Costa Rica, a tropical realm of cloud forest, mangroves, volcanoes, and pristine beaches, has wisely protected its natural bounty in parks and reserves that are now world famous. With our expert naturalist Trip Leader, we head out for walks in Monteverde Cloud Forest Reserve, follow hanging bridges high in the forest below Arenal Volcano, and soar by zip line. In Tortuguero National Park, one of the last large areas of tropical rainforest in Central America, we glide through waterways that shelter fascinating wildlife, from manatees to three-toed sloths. Charming lodges give us a warm welcome in this natural wonderland.

DAY 1 SAN JOSÉ

Late evening arrival in San José, capital of Costa Rica, where you will be met and transferred to the Hotel Bougainvillea, set among 10 acres of lush tropical gardens in San José’s residential district of San Domingo de Heredia...Meals on your own

DAY 2 MONTEVERDE / EL REFUGIO RESERVE

We enjoy a Welcome Breakfast and a trip orientation at 7:00 am this morning in San José, then head out for a drive up into the highlands to the spectacular Monteverde Biological Cloud Forest Reserve. This world-famous reserve, set at 4,600 feet in the Tiláran Mountains straddling the Continental Divide, was founded in 1951 by a small group of Quakers from Alabama, attracted to Costa Rica by its lack of an army and its peaceful policies that matched Quaker philosophy. They bought land and brought dairy farming and cheese production to the region (today, Monteverde’s cheese is sold throughout the country). They preserved about a third of the land they purchased to protect the watershed above Monteverde, and in 1972, after visiting biologists noted the richness of the flora and fauna, the Quakers turned it into Monteverde Biological Cloudforest Reserve, owned and operated by the Tropical Science Center of San José. After settling into the Monteverde Lodge, we’ll explore the grounds with our guide. The gardens are teeming with plants like tree ferns, bromeliads, and anthuriums, as well as several varieties of orchids, agapanthus, and hydrangeas. In addition to butterflies and a wide variety of birds, it’s not uncommon to see mammals like white-nose coatis, agoutis, and white-faced capuchin monkeys. On a night tour this evening, we’ll head to the nearby El Refugio Reserve to walk along the trails with a naturalist who will point out sleeping birds and nocturnal animals. Wildlife is unpredictable, but with our well-versed guide we may spot armadillos, scorpions, two-toed sloths, porcupine, bats, frogs, and many others. Regardless of what you see, the experience of walking in the forest after dark

is unique. Overnight at Monteverde Lodge...BLD

Driving Time: About 4.5 hours

DAY 3 MONTEVERDE BIOLOGICAL CLOUD FOREST RESERVE

We enjoy a full day at Monteverde, one of the outstanding nature reserves in the New World tropics. In this “cloud forest,” the forest floor is carpeted in fern, mosses, and shade-loving plants, while high above is a thick, green canopy made by the branches of tall trees reaching for sunlight. More than 400 species of birds reside here, including toucans, tanagers, barbets, and bellbirds. The most famed is the resplendent quetzal (*Pharomachrus mocinno*), sacred and imperial bird of the Mayas and Aztecs and the largest member of the trogon family. This magical avian, with its iridescent green plumage and crimson breast, is found only in certain high-altitude cloud forests in Central America. We enjoy guided walks on the forested paths of the reserve, some raised on wooden platforms, and visit the local butterfly garden (the Jardín de las Mariposas), with its gardens, greenhouses, and netted flyway. About 40 species of butterflies are represented in this garden. Time permitting, we may visit one of the local craft collectives in the area. Overnight at Monteverde Lodge...BLD

DAY 4 HIKE IN MONTEVERDE OR OPTIONAL ZIP LINE TOUR / VOLCÁN ARENAL

In the morning we can either do a hike in Finca Ecológico, a private nature reserve just a 10-minute walk from our lodge, or an exhilarating zip line tour in Monteverde (optional, at an

additional cost of \$95 per person), where we'll see the cloud forest from a whole new perspective. Later, we make a scenic journey to Arenal, first by 4WD vehicle, then by private boat across Lake Arenal, where we have our first views of Volcán Arenal, the most active volcano in Costa Rica. A perfect cone shape emerging 5,300 feet from gentle green hills, Arenal first became active in 1968 when it erupted in a spectacular fashion. Our overnight is at the Lost Iguana Resort, nestled among 120 acres of primal rainforest overlooking the mountain... BLD

Driving Time: 3 hours; Boat Travel: 30 minutes

DAY 5 ARENAL / HANGING BRIDGES / LA FORTUNA WATERFALL OR ARENAL HIKE / HOT SPRINGS

This morning we walk on a series of spectacular hanging bridges that give us access to the high rainforest canopy—a great way to enter the world of towering, orchid-draped trees in a 600-acre primary forest reserve. There are six bridges that lead us deep inside the canopy habitat. Views of Arenal can be particularly striking from these bridges. In the afternoon, we offer a hike through forests and meadows to the base of the spectacular, 200-foot-high La Fortuna Waterfall—the adventurous among us can take a refreshing dip in the cool waters below it—or take a hike along an old lava field that brings us close to Arenal. This afternoon, we head to a volcanic hot spring in a beautiful natural setting complete with thermal pools and a waterfall. It's a great place for an optional soak, and later we savor a typical Costa Rican dinner here. Overnight at Lost Iguana Resort...BLD

DAY 6 TORTUGUERO NATIONAL PARK / TORTUGA LODGE

A beautiful early morning drive brings you across Costa Rica's lush countryside, passing through villages, small farms, and banana and coffee plantations (we'll stop for breakfast along the way). Arriving at the Caño Blanco dock, we journey by boat (1.5-2 hours) with our guide to Tortuguero National Park, a natural history wonderland of coastal forest and inland waterways. Our overnight is at the lovely Tortuga Lodge, set on 50 private acres along a river. After lunch at the lodge, we visit Casa Cecropia, where we'll learn about the history of chocolate, how it's produced, and even participate in the chocolate-making process, from tasting cacao beans to roasting and grinding them, and seeing how the delicious chocolate elixir is produced. We will also have options to visit the tiny village of Tortuguero and the park headquarters, as well as the Green Turtle Research Station, where turtle migration and behavior have been studied since 1962 (the longest running continuous study of its kind in the world). The beach at Tortuguero is the most important seasonal nesting site of the endangered green sea turtle in the Western Hemisphere. Huge green turtles nest here in large numbers between July to October, and if you are here at this time, it's a spectacular experience to watch them laying their eggs or see the eggs hatching. Although Tortuguero's green turtles may wander as far as Florida and Venezuela to feed, none of the more than 28,000 turtles tagged at Tortuguero has ever been found to mate and nest at any other beach. Leatherback turtles also nest here, in smaller numbers, as do hawksbill turtles....BLD

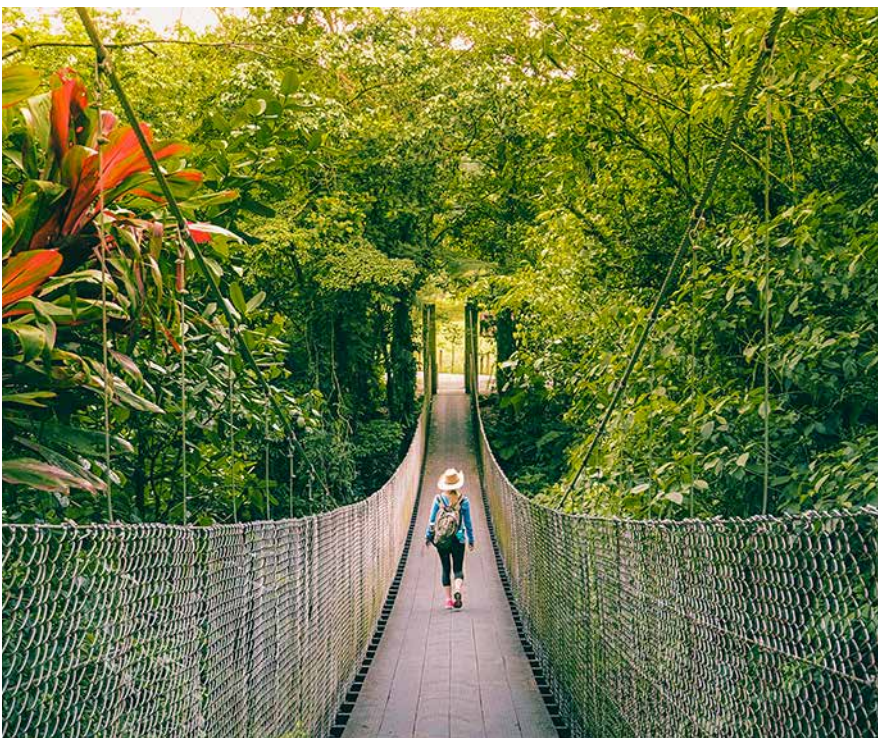

Driving Time: 4 hours; Boat Travel: 1.5-2 hours

DAY 7 TORTUGUERO NATIONAL PARK / TORTUGA LODGE

Tortuguero National Park protects one of the last large areas of tropical rainforest in Central America. On our memorable morning and afternoon of boating in its secluded waterways and blackwater canals, we may see six-foot-long gar fish, turtles, manatees (an endangered species), crocodiles, caimans, river otters, and sloths, along with howler, spider, or white-faced monkeys. More than 320 species of birds have been recorded in the park, including all six species of kingfishers found in the New World, three species of toucans, eight species of parrots, and other neotropical species such as the slaty-tailed trogon, white-collared manakin, purple-throated fruitcrow, and white-fronted nunbird. Both wildlife boat tours visit different parts of the national park waterways. You can have the option to rest this afternoon or discuss with your guide about the possibility of booking a different tour at additional cost. In the evening, we gather for a festive Farewell Dinner. Overnight at Tortuga Lodge...BLD

DAY 8 RETURN TO SAN JOSÉ / DEPART

From the Tortuguero airstrip, we fly after breakfast to San José and transfer to the international airport for homeward-bound flights. Or you can extend your stay in Tortuguero, join our optional extensions to the Corcovado Rainforest on the Pacific Coast or the Pacuare Lodge & River Rafting Extension...B

Pacuare Lodge & River Rafting Extension

The perfect extension to your adventure in Costa Rica—a stay at Pacuare Lodge, a wonderfully remote eco-hotel set on the banks of the Rio Pacuare, one of Costa Rica's top whitewater rivers. And what better way to arrive there? By raft, of course! The Rio Pacuare courses through a beautiful granite canyon lined with cascading waterfalls and lush rainforest vegetation. With exhilarating rapids and spectacular scenery, it's a rollicking ride and offers tons of excitement for the adventurous traveler (not to worry—previous rafting experience is not necessary). Once at the lodge, take your pick of a variety of exciting nature- and cultural-based excursions, from guided birdwatching tours and waterfall hikes to zip lining through the tropical rainforest canopy.

DAY 1 SAN JOSÉ / RIO PACUARE RAFTING

After an early morning pickup from your hotel in San José, drive toward the town of Turrialba, with a typical Costa Rican breakfast en route. Once at the put-in on the Pacuare, a rafting orientation with your river guides sets you up for a couple of hours of unbelievable fun. Side creeks cascade into quiet pools of the river while iridescent blue morpho butterflies whirl around you, their wings winking in the sunlight. You'll paddle, splash and float your way on Class I-III rapids to Pacuare Lodge, where more fun experiences await you. Accommodations are in Garden Suites, which include a private terrace with hammock and sitting area, king size or two full size canopy beds, and en suite bathroom with indoor and outdoor showers. Dinner and overnight at Pacuare Lodge...BLD

Note: Minimum age for rafting is 12. Arrival by land (via 4WD vehicle) or helicopter (at additional expense) is also available if you don't wish to raft. Call us for the details.

DAY 2 PACUARE LODGE

The lodge offers a variety of optional activities, including—but not limited to!—the following (note: minimum age is 12 for most excursions, 9 for easier activities):

- Early morning guided birdwatching tours, right on the lodge's grounds. Enjoy a cup of coffee before you head out, then return to the lodge for breakfast afterwards.
- A variety of hikes, from a moderately challenging hike to visit a clan of the indigenous Cabécar people (4-5 hours) to an easy loop hike (1.5 hours) that ends with a refreshing splash in a local waterfall.
- Most of the action in the rainforest is up in the treetops!

Experience it all with a zip line offering dramatic views, exotic birdlife, rappelling down trees, and sliding on cables from tree to tree (2 hours).

- Feeling fit and adventurous? Try canyoning, combining rock climbing, rappelling a rock face, descending a waterfall—all in the lush environment of the rainforest (2.5 hours).
- Or just take it easy—relax at the lodge's infinity pool or indulge in a soothing spa treatment.

Overnight at Pacuare Lodge...BLD

DAY 3 RETURN TO SAN JOSÉ

Once again, board rafts and head through the Pacuare's Class III-IV rapids to the town of Siquirres (this is a more challenging part of the river). You can return to San José by vehicle if you do not choose to raft this harder section, arriving at your hotel around 6:00 pm. End of services...BL

If you want to know what the Pura Vida lifestyle looks like, look no further than Federico Alban. Though he lived in Spain, Israel, and the United States from age seven to nineteen, Federico is a Costa Rican local at heart and welcomes Wilderness Travel guests to experience all the country has to offer. He has led trips for us since 2003, and says, "Costa Rica is all about the Pura Vida lifestyle. When guests leave, they are not guests anymore, they are now friends." Federico completed a BA in natural resource management from Universidad Estatal a Distancia. When not guiding, he can usually be found riding his mountain bike or photographing wildlife, two of his favorite pastimes.

WILLIAM GRANADOS

He is an avid photographer and has a background in natural resource management, hotel and restaurant management, agricultural engineering, and is a member of the Costa Rican Association of Ornithologists. "I really enjoy introducing visitors to my native land and revealing the real Costa Rica," says William. "Along the way, I always look for fun and unique learning opportunities." When he's not guiding, William enjoys reading, cooking, and gardening at home with his wife.

What the Trip is Like

WHAT THE TRIP IS LIKE

The trip is Level 2, Easy to Moderate, according to our trip grading system. Wildlife viewing takes place during nature walks on mountain rainforest trails and on lagoon trips by boat. The walks are about two to four miles, covering a variety of terrain and usually on well-marked trails. There is no extensive hiking on the trip, but you should be in good physical shape to enjoy it to the fullest. Accommodations range from a modern hotel in San José to charming wildlife lodges. The Corcovado Extension and Pacuare River Rafting Extension are Level 3, Moderate.

WEATHER

The temperature in Costa Rica does not change drastically with the seasons. Lowland areas are warmer, while in the mountains, it is cooler, especially at night. If you are sensitive to the cold, bring a warm layer for cold early mornings and evenings, especially in the winter months, when it can be quite chilly. On the Pacific Coast and in the highlands, the rainy season begins in late May and ends by November. Mornings are usually bright and sunny, with typical afternoon rains that come as short downpours. December through April is the dry season, but Costa Rica is tropical so you can expect some rain at any time of the year.

CHOOSING THE RIGHT TRIP

YOUR SECOND TRIP

A top quality Wilderness Travel insulated stainless steel water bottle by CamelBak and a cozy Wilderness Travel fleece vest by Patagonia (\$130 value).

YOUR THIRD TRIP

YOUR FOURTH TRIP

Discounts on the cost of your trip begin! You receive a 4% discount on the tour cost.

FIVE AND MORE TRIPS

You receive a 5% discount on the base trip cost. On your sixth trip, you receive a 6% discount, and so on up to your 10th trip. The maximum discount is 10%, with a ceiling of \$500.

Note: Due to special pricing considerations, Toucan Club discounts do not apply to our Private Journeys or Special Events. However, your participation on these trips does count toward your Toucan discount on future departures of Wilderness Travel's regular adventures.

TERMS & CONDITIONS

Toucan Club travel discounts cannot be used in conjunction with any other discount, unless otherwise specified. Discounts are deducted from the base trip cost and shown on the final invoice. The base trip cost is the main land/tier cost and does not include single supplement fees, extensions, internal airfare, or other additional charges. Bonus gifts (T-shirts, luggage tags, vests, water bottles, and pullovers) will be mailed approximately three weeks prior to trip departure. Terms and conditions of Toucan Club bonuses are subject to change or cancellation at the discretion of Wilderness Travel, Inc.

Please be advised that California has established a Travel Consumer Restitution Fund under the California Seller of Travel Law that took effect January 1, 1996. This fund is designed to protect consumers from unscrupulous practices by discount airfare ticket sellers or air charter operators. Unfortunately, this law does not cover non-California residents and, even in the case of California residents, it does not cover any foreign travel where the foreign "providers of transportation or travel services" are not in compliance with the Sellers of Travel Law (compliance being defined as registered as a Seller of Travel in California and a participant in the Travel Consumer Restitution Fund). Thus none of Wilderness Travel's tours qualify and we are required by law to advise each client that they are not covered by the California Travel Consumer Restitution Fund. California law requires sellers of travel to maintain a trust account or bond. This business has a trust account. California Seller of Travel #100769640
