Lunch is at the Utamaduni Craft Center, one of the best crafts markets in Nairobi. ## DAY 3

### SAMBURU NATIONAL RESERVE

Transfer to Nairobi's Wilson Airport this morning for a one-hour flight north via Nanyuki to the semi-desert realm of Samburu in northern Kenya. On arrival, head to your wonderfully located camp for lunch, followed by an afternoon game drive in your open-sided 4WD vehicle in a magnificent landscape of red earth and palm-fringed, cocoa-brown rivers. Samburu's landscape is stunning and sensual, with its iconic Ololokwe Mountain, craggy terrain, clusters of baobab palms, and the wide Ewaso Nyiro River coursing through it. The river is the biggest in northern Kenya, and in Samburu's arid landscape, it assures that the wildlife is plentiful. Dozens of species gather in the thick acacia and baobab palm forests that flank the river's edge to drink and enjoy the shade. Elephants roam Samburu, along with the big cats, and here you can look for six special big game species rarely seen anywhere else: Grevy's zebra, reticulated giraffe, Somali ostrich, gerenuk, Geunther's dik-dik, and Beisa oryx. Samburu is also home to the traditional Samburu people, semi-nomadic

### DAY 4

#### SAMBURU NATIONAL RESERVE

Enjoy a full day of game viewing in open-sided 4WD vehicles at Samburu. Big blue skies, red earth, and steep volcanic mountains make Samburu National Reserve a place of rare beauty. Shaded by an exquisite landscape of yellow-barked fever trees and lush groves of doum palms, the river is a favorite watering spot for elephants, dusted red from Samburu's iron-rich soil. It also supports a large variety of other wildlife and birdlife and is an important elephant migration corridor. ### DAY 5

#### MASAI MARA NATIONAL RESERVE

A scenic flight of about 90 minutes brings you over the Great Rift Valley from Samburu down to the Masai Mara, where you head to your camp, arriving in time for lunch. Later, an afternoon game drive brings you deep into this world-renowned reserve. At an altitude of 5,000 feet and some 583 square miles in area, the Mara is simply breathtaking, with the wide Mara River snaking through its rich, tree-studded grasslands that shelter abundant wildlife. This famous river is full of hippos, and enormous groups of elephant wander through the rich marshes along its edge. Buffalo graze in the Mara in abundance, baboons leap through the brush, and solitary leopards survey from their perches in acacia trees. Overnight at Kichwa Tembo Tented Camp, set on a private Masai-owned concession adjacent to the reserve. The Kichwa Tembo concession is the only place where you can experience night game drives in the Masai Mara. As the sun sinks over the vast horizon, the African bush comes to life with predators and other nocturnal creatures. You may have the opportunity to observe fascinating species not normally encountered in daylight. Kichwa Tembo also offers several nature trails, cultural visits with the Maasai, and the opportunity to take a morning balloon safari...BLD

Optional Upgrade: Mara Ngenche Camp.

In addition to game viewing from this camp, you can enjoy cultural visits including entertainment by Maasai warriors and lectures on Maasai culture by a resident naturalist.

### DAYS 6-7

#### MASAI MARA NATIONAL RESERVE

The Mara offers fantastic game viewing throughout the year, and especially during the seasonal wildebeest migration, July-October. Resident lion

prides hold and defend territories, and the open grasslands provide ideal hunting terrain for cheetah, the planet's fastest land mammal. Large resident populations of antelope including topi, Thomson's gazelle, and Grant's gazelle can be found roaming the savanna. Blue monkey and red-tailed monkey live in the evergreen forests, while troops of banded mongoose patrol the savanna and woodlands. Large pods of hippo are found in the Mara River, and the birdlife is phenomenal, with 453 recorded species, including the impressive martial eagle, long-crested eagle, and massive bateleur dominating the skies.

After an early breakfast today, head out into the Mara by 4WD vehicle for an exciting game drive. You'll return to camp for a delicious lunch and time to refresh, then in the late afternoon, a prime time for wildlife activity, explore again by 4WD vehicle in another habitat. After sundowners at a scenic spot or back in camp, enjoy dinner while you talk about the wildlife experiences of the day and learn about the ecosystem and its animals from your expert guide. In addition to game drives, interpretive bush walks are available, led by a highly skilled guide and traditionally attired Masai naturalists. Overnights at camp... BLD each day

#### DAY 8 NAIROBI / DEPART

A scenic flight across the Mara brings you back to Nairobi, where a day room will be held for you here until your evening departure for the airport...BLD

### GIRAFFE MANOR (OPTIONAL UPGRADE)

A stay at Giraffe Manor is a delightful experience you won't find anywhere else. This luxury boutique hotel is the home base for a herd of friendly Rothschild's giraffes that love to peer in your bedroom window or wait for handouts at the breakfast table (and giraffe kisses are a must). Built in 1932 and patterned after a Scottish hunting lodge, the hotel retains its 1930s elegance and offers 10 guest rooms with large four-poster beds, antique furnishings, and spacious bathrooms. Advance booking for Giraffe Manor is highly recommended.

Set along the Ewaso Nyiro River and surrounded by doum palms and riverine forest, this small and exclusive camp has 12 luxury tents set high on stilt platforms. The spacious tents have rustic and colorful African touches and offer all the comforts, including a private plunge pool on the deck, hot and cold running water, electricity (and complimentary herbal shower and bath products.). The camp's lounge and dining area, decorated with vibrant safari style, is the place to relax in between exciting game drives. Elephant, monkey, and impala are among the camp's many regular wild visitors. Breakfast and lunch are served 'al fresco' on the banks of the Ewaso Nyiro River under the shade of the trees (weather permitting). Dinner is served in the dining area, and private meals can be arranged on the guest tent veranda or under the stars.

Forty tents with en suite facilities and private verandas are nicely set around the property and resident warthogs graze right outside your front door. ### MARA NGENCHE CAMP (OPTIONAL UPGRADE)

Each tent is partially enclosed in its own "boma," has a large four-poster king size bed or two queen size beds, offers wonderful views of the river, and is equipped with a flush toilet, large bath tub, and outside shower. Mara Ngenche is unfenced and is designed to allow the exciting movement of animals through the grounds, offering an elegant yet relaxed atmosphere for experiencing the full adventure of the African bush. # Trip Details

## WHAT THE TRIP IS LIKE

This trip is Level 2, according to the Wilderness Travel trip rating system. It is in hotels and safari camps with game viewing by 4WD vehicle. It can be enjoyed by anyone in reasonably good health. On safari, there are long driving days over rugged dirt tracks. Please note: Activities listed in the itinerary are property-specific. Not all activities are offered at every property. Please see the lodge descriptions for full details.

## WEATHER

December to March is East Africa's "summer" with daytime temperatures from 80°F-90°F and evenings from 50°F to 60°F. June, July, and August are the coolest months, with lows around 40°F and highs of 70°F-80°F. September, October, and November are warmer, with lows around 65°F and highs of 75°F-85°F. Scattered rains occur in November and early December, which help to lay the dust.

## THE GREAT MIGRATION

The annual wildebeest migration between the southern and northern portions of the Serengeti-Mara ecosystem is a wildlife spectacle with no equivalent anywhere else in Africa—or the world. It is estimated that up to 1.5 million wildebeest (accompanied by 200,000 gazelles and zebras) make the round-trip march each year, often traveling in single-file columns that stretch to the horizon. Only through migration can wildebeests take advantage of the

resources of the Serengeti-Mara ecosystem and maintain the vast numbers of their herds.

December through March: Enormous herds of wildebeest and zebra graze the rain-watered grasslands of Tanzania's Serengeti/Ngorongoro area during these months, when the plains are rich in fresh green grass. Wildebeest calving season is a six-week period between late January and mid-March. Newborn wildebeest calves stand up within minutes of their birth and within a few days can keep up with their mothers.

April and May: When the rains cease and the Serengeti grasses turn brown, the wildebeest turn west and head across the savanna toward Lake Victoria's woodlands, where the annual wildebeest rut occurs.

June: By the end of May, the wildebeest have run out of good grazing. The animals then turn north and set out on their long march to reach the grassy plains of the Masai Mara in Kenya, the northern end of the Serengeti ecosystem. The herds begin to congregate in the Mara in June, feasting on the tender new grass shoots produced by Kenya's April and May rains.

July through October: The wildebeest and zebra graze the short sweet grasses of the Masai Mara and the northern part of the Serengeti.

---

November: The wildebeest herds turn south again and return to Tanzania's Serengeti, where their winter pastures are now refreshed and regrown green.

Please note that the Great Migration is a natural event and thus the timing varies from month to month and can change each year.

### WALKING IN PARKS AND RESERVES

You will be able to walk where it is possible (and at additional cost), but this is often determined by local area and government regulations. Please note that walking in these areas is at your own risk as it can bring you close to dangerous wildlife.

### PROTECTING THE SERENGETI ECOSYSTEM

Wilderness Travel is proud to be a founding member of Friends of Serengeti, which seeks to build support, advocacy, and funding for the Serengeti ecosystem in Tanzania and Kenya. Without our support, the Serengeti, Masai Mara, and surrounding protected areas are in danger of being lost forever. We believe the success of sustainable tourism will be the deciding factor in whether the Serengeti ecosystem will survive, and a key element is bringing tangible social and economic benefits from tourism to local people. You have the opportunity to make an optional donation to Friends of Serengeti at the time of your final payment. We also support other organizations in Africa, including the Jane Goodall Institute, the Cheetah Conservation Fund, and Save the Elephants.

### CHOOSING THE RIGHT TRIP

Adventure travel often involves exotic destinations, unusual levels of physical exertion, or activities you may not have participated in previously. We work hard to help you choose the right trip for you, paying attention to your individual interests, abilities, and needs. If you have questions about the level of comfort or any of the activities described in this itinerary, please call Wilderness Travel at 1-800-368-2794 and ask for the Africa Manager or email us at [africa@wildernesstravel.com](mailto:africa@wildernesstravel.com).
