GREG MORTIMER DESCRIPTION

One of the most advanced expedition ships in the world, the 132-passenger Greg Mortimer (named after the well-known Australian mountaineer and explorer) was built to world-class polar standards with the most up-to-date safety and nautical technology. Her unique, inverted bow allows for more gentle sea crossings, improved comfort, and reduced emissions. The ship has an impressive list of environmentally friendly features—her Tier 3 engine gives off 80% less emissions than Tier 1 engines, she has a high

fuel efficiency, reduced light pollution, lower plastic use, and state-of-the-art anchoring technology that allows the ship to hold its position without disturbing the sea floor. All cabins have private bathrooms, ample storage, ocean-view windows, individually controlled air-conditioning and heating, and most have private balconies. There are also interconnecting stateroom options for families and groups. Onboard observation points are a key feature for optimal wildlife viewing. These include a 180-degree indoor lounge, a 360-degree outdoor open viewing deck, a sun deck, and two hydraulic viewing platforms on Deck 5. Meals are served in the dining room that can accommodate all guests at one seating, and coffee, tea, and snacks are available around the clock. Guests can enjoy presentations in the lecture room, two bar/lounges with floor-to-ceiling windows, a library, and wellness center with fitness equipment, and sauna. The ship carries a fleet of 15 Zodiacs, kayaks, and diving and climbing equipment. See our [website](#) for more photos and cabin descriptions.

SYLVIA EARLE DESCRIPTION

The recently launched *Sylvia Earle* is a floating ambassador for the conservation of the planet. Paying tribute to Dr. Sylvia Earle and six pioneering conservationists, she is certified 100% Climate Neutral, with a fully equipped Citizen Science Center, expert lecturers, and participative citizen science programs that enrich your knowledge and connection to the places we travel to. With an average of 130-140 expeditioners, the aim is to get you off ship experiencing the natural environment as much as possible, and smaller groups also mean you tread lightly, making a positive impact on the environment. Amenities onboard include a state-of-the-art lecture theater, science center and lounge,

dining room, bars and lounges, library, sun deck with two Jacuzzis (and amazing views of the passing scenery), sauna, spa, and gym, and the cabins and suites are well appointed and comfortable.

See our [website](#) for more photos and cabin descriptions

SEAVENTURE DECK PLAN & DESCRIPTION

You'll voyage aboard the MS Seaventure, an ice-strengthened expedition ship with all outward-facing staterooms, a library, fitness center, sauna, small clinic, two elevators, and a dining room with picture windows. The ship carries 139 to 149 guests, creating a more personal experience on board, including the opportunity to spend time with guests and expedition team. Her small size allows the vessel to maneuver and anchor close to shore, where larger ships cannot go. All Seaventure cabins include a comfortable sleeping/living area with a small sofa or chair, shower, hairdryer, bathrobe and slippers, spacious wardrobe, flat-

screen television, and DVD player. A warm parka and boots are available for each guest for the duration of the trip, and a fleet of Zodiacs is available for forays into the realm of the icebergs.

SEA SPIRIT DESCRIPTION

One of the most spacious and luxurious expedition vessels in operation, the Sea Spirit carries a maximum of 114 guests in all outside-facing suites with marble-appointed bath facilities, picture window or portholes, walk-in-closet or wardrobe, in-room safe, refrigerator, and satellite telephone access. All cabins have TV/VCR and individually controlled thermostats. This outstanding expedition vessel offers two large lounges, fine dining, a hot tub, library, gym, and elevator access to all passenger levels. In addition to the team of guest lecturers, the Sea Spirit has a resident photographer to assist on deck and on shore. A fleet of sturdy inflatable landing crafts is used for shore excursions.

FUEL SURCHARGES

Because the prices published by cruise operators are set so far in advance of the trip dates, they are occasionally faced with exceptional cost fluctuations due to increase in fuel costs that affect the actual cost of running the trip. In most years, no price changes are necessary. However, they do reserve the right to raise or lower the trip price if there is a significant change in costs. If this is the case, your final invoice will reflect the difference in trip cost.
