illuminati-Humans, and all of their “visiting kin,” as well as the MCEO-Krystal River Guardians, have known since 22,326 BC that this “human appointment with destiny” was scheduled to occur during the “next period of planetary significance.” The ancient, covert “battle for Templar Star-Gate dominion” has reemerged from these “Atlantean days of old” directly into our present time, because in the year 2000 our Earth entered the “period of planetary significance” long awaited by both the MCEO Guardian and Illuminati forces. This “period of planetary significance” is called a “Stellar Activations Cycle” (SAC). Earth’s Planetary SAC is a period in time when Earth’s Planetary Templar Halls of Amenti Star-Gates engage their “17-year opening cycle,” during which time interdimensional transit and organic “Ascension Passage” become available to the life-field of Earth. (Extensively detailed information on “Atlantean history,” the “Leviathan” races, “SACs” and Earth’s contemporary “Amenti Ascension Schedule” is found in Voyagers Volume-2, 2nd Edition.)

During Earth’s last SAC of 22,326 BC, just following the 22,340 BC attempted CDT-Plate translation, Illuminati-Elder races staged invasion of Earth’s Planetary Templar Halls of Amenti Star-Gates. The invasion resulted in the Amenti Star-Gates being forced closed and a subsequent failure of the “Ascension Cycle” in that period. Earth’s last failed SAC ended in a “stalemate” between MCEO Guardians and Illuminati-Elder forces, with the “destiny of Earth human evolution hanging in the balance.” Both groups knew that the next coming SAC would represent the “Final Conflict Drama” over control of Earth’s Templar, and just after the failed 22,326 BC Stellar Activations Cycle, both groups began their long-term plans for this coming “inevitable appointment with destiny.” The MCEO

Guardians knew that if they did nothing to intervene, and the Illuminati races progressed with their plan, then during the next SAC both the Angelic Human race AND the Illuminati-Human hybrid race of Earth would face potential species extinction as a result of the Illuminati Master Plan; thus Guardian “non-intervention” was not an option. Many things have transpired on Earth since this period of pre-ancient Atlantean history, including the continuing Illuminati takeover of key Earth Templar sites and three major Illuminati advances in gaining Earth Templar control, which occurred in the periods of 13,400 BC (“Great Netting”), 10,948 BC (“Toral Rift”) and 3470 BC (“Babble-On Massacre”). Together with Earth Templar damage from times previous and thereafter, these Illuminati Templar advances accelerated the progressive distortions in the natural function of Earth’ s Templar and Halls of Amenti Star-Gates, which resulted in planetary environmental anomalies that continue to this day, and which culminated in direct DNA mutation of Earth human populations.

The ancestors of contemporary humanity entered their “Dark Age,” or “dark night of the soul,” during the 13,400 BC, 10,948 BC and 3470 BC periods. During each of these periods, Illuminati-Elder races employed what were known as the “Atlantean Bloom of Doom Death Sciences,” to bring into activation dormant, inorganic Templar Death Science technologies from an earlier period of pre-ancient warfare. (Detailed information on the “Atlantean Bloom of Doom Death Sciences” is found in Introductory-Topics Summary-2, in Voyagers Volume-2, 2nd Edition and within various MCEO Freedom Teachings® workshop programs.) One aspect of these pre-ancient Death Science technologies runs on structures of crystal implant networks, positioned in various locations in Earth’ s core, crust and mantle. When activated, these crystal implant networks and their corresponding technologies create an electromagnetic harness within Earth’ s Templar Star-Gates and electromagnetic “grid-lines” ; this harness has the power to directly affect the function of Earth’ s geomagnetic field, through influencing Earth’ s core resonance (vibration rhythm/ “Schumann resonance”) and speed of “pole wobble” (the slow rotation-cycle of Earth’ s 23.5° -tilted geographical axis that creates the “precession of the equinox” cycle).

The Templar events of 13,400 BC (15,400 years ago) resulted in a brief collapse and temporary reversal of Earth’ s geomagnetic field, which caused some climatic anomalies, further loss of some Atlantean Islands territories, and DNA mutation in the planetary life-field. (The Atlantean continent had been previously reduced to three island nations following a cataclysmic “Templar Conquest” misadventure in the 28,000 BC period). Earth’ s geomagnetic field directly affects the DNA and memory storage of biological life-forms through interaction with the Epigenetic Overlay — the chemical sheath around DNA — which triggers DNA gene response.

In human populations, the DNA mutation resulting from this anomalous environmental event of 13,400 BC resulted in the first of three biologically induced “memory wipes” and the fragmentation of portions of the DNA into “junk DNA” (DNA that does not “code for protein” and thus appears to have no active biological purpose).

In the loss of race memory in the 13,400 BC period, both Angelic Humans and Illuminati-Humans were simultaneously reduced to a primitive perceptual state, with loss of historical, practical and language memory. More significantly, the mutations that took place in the human DNA began the process of reducing both Angelic Human and Leviathan Illuminati-Human gene codes to a “common mutation,” leaving “unplugged” the genetic differences that previously existed as junk DNA, while the commonalities between Angelic Human and Illuminati-Human DNA remained “turned on” in the active DNA sequence. Through the “new common-gene human” that resulted from this common mutation, the Illuminati hybrid-humans — and their off-planet Elder kin — could more easily interbreed with the now “amnesiac” Angelic Human races, who carried the “Diamond Sun Star-Gate DNA.” New bloodlines and blood types emerged following this period, as Illuminati-Elders interbred with humans of their respective genetic lines, and of the Angelic Human lineage, in effort to enhance the “family ‘Star-Gate DNA’ profile.” The GA-MCEO and Krystal River Guardians also intervened, rescuing the Angelic Human collectives they could reach, when they discovered that these events had been set in motion. Afterward, the GA-MCEO orchestrated visitations to the affected Angelic Human Earth collective, to return the original “12 Tribes” languages and CDT-Plate historical record, and to begin reverse-mutation Bio-regeneration of the Angelic Human genetic lines.

Illuminati-Elders orchestrated the events of the 13,400 BC period intentionally, specifically to create the biological effects, and Planetary Templar control, in which these events resulted; only select members of their earthly Illuminati-Human “children” — their “Chosen Ones” — were spared this fate, temporarily taken off-planet just prior to the events, and later returned as elitist “overseers.” Through the biological effects of these environmentally induced events, the Illuminati-Elders could begin advancement of their “genetic blending” agenda, in preparation for the “Star-Gate Conquest” they intended to launch during the next Planetary SAC. Following this period, various competing Illuminati-Elder races initiated cycles of “visitations,” in which they, and their “Chosen Ones” Illuminati-Human children, began to teach the “now-primitive human mutants” (often by dominion and force) their respective, contradictory languages, creation myths and history interpretations. Portions of the advanced Atlantean and Egyptian civilizations still remained following these events, and for a time Atlantis was ruled

by the cruel and elitist Illuminati “Chosen Ones,” who governed the amnesiac “common-gene humans” as slaves.

**The NET, “Higher & Lower Earth,” the Toral Rift,
Equinox Precession & False Yugas,
and the 2012 Alpha-Omega Alignment**

On a planetary level, the events of 13,400 BC resulted in the activation of a planetary environmental anomaly called the “NET.” The NET (Nibiruan Electrostatic Transduction field) is a multidimensional electromagnetic harness that runs through the “Van Allen Belts” in Earth’s atmosphere — and through Earth’s crust and mantle — which creates and sustains anomalous distortions within Earth’s geomagnetic field, and within the Bio-magnetic Fields that govern DNA behavior. Through the NET distortions created in the 13,400 BC period, Earth’s core resonance was altered, resulting in the first of three slight accelerations of Earth’s geographical-pole axis wobble. The slight acceleration of Earth’s axis wobble created, over a period beginning in 13,400 BC, the first of three corresponding slight accelerations of the precession of the equinox cycle from the previous 26,556-year SAC cycle, to a faster cycle of about 25,920 years (an acceleration of about 636 years). The multidimensional NET field began an unnatural acceleration of Earth-time, which progressively pulled Earth’s Templar further out of co-resonant alignment with organic Universal Time Cycles and Star-Gates, and further into alignment with a space-time-loop anomaly that occurred 5.5 million years ago (the “Wall in Time - Phantom Earth” anomaly). As a result of the 13,400 BC “Great Netting” and first wobble acceleration, Earth’s geomagnetic field — and thus the Halls of Amenti Star-Gates — came under partial control of the Illuminati and their Elder kin, and human evolution was brought to a relative standstill.

The most intensive Templar damage Earth suffered from the events of 13,400 BC was the beginning of a literal inorganic harnessing, or “Netting,” of portions of Earth’s existing multidimensional matter planes. A portion of the Amenti Star-Gates, and a portion of Earth’s Templar and three-dimensional matter-plane field, became contained within the electromagnetic harness of the NET, separated and divided from the portions of the Amenti Star-Gates and planes that were outside of the NET. This unnatural division of Earth planes created the anomaly of a “Higher” and a “Lower” Earth: both shared the same three-dimensional frequency spectrum, but the “time pulse” within that common frequency spectrum became divergent. The planes and three-dimensional matter-base that were contained within the NET field became the “Lower Earth” ; controlled by the

Illuminati NET, the geomagnetic field of “Lower Earth” engaged the first “pole wobble increase” that accelerated the “precession of the equinox” cycle from 26,556 years to 25,920 years. The planes and three-dimensional matter-base that remained outside of the NET field became “Higher Earth” or “Ascension Earth” ; biological Ascension was still possible from “Higher Earth,” because its portion of the Amenti Star-Gates and matter planes remained on the 26,556-year equinox precession cycle through which organic SAC Amenti Star-Gate opening cycles occur.

As a result of the 13,400 BC “Netting,” portions of the Earth field that were once physically manifest “seemed to literally disappear” when viewed from within the NET and its geomagnetic field harness. As the Lower Earth “NET-bound” field engaged the first 636-year “equinox precession acceleration,” and the Higher Earth field did not, the spin-speed of subatomic particles and atoms, as well as Earth’ s rotation speed, adopted two slightly different “energy vibration-pulsation rhythms,” or “time pulses.” The Lower Earth time pulse was unnaturally accelerated, while the Higher Earth time pulse remained consistent with the greater, longer, slower time pulses of the free multidimensional Universe. Space-time within the Lower Earth NET field entered a slight inorganic acceleration, contraction and compaction; Lower Earth’ s axis spin, as well as its wobble, became a little faster, causing days to shorten slightly, and making the “bulge” at Earth’ s equatorial poles more pronounced. Biorhythms of the life-field quickened, as did elemental decay rates, and the DNA of Lower Earth’ s life-field became entangled within the “magnetic grip” of the anomalous geomagnetic field generated through the NET. The territories of Higher Earth — with their slower, more expansive “time pulse” — did not experience any of these environmental or biological anomalies.

The Illuminati-Elders orchestrated the 13,400 BC “Great Netting” event as part of their much larger Templar Dominion agenda, scheduled to reach fulfillment in Earth’ s next SAC. This “Netting” technology had been used by Illuminati-Elder races many times before, literally on a galactic level; the Illuminati plan was to bring the Lower Earth NET “online” with their galactic NET system that runs through the Milky Way Galaxy and connects into the Parallel Milky Way Galaxy. In 13,400 BC, Illuminati-Elder races made great headway toward fulfilling this agenda. Humans, as we know ourselves today, have evolved forward from the point of the “Great Netting” as the unfortunate inhabitants of “Lower Earth,” under the repression, manipulation and genetic mutation of the Illuminati NET field. Since the period of the Great Netting — and the related, subsequent periods of 10,948 BC, 9562-9558 BC and 3470 BC, and up to this day — the Illuminati-Elder races and their Illuminati-Human children have retained a continual, covert presence and have engaged ongoing remote, manipulative contact and communication with Lower Earth

humanity, as they have patiently “groomed the NET races” to fulfill specific roles during the “appointment with destiny” scheduled for the next SAC “Ascension Cycle.”

Following the 13,400 BC Great Netting period, the GA-MCEO continued and accelerated their evolutionary intervention efforts, progressively returning the “12 Oral Legions of the Krysthl-a” CDT-Plate remote-translations via the Angelic Human remnant populations, while amplifying efforts of genetic Bio-regenesis reverse-mutation among all “common-gene human” “Sleeper” populations. The “common-gene mutation” affected both Angelic Human and Illuminati-Human gene lines, returning both to a state of “relative primitive innocence” — a state from which both could move forward together in their remembering of the teachings of Eternal Life Ascension, and in their healing of the “common-gene mutation” through progressive Bio-regenesis. In this regard, the Illuminati “Sleeper” populations could have the opportunity of Free Will Choice returned to them. The Illuminati-Elders had denied the Sleepers this opportunity, as the Elders were cultivating them to be only a “disposable resource” with which to win the “Templar Conquest.” Most Illuminati-Elder races did not (and do not) carry genuine love or caring for the welfare of their earthbound Illuminati children. In fact, they considered their children “inferior genetic specimens” of the Elder master-races — inferior precisely due to the Angelic Human genetic “contaminant” with which the Elders had themselves engineered their earthly Illuminati-Human offspring. Having compassion for the plight of the Illuminati-Humans, the GA-MCEO engaged the “common-gene Sleeper mutation” as an opportunity to offer these races the evolutionary option of Bio-regenesis, and through it the potential to regain their freedom from the hierarchical manipulation and imprisonment of their Illuminati-Elder kin.

The GA-MCEO option of Evolutionary Freedom and the teachings of the “12 Oral Legions” rapidly became popular among the “common-gene Sleeper humans” of both Angelic Human and Illuminati-Human descent, due to the Guardian intervention efforts following the 13,400 BC Great Netting. Through a period of small-scale rebellions that took place within both the Atlantean and Egyptian cultures, the “Sleeper slave races” regained small strongholds of control over certain Earth Templar sites — and within factions of the primary governing structures of the Illuminati-Human elite. Such “insubordination” did not settle well among Illuminati-Human Loyalists and their Elder kin. The Atlantean “Freedom Movement” was largely squelched by various Illuminati-Elder invasions of the Atlantean Islands and neighboring territories, and the Illuminati “genetic blending” agenda was forcefully accelerated among the “Sleeper” populations, but pockets of resistance to Illuminati dominion remained. The progress in Bio-

regeneration reverse-mutation that had been made by the MCEO was continually undermined through the Atlantean Illuminati actions, but it continued onward despite these setbacks. Through the local “dominion force” of their earthly Illuminati-Human children, the Elders increasingly promoted among the Sleeper populations the teachings and applications of what were called the “Metatronic Death Sciences” and Atlantean “Bloom of Doom” technologies. In 10,948 BC, progress in MCEO Bio-regeneration efforts, and in the Atlantean Freedom Movement, was brought to a standstill when the Illuminati-Elders employed massive applications of the Metatronic Death Sciences to score the second and most catastrophic victory in the advancement of their Master Plan Prime Objective.

About 13,000 years ago, in 10,948 BC, the Illuminati-Elders used the Metatronic Death Sciences to finally fulfill an objective they had been trying to achieve for millions of years prior. From the Atlantean islands of Bruah, in the southwest territories of Atlantis (which are called Cuba, Puerto Rico and Haiti in contemporary times), the Illuminati-Elders, with the assistance of their Illuminati-Human children, used Metatronic “Death Star Merkaba Vortex Mechanics” to create a set of wormholes called the Solar Time-Torus Tunnel; this wormhole set linked the core Star-Gates of Lower Earth and our Sun to the corresponding Star-Gates of Parallel Earth and Parallel Sun within the Parallel Milky Way Galaxy Black Hole System. Once the Earth-Sun Solar Time-Torus Tunnel wormhole sets were opened, they were extended into the Alpha-Omega Wormholes at the Galactic Cores of the “Alpha” Parallel Milky Way Galaxy and our “Omega” Milky Way Galaxy, opening an intergalactic space-time displacement field called the “Great Toral Rift Time Rip.” Through the 10,948 BC Atlantis center of the intergalactic Toral Rift Time Rip, the core Star-Gates and geomagnetic field of our Sun — and the NET-harnessed geomagnetic field and Halls of Amenti Star-Gates of Lower Earth — were inorganically linked to the geomagnetic fields and core Star-Gates of Parallel Earth and Parallel Sun. The Toral Rift linking of the Parallel Earth-Sun systems pulled the Templars of Lower Earth and our Sun further out of co-resonant alignment with organic Universal Time Cycles and Higher Earth Star-Gates, and into direct alignment with and subjugation to the inorganic space-time distortion cycle of the Parallel Milky Way “Alpha” Black Hole System.

Through the Toral Rift Time Rip, the space-time fields and Star-Gate opening cycles of Lower Earth, our Sun and Solar System, and the “Phantom Earth” space-time-loop anomaly from 5.5 million years ago, all became electromagnetically blended into and synchronized with the Alpha Wormhole Fall Gate opening cycles of Parallel Earth and Parallel Sun. Lower Earth and our Solar System entered the space-time anomaly of the “Illuminati Cycle of the False Yugas,” which was intended to culminate in fulfillment of the Illuminati Master Plan Prime Objective

during the next SAC. Through the Planetary Templar distortions caused by the 10,948 BC Toral Rift, Lower Earth's core resonance was again altered, resulting in the second of three slight accelerations of Earth's geographical-pole axis wobble. Over time, this second acceleration of Earth's axis wobble created the second of three corresponding slight accelerations of the precession of the equinox cycle — from the 25,920-year precession cycle of the first acceleration (in 13,400 BC), to a faster one that would accelerate in increments to become an approximately 25,771-year precession cycle by the time of the next Parallel SAC. During the 10,948 BC Toral Rift event, the time cycles, Star-Gate opening periods and precession of the equinox cycle of Lower Earth were synchronized to the control of the Parallel Earth wormhole opening cycles, which would cause the Halls of Amenti Star-Gates on Lower Earth to open prematurely in 2012 AD, as the Parallel Earth and Parallel Milky Way Fall Gate sets opened through the Toral Rift.

If the Illuminati Master Plan was successful, the period of 2012–2013 AD would bring Earth humanity to a final cataclysmic “appointment with Illuminati destiny.” During this “appointment,” our Solar System and the Parallel Solar System would engage inorganic Metatronic Death Star Merkaba Vortex dimensional-blend within the Toral Rift Time Rip, which would cause rapid “Mass Extinction” of the life-fields in both systems. Then both solar systems would be “drawn back in time” to the 10,948 BC–Atlantis center of the Toral Rift space-time displacement field, from where they would be assimilated as “raw quanta” into the Parallel Milky Way “Alpha” Black Hole System. (Detailed information on the Toral Rift, Death Star Merkaba & 2012 appointment with Illuminati destiny is found in Introductory-Topics Summary-2.)

During the 10,948 BC Toral Rift event the Lower Earth NET field and geomagnetic field engaged a partial Pole Shift, aligning with the Parallel Earth fields, which caused some climatic anomalies and a partial glacial period on Lower Earth. Yet again the Epigenetic Overlay and DNA of the Lower Earth life-field were directly affected by environmental changes in the planetary geomagnetic field. The second of three biologically induced “memory wipes” occurred, again leaving Earth humans in a primitive perceptual state, with loss of historical, practical and language memory, and the “common-gene human” mutation that began in 13,400 BC continued to accelerate.

From the time of the 10,948 BC Toral Rift event and thereafter, the life-field of Lower Earth became literally trapped within an environmentally induced cycle of artificially accelerating time, in which the Planetary Templar and Halls of Amenti Star-Gates of Lower Earth, and thus the biorhythms of its life-field, adopted the progressively shortening “False Yugas” Stellar Activations Cycle of the Parallel

Earth Fall Gates. In the structure of undistorted, organic Universal Time Cycles there are 4 Eyugha time cycles in an expansion/ manifestation period. Each of the 4 Eyugha time cycles contains 6 smaller Euiago-SAC time cycles, and each Euiago-SAC time cycle contains 6 smaller Time Continuum cycles. One of Earth' s organic Euiago-SAC Star-Gate opening cycles is 26,556 years long; one organic planetary Eyugha cycle of Earth — 6 organic Euiago-SAC cycles — is 159,336 years long. The “False Yugas” system of “Illuminati Artificial Time” is structured by charting the 25,920-year inorganically accelerating “precession of the equinoxes” — the counterclockwise cycle of Lower Earth' s geographical-pole axis wobble progression between alignment with Polaris and Vega, which occurs due to the unnaturally forced synchronization of Lower Earth' s Amenti Star-Gates and geomagnetic field with those of the Parallel Earth and Parallel Alpha Milky Way Galaxy. Charting the progression of this “False Yugas” precession cycle was, and is, important to the Illuminati-Elders, because during certain repeating periods in this inorganic cycle, direct portal access to Lower Earth territories becomes available from Parallel Earth and the Parallel Milky Way Black Hole System.

When Lower Earth and our Sun became linked to the Parallel system through the Atlantean Solar Time-Torus Tunnel and Toral Rift of 10,948 BC, Lower Earth' s orbit around the Sun accelerated slightly (shortening the organic Lower Earth “year”) and became synchronized in counter-rotation with the “invisible orbit” of Parallel Earth around its Sun; and through the wormhole links between the Solar Core Gates, our Solar System became an inorganic binary star system, invisibly tethered to the Parallel Solar System. Once the orbital rotations and Star-Gate-opening time cycles of our Solar System were forced into synchronization with those of the Parallel Solar System, the harnessed Amenti Star-Gates of Lower Earth aligned directly — at specific points in each yearly rotation of Lower Earth around the Sun — with the Alpha Wormhole Fall Gates of Parallel Earth and with the intergalactic “Alpha-Omega Galactic Core Wormholes.” Each year during the spring/ vernal and fall/ autumnal equinox periods, the Parallel Earth Alpha Wormholes would open directly into the harnessed Lower Earth Amenti Star-Gates, for a period of about two weeks, allowing for easy Illuminati-Elder passage and visitation between Lower and Parallel Earth. Each year during the winter and summer solstice periods, again for about two weeks, the Solar Time-Torus Tunnel wormholes would engage the Gates of Lower and Parallel Earth in a brief alignment with the intergalactic Alpha-Omega Galactic Core Wormholes, allowing Illuminati-Elders direct wormhole passage to Lower Earth from various regions of both Milky Way galaxies.

These “yearly periods of Communion” were used by the Illuminati-Elder races for direct interaction and cyclic “policing” of Lower Earth Atlantean, Egyptian and

pre-ancient “Sleeper human” cultures. The “False Yugas” Illuminati calendars, depicting a false “Yuga” precession cycle of 25,920 years, began first in Atlantis following the 10,948 BC Toral Rift event. These “Atlantean Illuminati Calendars” were used by both the Illuminati-Elders and their Lower Earth Illuminati-Human children to “keep track of the visitation schedules” when the Illuminati-Elders would return to Lower Earth for visitation. The “Atlantean Illuminati False Yugas Parallel Wormhole Opening Precession Calendars” were later introduced to various Lower Earth Sleeper human populations, and became the basis for the Mayan “End Times” calendar and numerous early “Pagan seasonal worship” rites.

Following the 10,948 BC Toral Rift event, and its resultant climatic and time-cycle anomalies, Atlantean culture continued to evolve under increasing Illuminati control, while MCEO□Krystal River Aquafereion races intervened through the Higher Earth portals to introduce the “Aquari-Human” hybrid lines on Lower Earth for Bio-regeneration of the failing Angelic Human gene code. In 10,500 BC Illuminati-Humans waged the “Luciferian Conquest,” during which the Atlantean Islands, and immediate control of Lower Earth human evolution, fell to complete Illuminati dominion. In 9562 BC Atlantean Illuminati-Humans overthrew the MCEO□Krystal River Aquafereion Lower Earth Templar intervention attempts in an event called the Great Encasement; in 9560 BC the Atlantean Illuminati-Humans formalized their planetary dominion plan in creation of the Luciferian Covenant “One World Order □ Atlantean Conspiracy” agenda; and in 9558 BC their Templar Conquest misadventure culminated in widespread flooding and the final sinking of the three primary islands of Atlantis. As the Illuminati Atlantean Templar Conquest progressed on Lower Earth, various factions of Illuminati-Elder races and their earthbound children engaged competing Templar Dominion agendas and resultant Lower Earth “grid wars,” each competing Illuminati-Elder group intending to control Lower Earth’s Amenti Star-Gates — and thus the intergalactic Toral Rift Time Rip — during the “2012 appointment with Illuminati destiny.”

Infighting and “raiding” of each others’ Illuminati-Human-hybrid Lower Earth race lines continued among the competing Illuminati groups until 3470 BC, when the certain factions of the Illuminati-Elder races and their Illuminati-Human children orchestrated the third of three geographical-pole axis wobble slight accelerations and the resultant shift of Lower Earth’s geomagnetic fields. This 3470 BC event, which was executed from a Lower Earth region in ancient Babylon, was referred to as the “Babble-On Massacre,” as it resulted in the third biologically induced “memory wipe” of the Lower Earth human races. The mutated “common-gene human” race lines of Lower Earth were reduced once more, via environmental electromagnetic disruption of the Epigenetic Overlay and DNA, to a primitive perceptual state with loss of historical, practical and language memory. The

“Babble-On Massacre” event was later recorded in Biblical translation as the “Tower of Babel” story. (Information on the progression of the Atlantean Conspiracy agenda and the Babble-On Massacre is found in Voyagers Volume-2, 2nd Edition.)

Following this third axis wobble acceleration of 3470 BC, Illuminati-Elder groups once again began “reeducating” the “Sleeper human” populations of Lower Earth. Using the “yearly Communion schedules” of the slowly accelerating Atlantean Illuminati Calendar “False Yugas” Parallel Wormhole Opening equinox precession, Illuminati-Elder races cyclically “policed” their “prison planet” territories of Lower Earth and periodically “mingled” with their amnesiac human captives for breeding, to systematically advance the genetic blending element of the Illuminati Master Plan. Illuminati-Elder races and their “Chosen Ones” Illuminati-Human “elite” children returned only select portions of the ancient Atlantean knowledge to the general Sleeper human populations, and misrepresented themselves to the Sleeper humans as false “Gods.” The Sleepers were taught to “abide by the seasons,” to create “stone calendars, portal temples and astronomical observatories” by which they could “chart the times and locations of the return visits of their Gods” and intermingle with them for breeding during such visitations. And the Sleepers were taught many heinous rituals of territorial grid-conquest, murder, sacrifice, perversion, copulation and possession, through which they could “seek to gain favor” from the false Gods who imprisoned them. Knowledge of Earth’s Templar Star-Gates, of Parallel Earth, of the realities of Atlantean history and race origins, and of the Atlantean Death Sciences and the Illuminati Master Plan was reserved for only an elitist “Chosen” few at any given time. The majority of Angelic Human and Illuminati-Human races alike were kept amnesiac, unaware, uneducated, subjugated, and thus easy to manipulate, misdirect and control. This is the “recent ancient history” reality from which our “known historical record” has emerged.

Certain ancient groups chosen by the Illuminati-Elders, such as the Maya, were entrusted with greater aspects of the Atlantean knowledge, as demonstrated in the Mayan “End Times” calendar. This ancient calendar “prophetically” depicted the “2012 End Time period,” when the inorganically synchronized Star-Gate/wormhole False Yugas cycle of Lower and Parallel Earth would culminate in the Gate-sets of Lower Earth, our Sun and the Parallel Earth and Sun aligning with and opening into the Alpha-Omega Wormholes in the Galactic Core of both Milky Way galaxies. This “Intergalactic 2012 Alpha-Omega Gate Alignment” was designed to bring our Solar System and the Parallel Solar System into inorganic Metatronic Death Star Merkaba Vortex dimensional-blend within the 10,948 BC Toral Rift Time Rip center, in fulfillment of the Illuminati Master Plan Prime Objective. As the

Illuminati–Elder races and their elite “Chosen Ones” progressed with their hidden Templar Conquest and Sleeper human “Disinformation Reeducation Program,” the GA–MCEO and Krystal River Guardian races also continued intervention efforts from the territories of Higher Earth and other regions within the Universal Free Worlds System.

The Guardians’ “12 Oral Legions of the Krysthl–a” were once again reawakened to return the teachings of the CDT–Plates to the “common man” human race lines who upheld the treaties of the Emerald Covenant, and several other written CDT–Plate partial translations were rendered in various languages and cultures following the 3470 BC “Babble–On Massacre” event. A history of “human warring and conquest” progressed, and continues into our present time, with the real reasons for the incessant fighting and bloodshed completely hidden to all but a few within the ranks of the Illuminati Chosen Ones, who continue in the roles of their predecessors as directors of these planetary events. Meanwhile, a historical “hodgepodge” of ancient myths, deceptions, partial truths and partial falsehoods has emerged as the “factual spiritual and scientific reality base” upon which all of our known historical cultures and our present “public” views of reality have been built. Regardless of what we choose to believe or not believe about the realities of “what has come before,” our planet is currently facing its long–planned “2012 appointment with Illuminati destiny” — which will directly affect the evolutionary potentials of every life–form on our Lower Earth.

Contemporary MCEO Vision

It may seem that humanity has been victimized by the hidden historical events of 13,400 BC, 10,948 BC, 3470 BC and related periods, but from a “higher perspective” these events can be viewed as a long cycle of evolutionary learning that Angelic Humans and the Illuminati Force have shared and co–created together. Behind this “learning cycle” there is a “greater purpose” that benefits the greater spiritual and biological evolution of both race lines, and many other races within the Universe who are “watching.” Part of this “greater purpose” involves the “new common–gene human” blended genetic code, the result of the common DNA mutation that began its evolution into expressed fruition in the 13,400 BC period. As the Angelic Human genome suffered a progressive loss of the original “Diamond Sun Star–Gate DNA Coding,” the various Illuminati–Human genomes gained more of the “Diamond Sun” structure. And though this “common–gene” created vulnerabilities and potential loss of Ascension ability among the Angelic Human races, it also presented an opportunity for the Angelic Human Guardian races to give a gift to the Illuminati–Human races. In gaining portions of

the Angelic Human Diamond Sun DNA Codes, the Illuminati–Human races received the gift of potential freedom from the hierarchical control of their Illuminati–Elder kin — and therefore a return of their potential for genetic Bio-regeneration, through which the “Original Source Gift” of Eternal Life Evolutionary Ascension could be regained. The Free Will Choices historically made by both the Angelic Human and Illuminati–Human “common–man races,” and most especially the Free Will Choice that is made during the “2012 appointment with Illuminati destiny,” will determine whether this “Gift of Freedom” comes to manifest fulfillment.

At present, as our planet engages its “2012 appointment with Illuminati destiny,” our dominant human mass belief systems collectively work more to further obscure any knowledge of the ancient truths of Ascension than they do to reveal any potentiality of empowerment. However, the solution to this “current dilemma of human evolution” is not to focus extensively on deciphering the Common Bed of Falsehoods that permeate our mass worldviews, but rather to focus on identifying the Common Seeds of Truth through which the falsehoods can be overcome. It is for this purpose that the GA–MCEO and Krystal River Adashi Adepts are currently returning to the human public a written remote–translation of the CDT–Plate teachings that have so long been denied. Through these teachings, humanity is offered the opportunity to come to know and remember itself, and in knowing itself, humanity can find the truth through which it can set itself free during the “2012 appointment with Illuminati destiny.” And it is because of this inherent promise of potential freedom that the contemporary MCEO CDT–Plate remote–translations are referred to as the MCEO Freedom Teachings□. As the CDT–Plates and Maharata Texts represent the “Common Source” from which all Earth religions originally emerged, the “Promise and Potential of Genuine Ascension,” and the responsibility as Earth Templar Guardians, is the Common Evolutionary Birthright of the Angelic Human species, and of the Illuminati–Human species that now co–shares the Angelic Human gene code. Thus the contemporary remote–translations of the MCEO CDT–Plate/ Maharata Text teachings represent the ancient heritage of all religions and peoples on contemporary Lower Earth, whether or not any human recognizes this reality.

Though it emphasizes the “Common Seeds of Truth” through which humanity is united, the MCEO vision is not that of a “One World Doctrine” — this is the intention of the Illuminati state, within their greater agenda of “One World Order” global Templar Dominion. The MCEO teachings rather promote the vision of “Unity Through Complementary Diversity,” in which the peoples of all world religions might choose to adopt a perspective of mutual respect for each other, and together recognize the unique “seeds of genuine truth” each have been entrusted

to protect. With recognition of the “Common Source” from which each “seed of Sacred Truth” emerged, and of the complementary diversity in the teachings that each of the original 12 CDT-Plates contain, humanity could take a “giant leap forward” in extracting itself from the covert controls of the contemporary global Illuminati Force. The Illuminati Force, in its quest for Earth Templar Dominion and fulfillment of its 2012 Master Plan Prime Objective, continues to manipulate behind-the-scenes agendas that “pit human against human” in futile defense of “divided concepts of God and science.”

If it could be recognized that most of the “followers” of all religious AND scientific paradigms are in actuality seeking harmonious, peaceful, empowered reunion with that “mysterious Source of All Creation” — what humans have come to call “God, Gods or No-God” — perhaps it could also be recognized that there is this common objective within all traditions. With this recognition, qualities of mutual respect, a sustainable life-giving attitude of “mutual harmlessness,” and a growing spiritual maturity of “reverence for the Common Source within all things” could evolve within the collective human psyche. And with such evolution, freedom from the pain and suffering generated through the competitive “control games” of the Illuminati consciousness, and freedom from the 2012 Illuminati Master Plan, could be attained. This “ideal Vision of Healing” is not likely to occur any time soon within the Illuminati-directed mass psyche of contemporary Earth humanity; but it remains a “Vision of Hope and Awakening” that is the basis upon which the “Krystic Free Worlds” of space-time are organized, and upon which the MCEO Freedom Teachings□ stand. The GA-MCEO and Krystal River Adashi Adepts will always respect the Free Will Choice of all beings, even if that gift is being used in highly misguided ways. They are not here to “save the world,” nor to “play savior” to a faltering humanity. They are simply here to remind us of the greater truths recorded within the CDT-Plates, and to assist those of us who choose to care, in rediscovering and reawakening the potentials of Genuine Transfigurative Ascension that still reside dormant within us.

Contemporary CDT-Plate Translations, Current Earth Drama & the 6520 AD Welcome Station

The contemporary re-translation of the Maharata Texts and direct translation of the CDT-Plates began in 1997 through MCEO Speaker-1, Ashayana Deane; the beginning translations were published in 1999 by Granite Publishing (then Blue Water Publishing/ Wild Flower Press) as the “Voyagers books” (Volume-1: The Sleeping Abductees and Volume-2: The Secrets of Amenti). CDT-Plate translations

have progressively been provided to MCEO Speaker-1 and presented in MCEO Freedom Teachings □ workshop dispensations between 2000 and 2009; translations are ongoing. Since the 1999 first release of the Voyagers books, work with the interdimensional Guardian Alliance (the numerous early GA contacts are named in the Voyagers books) has continuously intensified and expanded to include the elder trans-dimensional Krystal River Councils of Aquareion □ Adashi Adepts (the Elder Councils of which the GA-MCEO is part). The Krystal River Councils of Aquareion include the EyanA, AdonA, Haah' -Tur, Aquafar' E, ZionA and Aquai from our Milky Way Galaxy in our 15-Dimensional Universe; the Bhendi Aquari, Aquafereion, and A' quA-elle from the M31-Andromeda/ Aquinos Galaxy in our 15-Dimensional Universe; the Mashaya-Hana Councils from a neighboring 15-Dimensional Universe called Aquareion; and many others within and beyond our 15-Dimensional Universal Time Matrix. The Krystal River Councils □ Adashi Adepts are the Elder Councils and guiding force for all GA-MCEO collectives.

The contemporary (beginning in 1997) translations of the MCEO CDT-Plates contain the history records and related spiritual-science "Ascension" teachings of our "local" 15-Dimensional Universe. Due to escalation of events in the current planetary drama, in 2007 the Krystal River Councils of Aquareion □ Adashi Adepts expanded the translation contract of MCEO Speaker-1 to include translation of data from the KUmA' -yah Al-humbra Crystal Discs, which contain the extended history records and related advanced spiritual-science "Ascension" teachings of the M31-Andromeda/ Aquinos Galaxy in our 15-Dimensional Universe and the neighboring Aquareion 15-Dimensional Universe. Translation and public teaching of appropriate aspects of the CDT-Plates and KUmA' -yah Al-humbra Crystal Discs continues through MCEO Freedom Teachings □ workshop dispensations, and will feature in future books.

In a very short time, the biological potential for Transfigurative Ascension — and the corresponding potentiality of biological Transmigration back to Higher Earth — will be permanently lost to the general masses of the Earth-human species, due to environmental anomalies that will occur on Earth in 2012 □ 2013 AD as a result of advancement of the Illuminati Master Plan. Regardless of what we choose to believe about humanity' s past or current evolutionary potentials, the "period of significance" to which the Illuminati Master Plan Prime Objective has long been directed became the hidden reality of our times with the onset of Earth' s 2000 AD SAC (Star-Gate opening cycle). The "Saving Grace" for the continued evolution of contemporary Earth humanity is the fact that the manifest planes and life-fields of "Higher Earth" still exist to this day. The Higher Earth territories have evolved, since their consequential formation in 13,400 BC, in a much more "positive" direction, as part of the "Universal Free Worlds" community — free from the

Illuminati manipulation and genetic mutations suffered by the inhabitants of Lower Earth. Since the 13,400 BC period of the “Great Netting,” MCEO□Krystal River Guardian races have continued both direct and remote intervention efforts within the Lower Earth territories; many of them communicate with us today from various space-time positions in the Higher Earth territories and “Free Worlds” intergalactic locations.

The Higher Earth and “Free Worlds” galactic territories beyond the Illuminati NET field exist as tangible, “three-dimensionally physical” versions of Earth and the Milky Way Galaxy, that are “just as real” as our currently known “Netted” Lower Earth and galactic territories. The Higher Earth and Free Milky Way Galaxy territories exist “in the same space” as our currently known system, but at a different “angular rotation of particle spin” and different particle-spin-speed, and thus the two interconnected reality systems appear invisible to each other. The Higher Earth territories share a common past with our Netted Lower Earth up to the point of 13,400 BC; following that time, the Higher Earth planes evolved in freedom, whereas our Lower Earth planes evolved under increasing Illuminati manipulation. Since 13,400 BC, the primary Templar Star-Gate Ascension Passages of Higher and Lower Earth have remained closed, but still interconnected — the potentiality of their opening awaiting the 2012 “appointment with Illuminati destiny” ; smaller secondary Higher Earth Time Portals have been periodically opened for purposes of Guardian intervention during Lower Earth crisis periods. Since the current SAC began in 2000 AD, Guardian races have been intervening directly from numerous “Free Worlds” locations within and beyond the Milky Way Galaxy, including the Higher Earth territories — most especially those located in the “future space-time” coordinate of Higher Earth 6520 AD.

In this concurrently existing 6520 AD “future-time” Higher Earth location, highly specialized cultural and environmental healing structures have evolved, from which Guardian “space-time travel” intervention into “distressed” “past, present and future” space-time locations is initiated. The original Guardian contact through which the contemporary CDT-Plate Speaker-1 Contract emerged, was launched from the Center for the Advancement of Interdimensional Communication (CAIC). The CAIC is a very “physical” bustling Higher Education Complex located on 6520 AD Higher Earth, in an area corresponding to the space-time coordinates of present-day Kauai, Hawaii on Lower Earth. There are many other highly evolved establishments on 6520 AD Higher Earth that specialize in various aspects of intervention into distressed territories like those of present-day Lower Earth. The Higher Earth territories of 6520 AD are the “Saving Grace” for contemporary Lower Earth human evolution, for in these territories of space-time, highly developed Transmigration Settlements, or “Ascension Colonies,” have been long

established. The Ascension Colonies of 6520 AD Higher Earth, which exist in numerous locations across the planet, are the “local welcome stations” for beings from Lower Earth and the local Milky Way Galaxy that accomplish biological Transfigurative Ascension and emerge into the next stage of Eternal Life Higher Evolution through Ascension Passage “Slide” Transmigration. The Ascension Colonies of 6520 AD Higher Earth are also the “next-evolutionary-stop” living communities into which beings who accomplish Ascension through Bhardoah “death-transition” spirit-passage from Lower Earth and local systems will rebirth/reincarnate, to continue on their path of Eternal Life Higher Evolution.

Since its 13,400 BC separation from the Netted Lower Earth territory, the Higher Earth territory has been intentionally protected, nurtured, evolved and designed by races of the Guardian Alliance and Krystal River Councils of Aquareion to become one of the “Planetary Ascension Colony Welcome Stations” through which the potentials of Eternal Life Ascension would remain available to the inhabitants of Lower Earth and the local Milky Way Galaxy. The primary Templar Star-Gates interconnecting 6520 AD Higher Earth and present-day Lower Earth will open between 2012 and 2230 AD for potential “Slide” Ascension Passage by those of Lower Earth who can retain and awaken the genetic potential for biological Transfigurative Ascension □ Slide-Transmigration through the duration of the planetary environmental anomalies that will occur on Lower Earth from 2012 □ 2013 AD. For those who do not retain this genetic potential throughout the environmental changes of 2012 □ 2013 AD, the option of Hosted Bhardoah Ascension spirit-passage will remain available till the end of the 2012 □ 2230 AD period. Following 2230 AD, the primary Templar Star-Gates between Higher and Lower Earth will permanently close, and Ascension Passage from Lower Earth into the Higher Earth path of Eternal Life Higher Evolution will no longer be possible.

The contemporary MCEO teachings are currently focused on assisting people of the Lower Earth territory to better understand the massive intergalactic drama within which their planet is ensnared, so that individuals may make more intelligent, informed Free Will Choices regarding the potentials of personal evolutionary destiny — before the environmental anomalies resulting from the “2012 planetary appointment with destiny” make those choices for them. The contemporary MCEO teachings will progressively assist individuals who so choose to prepare themselves for the realities of Transmigration via Star-Gate Ascension Passage, through which they may join the advanced eternal-life civilizations of the “future-time” 6520 AD Higher Earth Ascension Colony Welcome Stations. Such preparations will begin with fostering a personal communicative relationship of “Reciprocal Exchange Contact” between Lower Earth territory humans desiring Transmigration, and trained Guardians from the 6520 AD Higher Earth Center for the Advancement of

Interdimensional Communication and related Guardian service organizations.

“Reciprocal Exchange Contact” simply means that the Guardians will assist and interact with only those humans who desire this contact — and who demonstrate this desire by being willing to work with the MCEO teachings the Guardians have provided — to develop skill in Keylontic Communication, and to engage the Bio-regenesis healing that is biologically required for Genuine Star-Gate Ascension Passage. The Guardians will reciprocate the degree of effort and sincerity put forth by the human contact; they do not intend to “play our saviors,” but will gladly assist us in “saving ourselves” from mass evolutionary events that we might personally choose to avert if we were empowered to know the difference. The choices are ours; the Guardians’ intention is to empower us with the knowledge through which we can make our choices wisely. Through understanding the historical and contemporary origins of the MCEO teachings, we are presented with the opportunity to make more informed Free Will Choices, as our species’ “Collective Time of Evolutionary Reckoning” unfolds and we engage our long-awaited “appointment with destiny” at the end of 2012.

Information on Reciprocal Exchange Contact, advanced Bio-regenesis and preparing for Transmigration Ascension will be found in our forthcoming book, 2012 □ Life After Earth: Orb Whisperers and the Silver Seed Awakening, due for release late summer 2010. New information on the “2012 appointment with destiny,” the Illuminati Master Plan & Atlantean Death Sciences, and the Guardians’ “Ascension-Sliders Load-Out Mission” is found in Introductory-Topics Summary-2.
