

Ski for Water

They can't stop us
Let 'em try!
For waterskiing
We will fly!

Quit my job this morning, said forever
I would hold my handle high
'Cause I need skiing in my life
Just like an eagle needs to glide

So I walked outside into the sun
From the lake I heard, engines run
Yeah!
I walked down so I could see
And the boat beside me, waved to me

He had his ski rope in his hand
And called me brother, said "my crew is on the sand"
They call themselves the riders
They're the truest of the true

And in that very moment
I was born again like you!

They said, hold your handle high
Raise your ski up in the air
Cut water, faster than hell!
Faster than hell!

They can't stop us
Let 'em try!
For waterskiing
We would fly!

Brothers! Stand beside me, there's a wake to cross
Know my words are true
Now there's a battle for true skiing
They're carving, they're carving on, me and you

Ten thousand strong are here today
With twenty thousand wakes spraying the bay (Yeah!)
The power of true skiing's calling you
It's everywhere

Hold your handle high
Raise your ski up in the air
Cut water, faster than hell!
Faster than hell!
Faster than hell!

They can't stop us
Let 'em try
For waterskiing
We would fly!
Yeah!
Yeah!
Yeah!
Yeah!

(guitar solo)

Hold your handle high
Raise your ski up in the air
Cut water, faster than hell!
Faster than hell!
Faster than hell!

They can't stop us
Let 'em try
For waterskiing
We would fly!

Hold your handle high
Raise your ski up in the air
Cut water, faster than hell!
Faster than hell!
Faster than hell!

They can't stop us
Let 'em try
For waterskiing
We would fly!

Hold your handle high
Raise your ski up in the air
Cut water, faster than hell!
Faster than hell!
Faster than hell!

Hold your handle high
Raise your ski up in the air
Cut water, faster than hell!
Faster than hell!
Faster than hell!

They can't stop us
Let 'em try
For waterskiing
We would fly!
