

WILDERNESS TRAVEL SPECIAL EVENTS PRESENTS

# Total Solar Eclipse of 2026

## NORTHERN SPAIN

August 2026

## DEAR FRIENDS OF WILDERNESS TRAVEL,

Join us in Northern Spain on August 12, 2026, to witness the awe-inspiring drama of a total solar eclipse as it sweeps across the Iberian Peninsula. Occurring fewer than 70 times each century, a total solar eclipse is one of nature's most exquisite phenomena. As the moon gradually obscures the sun, the world transforms: the sky darkens, temperatures drop, and the radiant solar corona becomes visible to the naked eye. It's a spectacle that leaves an indelible mark on those fortunate enough to witness it.

Our carefully planned adventure combines the eclipse with the delightful cultural and culinary traditions of Spain. We'll commence in Bilbao, celebrated for its architectural marvels and deep-rooted Basque heritage. We'll explore the city's vibrant Old Town, tour the iconic Guggenheim Museum, and learn about the region's traditions from local historian Professor Alberto Santana, who hosts a popular series on Spanish public television. We'll then visit the renowned Atapuerca archaeological site and explore the historic streets of Burgos before arriving in Lerma, a charming town graced with medieval architecture and a laid-back ambiance.

Our exclusive viewing site is at a nearby hilltop winery with sweeping views of the Meseta Norte, perfectly aligned with the eclipse's centerline. Throughout our journey, our distinguished astronomer and long-time eclipse partner Dr. Alex Filippenko will provide invaluable insights into the total solar eclipse and the mysteries of the universe.

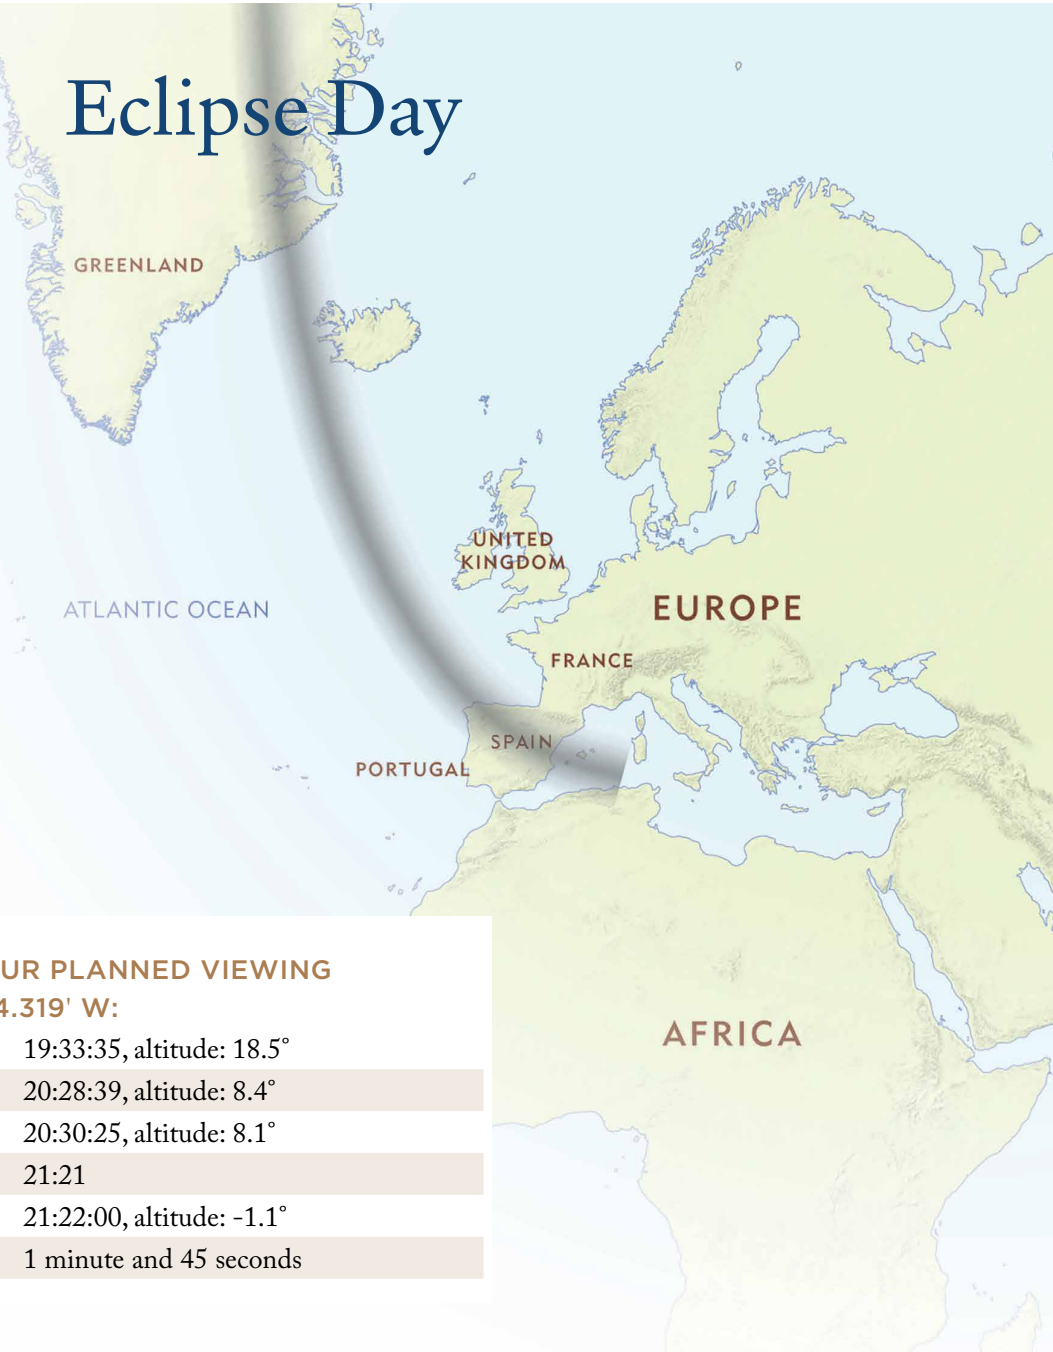

Following this eclipse program, which we designed to accommodate 120 participants, we'll offer a variety of special tours, each limited to 12-15 participants. Whether it's hiking in the Spanish Pyrenees or along ancient trails in Basque Country, making a pilgrimage on the famous Camino de Santiago, exploring the rugged coastline of Northern Spain, or venturing to the remote exotic islands of Madeira and the Azores, there's something for everyone.

We hope you'll join us, but don't wait too long as space is limited. Visit our website for more information and download the Detailed Itineraries of the Post-Eclipse Adventures.

# Eclipse Day

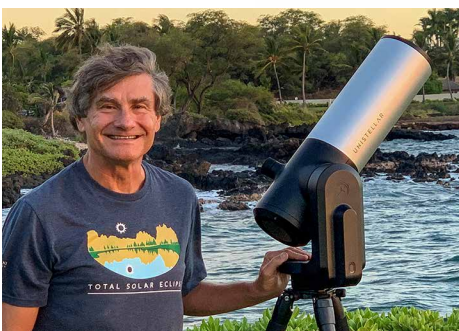

## ECLIPSE VIEWING CONDITIONS

Working with former NASA meteorologist and renowned eclipse expert Jay Anderson to select an ideal location to maximize our eclipse viewing prospects, we settled on what we think is one of the most promising locations along the entire eclipse path. It offers sweeping views in the direction of the approaching eclipse. The Cantabrian Mountains to the north should block the clouds normally found over the Bay of Biscay. At the same time, it is far enough west so we don't have to worry about the cloudiness that can blanket the Mediterranean coast at this time of year.

## LOCAL CONTACT TIMES FOR OUR PLANNED VIEWING POSITION AT 42° 9.431' N, 3° 54.319' W:

1st contact (eclipse begins)	19:33:35, altitude: 18.5°
2nd contact (totality begins)	20:28:39, altitude: 8.4°
3rd contact (totality ends)	20:30:25, altitude: 8.1°
Sunset	21:21
4th contact (eclipse ends)	21:22:00, altitude: -1.1°
Duration of totality	1 minute and 45 seconds

## OUR EXPERT ASTRONOMER ALEX FILIPPENKO, PHD

A distinguished astrophysicist and professor at UC Berkeley, Dr. Alex Filippenko has made significant contributions to our understanding of the cosmos. Dr. Filippenko's exceptional research has earned him the highly coveted Breakthrough Prize in Fundamental Physics, showcasing his pioneering work on the accelerating expansion of the universe. His dedication to education is equally impressive, having received the Carl Sagan Prize for Science Popularization, demonstrating his commitment to sharing the wonders of the universe with the public. He's been voted the "Best Professor" at UC Berkeley a record nine times, has over 700 scientific publications, produced courses with *The Great Courses*, co-authored an award-winning textbook, has appeared in many episodes of *The Universe* documentary series, and continues to inspire and shape the next generation of astronomers while unraveling the mysteries of the cosmos. He has experienced 19 total solar eclipses, joining Wilderness Travel for 14 of them, and he will join us again in 2026 for his 21st eclipse!

# Accommodations

## DAYS 1-2: HOTEL CARLTON, BILBAO, SPAIN

The Hotel Carlton, built in 1919, is an impressive Beaux Arts monument in the grand style of its era. It is centrally located in the Old Town on Plaza de Federico Moyúa and just a short walk to the Guggenheim Museum. The hotel was the seat of the Basque government during the Spanish Civil War.

## DAYS 3-4: PARADOR DE LERMA, LERMA, SPAIN

Built in the 17th century atop a medieval castle, this former Ducal Palace was built by the Duke of Lerma as a place of lodging, rest, and general enjoyment for his close friend, King Felipe III. The palace has a central courtyard surrounded by stately columned galleries, and features interiors from the era of the Hapsburgs, with beautifully designed lighting and décor.

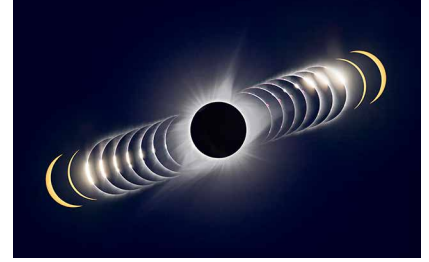

## Eclipse Viewing Location

Bodegas Buezo, situated in the Arlanza wine-growing region, was chosen for our exclusive use because of its sweeping views along the eclipse centerline. The spacious lawn and patio will provide an optimal vantage point, perfect for photographers including those with cameras or telescopes on tripods. We'll spend our afternoon enjoying a winery tour, savoring fine wines, indulging in tapas, and eagerly anticipating the early evening's celestial spectacle.

PARADOR DE LERMA

# Eclipse Program Itinerary

**AUGUST 9, 2026: BILBAO, SPAIN** Arrive in Bilbao, and gather together for a Welcome Reception and Dinner to the tune of a live Basque jazz quartet.

## **AUGUST 10, 2026: BILBAO**

Full day exploring Bilbao, walking the city streets, cruising down the Nervión River, and touring the Guggenheim. Our astronomer, Dr. Alex Filippenko, will begin his series of talks on eclipses and other celestial phenomena, and Professor Alberto Santana will regale us with stories of the Basque people.

## **AUGUST 11, 2026: BURGOS /**

**LERMA** Traveling from Bilbao to Lerma, we'll visit one of the most important paleoanthropological sites in Europe, the UNESCO World Heritage site of Atapuerca, where Europe's earliest known hominins were discovered. In charming Burgos, we'll walk the historic old town and visit the famed cathedral "Our Lady of Burgos," known for its imposing Gothic architecture. Our home base for the eclipse is the historic Parador de Lerma, the 17th century Ducal Palace that is today one of the most important historical buildings in the region.

**AUGUST 12, 2026: LERMA / ECLIPSE!** There will be time to explore Lerma on your own before heading to our private eclipse-viewing site on a hilltop winery overlooking the Meseta Norte. You'll have plenty of space and time to find your preferred viewing spot. Refreshments will be available,

and if you'd like, you can take a winery tour and indulge in a wine tasting. After the eclipse, we'll gather for a celebratory dinner in the winery dining room.

## **AUGUST 13, 2026: DEPART FOR POST-ECLIPSE ADVENTURES**

This morning you'll depart for one of the following six tours we've paired with the eclipse to enrich our experience in this diverse region.

Please view our eclipse trip webpage to download Detailed Itineraries of the following Post-Eclipse Adventures:

# Pilgrim's Way: El Camino de Santiago

ANCIENT TRAILS & PARADORS OF NORTHERN SPAIN | AUGUST 9-20, 2026

After the thrill of our eclipse event, we'll set out on a unique pilgrimage hike to discover the very best of the landscapes and villages of this famous trail (and skip sections that parallel highways). The Way of St. James leading to the holy city of Santiago de Compostela has drawn pilgrims and travelers for centuries. We'll follow country lanes marked with the scallop shell, the symbol of St. James, hike through misty forests of gnarled oaks, and walk barefoot along the beach at Finisterre—mythical Kilometer 0 on the pilgrim trail. Along the way, we enjoy the camaraderie of fellow pilgrims from around the world and relish our carefully selected hotels, including two nights at the extraordinary Parador de Santiago de Compostela, overlooking the Cathedral of St. James.

**DAYS 1-4, AUGUST 9-12, 2026: TOTAL SOLAR ECLIPSE PROGRAM, BILBAO TO LERMA, SPAIN**

**DAYS 5-6, AUGUST 13-14: LEÓN / ASTORGA / CRUZ DE FERRO**

Explore León's soaring Gothic cathedral, head to Astorga, and start the El Camino hike, passing the historic Cruz de Ferro.

**DAYS 7-9, AUGUST 15-17: O CEBREIRO / SAMOS / SARRIA / A CORUÑA**

Hike the El Camino path to the mystical village of O Cebreiro. From Sarria, hike to Portomarín on one of the most spectacular stretches of the entire pilgrim trail.

**DAYS 10-12, AUGUST 18-20: SANTIAGO DE COMPOSTELA /**

**LANGOSTEIRA BEACH / FINISTERRE** Hike into Santiago, then to the beach at Finisterre and its Kilometer 0 marker. Depart on Day 12.
